"A powerful book on caste, a subject that has dramatic importance not only for the history of democracy in modern India, but for the

general discussion on the interferences of social inequalities and cultural exclusions. The Caste Question goes beyond the usual antitheses of localism and globalism, and illustrates a decisive notion of intensive universality."—Etienne Balibar "A sustained and probing analysis of the modern history of caste in Western India, connecting issues of gender, personhood, property, and politics to facts of oppression and inequality. This is the most politically and theoretically engaged book on caste to have come out in a long time."—Dipesh Chakrabarty, author of *Habitations of Modernity* "A profound reflection, at once historically rich and theoretically nuanced, on the nature of

political modernity itself."—John Comaroff, co-author (with Jean Comaroff) of *Revelation and Revolution* "Rao is entirely convincing in this brilliant and audacious re-evaluation of political modernity in India through the perspective of anti-caste struggles."—Mrinalini Sinha, author of *Specters of Mother India: The Global Restructuring of an Empire* *Indian Journal of Applied Linguistics* Oswaal Books and Learning Private Limited

This book details an intensive case study of an Indian state that is more or less representative of the Muslim minorities in the country as a whole. The northern Indian province under study has a fair amount of Muslim population with a good number of educational institutions at different levels and grades. These institutions provide both traditional and modern education, which highlights the delicacies of the problems faced when promoting higher education in a comprehensive and inclusive way. This book is a detailed investigation based on a case study and surveys and interaction

with many stakeholders including students, teachers and principals. The findings presented here will be useful in reshaping and revamping minority higher education plans in India, as well as policies related to these institutions.

The "Maratha period"
of the seventeenth and
eighteenth centuries,
when an independent
Maratha state
successfully resisted
the Mughals, is a

defining era in the
history of the region of
Maharashtra in western
India. In this book,
Prachi Deshpande
considers the
importance of this
period for a variety of
political projects
including
anticolonial/Hindu
nationalism and the
non-Brahman
movement, as well as
popular debates
throughout the
nineteenth and
twentieth centuries
concerning the
meaning of tradition,
culture, and the
experience of
colonialism and
modernity. Sampling
from a rich body of
literary and cultural
sources, Deshpande
highlights shifts in
history writing in early
modern and modern
India and the deep
connections between

historical and literary narratives. She traces the reproduction of the Maratha period in various genres and public arenas, its incorporation into regional political symbolism, and its centrality to the making of a modern Marathi regional consciousness. She also shows how historical memory provided a space for Indians to negotiate among their national, religious, and regional identities, pointing to history's deeper potential in shaping politics within thoroughly diverse societies. A truly unique study, *Creative Pasts* examines the practices of historiography and popular memory within a particular colonial context, and

illuminates the impact of colonialism on colonized societies and cultures. Furthermore, it shows how modern history and historical memory are jointly created through the interplay of cultural activities, power structures, and political rhetoric.

Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for

administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how

globalization has strengthened the connection between English and employment.
