After a parrot makes fun of Sooki's big ears, long nose, and wrinkled skin, the "saggy baggy" elephant isn't too sure of himself. But once he meets some beautiful creatures who look just like him, Sooki celebrates with a joyful "one-two-three-kick." For over 50 years, parents and

children have treasured this tale, with gorgeous art by Gustaf Tenggren, the illustrator of *The Poky Little Puppy*.

NATIONAL BESTSELLER • “A fire-breathing, righteous attack on the culture of superprivilege.”—Michael Wolff, author of the #1 New York Times bestseller *Fire and Fury*, in the New York Times Book Review
 NOW WITH NEW REPORTING ON OPERATION VARSITY BLUES In this explosive and prescient book, based on three years of investigative reporting, Pulitzer Prize winner Daniel Golden shatters the myth of an American meritocracy. Naming names, along with grades and test scores, Golden lays bare a corrupt system in which middle-class and working-class whites and Asian Americans are

routinely passed over in favor of wealthy white students with lesser credentials—children of alumni, big donors, and celebrities. He reveals how a family donation got Jared Kushner into Harvard, and how colleges comply with Title IX by giving scholarships to rich women in “patrician sports” like horseback riding and crew. With a riveting new chapter on Operation Varsity Blues, based on original reporting, *The Price of Admission* is a must-read—not only for parents and students with a personal stake in college admissions but also for those disturbed by the growing divide between ordinary and privileged Americans. Praise for *The Price of Admission* “A disturbing exposé of the influence that wealth and power still exert on admission to the nation’s most prestigious universities.”—The Washington Post “Deserves to become a classic.”—The Economist

Golden Days Harper Collins

'What is a self and how can a self come out of inanimate matter?' This is the riddle that drove Douglas Hofstadter to write this extraordinary book. In order to impart his original and personal view on the core

mystery of human existence - our intangible sensation of 'I'-ness - Hofstadter defines the playful yet seemingly paradoxical notion of 'strange loop', and explicates this idea using analogies from many disciplines.

Why the gold standard is due for a comeback A reserve currency can only function as such if there is a general consensus that it provides a stable store of value. Without this trust, money, no matter what form it takes, will be abandoned—either suddenly in a crisis, or gradually over time—in favor of something else. The Golden Revolution looks at how the world is rapidly moving toward some form of global metallic standard, in which money, at least in official, international transactions, is linked directly to gold, silver, or both. The practical reality of the transition to the coming global gold (or bimetallic) standard is going to be substantially different from the global fiat monetary and financial regime of today. It is not just money that is going to change. The nature and business of banking will also be affected, as will finance in general. Incisive and thoughtful, *The Golden*

Revolution is a treatise on the broad effects of the current and future monetary structure Looks at why the world is headed inexorably back towards a metallic money standard Explores what the transition period might look like, including some historical examples of both orderly and disorderly transitions Examines how the world of banking, finance, and investment, including asset valuation and portfolio management techniques, will work under a future gold standard and which industries, countries and markets are likely to benefit and which are likely to suffer Full of advice on how investors can profit and protect themselves during this critical time of change, the book knows that those who are prepared will prosper, while those who won't stand to lose it all. S. Chand's Principles Of Physics For XI Penguin Group(CA)

The computer science problem whose solution could transform life as we know it The P-NP problem is the most important open problem in computer science, if not all of mathematics. Simply stated, it asks whether every problem whose solution can

be quickly checked by computer can also be quickly solved by computer. The Golden Ticket provides a nontechnical introduction to P-NP, its rich history, and its algorithmic implications for everything we do with computers and beyond. Lance Fortnow traces the history and development of P-NP, giving examples from a variety of disciplines, including economics, physics, and biology. He explores problems that capture the full difficulty of the P-NP dilemma, from discovering the shortest route through all the rides at Disney World to finding large groups of friends on Facebook. The Golden Ticket explores what we truly can and cannot achieve computationally, describing the benefits and unexpected challenges of this compelling problem. Golden Guides from St. Martin's Press
NEW YORK TIMES BESTSELLER • A modern American epic set against the panorama of contemporary politics and culture—a hurtling, page-turning mystery that is equal parts *The Great Gatsby* and *The Bonfire of the Vanities* ONE OF THE BEST BOOKS OF THE YEAR: NPR, PBS, Harper's Bazaar, Esquire, Financial Times, The Times of India On the day of Barack Obama's inauguration, an enigmatic billionaire from foreign shores takes up residence in the architectural jewel of "the Gardens," a cloistered community in New York's Greenwich Village. The

neighborhood is a bubble within a bubble, and the residents are immediately intrigued by the eccentric newcomer and his family. Along with his improbable name, untraceable accent, and unmistakable whiff of danger, Nero Golden has brought along his three adult sons: agoraphobic, alcoholic Petya, a brilliant recluse with a tortured mind; Apu, the flamboyant artist, sexually and spiritually omnivorous, famous on twenty blocks; and D, at twenty-two the baby of the family, harboring an explosive secret even from himself. There is no mother, no wife; at least not until Vasilisa, a sleek Russian expat, snags the septuagenarian Nero, becoming the queen to his king—a queen in want of an heir. Our guide to the Golden's world is their neighbor René, an ambitious young filmmaker. Researching a movie about the Golden's, he ingratiates himself into their household. Seduced by their mystique, he is inevitably implicated in their quarrels, their infidelities, and, indeed, their crimes. Meanwhile, like a bad joke, a certain comic-book villain embarks upon a crass presidential run that turns New York upside-down. Set against the strange and exuberant backdrop of

current American culture and politics, *The Golden House* also marks Salman Rushdie's triumphant and exciting return to realism. The result is a modern epic of love and terrorism, loss and reinvention—a powerful, timely story told with the daring and panache that make Salman Rushdie a force of light in our dark new age.

LONGLISTED FOR THE 2022 NATIONAL BOOK AWARD FOR POETRY "Outstanding . . . the poetry in these pages is intelligent, lyrical, as invested in the past as the present and future with witty nods to pop culture." —Roxane Gay, author of *Hunger* "I've never read anything like it. Truly a sublime experience." —Jason Reynolds, author of *Ain't Burned All the Bright A* groundbreaking collection about Afropioneerism past and present from Pushcart Prize-nominated poet and New York Times bestselling author Rio Cortez From a visionary writer praised for her captivating work on Black history and experience comes a poetry collection exploring personal, political, and artistic frontiers, journeying from her family's history as "Afropioneers" in the American

West to shimmering glimpses of transcendent, liberated futures. In poems that range from wry, tongue-in-cheek observations about contemporary life to more nuanced meditations on her ancestors—some of the earliest Black pioneers to settle in the western United States after Reconstruction—Golden Ax invites readers to re-imagine the West, Black womanhood, and the legacies that shape and sustain the pursuit of freedom.

A brother and sister's search for a new life and new home . . . 5,000 years ago in ancient Mesopotamia during a terrible drought, Jomar and Zefa's father must send his children away to the city of Ur because he can no longer feed them. At fourteen, Jomar is old enough to apprentice with Sidah, a master goldsmith for the temple of the moongod, but there is no place for Zefa in Sidah's household. Zefa, a talented but untrained musician, is

forced to play her music and sing for alms on the streets of Ur. Marjorie Cowley vividly imagines the intrigues, and harsh struggle for survival in ancient Mesopotamia.
