JAMARCUS JOHNNY

Catalogue of Auction Allyn & Bacon
 British authority on medieval weapons
 surveys European arms and armor from
 the Bronze Age to the time of triumph of
 gunpowder.
The Czech Republic [Lawrence] :
 University of Kansas Libraries
 The Winter's Tale is a play by William
 Shakespeare originally published in the
 First Folio of 1623. Although it was
 grouped among the comedies, many
 modern editors have relabelled the play as
 one of Shakespeare's late romances.
 Some critics consider it to be one of
 Shakespeare's problem plays because the

first three acts are filled with intense
 psychological drama, while the last two
 acts are comedic and supply a happy
 ending

Acta Geologica Universitatis Comenianae
 Longman Publishing Group
 This volume contains 40 selected full-text
 contributions from the Sixth European
 Conference on Geostatistics for
 Environmental Applications, geoENV IV,
 held in Rhodes, Greece, October 25-26,
 2006. The objective of the editors was to
 compile a set of papers from which the
 reader could perceive how geostatistics is
 applied within the environmental sciences.
 A few selected theoretical contributions
 are also included.

Reference Electrodes are a crucial part of any electrochemical system, yet an up-to-date and comprehensive handbook is long overdue. Here, an experienced team of electrochemists provides an in-depth source of information and data for the proper choice and construction of reference electrodes. This includes all kinds of applications such as aqueous and non-aqueous solutions, ionic liquids, glass melts, solid electrolyte systems, and membrane electrodes. Advanced technologies such as miniaturized, conducting-polymer-based, screen-printed or disposable reference electrodes are also covered. Essential know-how is clearly presented and illustrated with almost 200 figures.

Grapheion Springer Science & Business Media

This book provides grammar exercises for students working with a teacher. The book can be used in any order depending on the

personal needs of the students and the exercises are not arranged in order of increasing difficulty, but are marked with asterisks to indicate their relative degree of difficulty.

An elegant novel set in Prague about the possibility of freedom in an unfree state, from the acclaimed author of *The Songlines* and *In Patagonia* Utz collects Meissen porcelain with a passion. His collection, which he has protected and enlarged through both World War II and Czechoslovakia's years of Stalinism, numbers more than 1,000 pieces, all crammed into his two-room Prague flat. Utz is allowed to leave the country each year, and although he has considered defection, he always returns. He cannot take his precious collection with him, but he cannot leave it, either. And so Utz is as much owned by his porcelain as it is owned by him, as much of a prisoner of the collection as of the Communist state. A fascinating, enigmatic man, Kaspar Utz is

one of Bruce Chatwin's finest creations. And his story, as delicately cast as one of Utz's porcelain figures, is unforgettable.
