 In this pioneering work Victor Neuberg has assembled a wealth of information about popular literature, from the invention of the printing press to the present. This guide, by judicious selection, gives a vivid picture of the range and variety of popular literature and its producers. Besides describing the main genres, the author has also included the social, cultural and commercial background to the production of popular literature, factors that were crucial in influencing the forms it took.

 Distribution Revolution is a collection of interviews with leading film and TV professionals concerning the many ways that digital delivery systems are transforming the entertainment business. These interviews provide lively insider accounts from studio executives, distribution professionals, and creative talent of the tumultuous transformation of film and TV in the digital era. The first section features interviews with top executives at major

Hollywood studios, providing a window into the big-picture concerns of media conglomerates with respect to changing business models, revenue streams, and audience behaviors. The second focuses on innovative enterprises that are providing path-breaking models for new modes of content creation, curation, and distribution—creatively meshing the strategies and practices of Hollywood and Silicon Valley. And the final section offers insights from creative talent whose professional practices, compensation, and everyday working conditions have been transformed over the past ten years. Taken together, these interviews demonstrate that virtually every aspect of the film and television businesses is being affected by the digital distribution revolution, a revolution that has likely just begun. Interviewees include: ¥ Gary Newman, Chairman, 20th Century Fox Television ¥ Kelly Summers, Former Vice President, Global Business Development and New Media Strategy, Walt Disney Studios ¥ Thomas Gewecke, Chief Digital Officer and Executive Vice President, Strategy and Business Development, Warner Bros.  Sex sells. Already a ten-billion dollar business—and growing—most sex businesses require relatively low start-up costs and minimal equipment. No wonder retired porn stars, homemakers, college students, and entrepreneurs of every stripe are eager to jump on the smut band wagon. Following the money trail, or in this case, the telecom routes, the author reveals how some big phone companies are cashing in too. Obscene Profits offers a startling and entertaining new look at this very old business, and shows why pornography, in all of its variations—videos, magazines, phone-sex, spy cameras, etc.—is one of the most profitable and popular new careers to come out of the electronic age.

 Adult is a magazine of new erotics. Through photography, conversation, art, criticism, essays and original reporting, it returns to the first meaning of "radical"—the roots of things, traced below the skin. "The first issue reads as if Hustler married The Paris Review," said New York magazine, while The New Republic declared that "Adult hits its mark: it straddles the mundane and the shocking in a way that feels natural." The second issue explores what the art critic Leo Steinberg called "the condition of being deathbound and sexed," and includes a profile of the cult-film idol Udo Kier at home in Palm Springs, an interview with the masterful English painter Cecily Brown and a gorgeously reported feature on Satanism in the city from journalist Katie Baker. Other contributors include poet Melissa Broder, writer and artist Molly Crabapple, porn star and writer Stoya, author Stephanie LaCava, artist and writer Brad Phillips, novelist Catherine Lacey and more. Photographers include John Edmonds, Stacey Mark and Natasha Gornik; artists and illustrators include Quentin Jones, SamMcKinniss, Mike Rinaldi and Mia Schwartz. The magazine is edited by Sarah Nicole Prickett and creative-directed by Berkeley Poole.

In the five years since the first edition of *Developing Library Collections for Today's Young Adults* was published, numerous changes have taken place in the landscape of young adult literature and young adult library services. Informed by the professional activism—including the “We Need Diverse Books” (#wndb) movement—today’s professionals recognize that library collections for young adults are incomplete if they fail to address

and reflect a diversity of racial, ethnic, and cultural identities; gender identities; sexual orientations; and identities related to ability and disability. Contemporary librarians working to diversify their collections select material in a number of formats and must consider the accessibility of both old and new media as they select titles and resources. *Developing Library Collections for Today's Young Adults, Ensuring Inclusion and Access, Second Edition*, offers guidance to librarians confronted with an expanding universe of published material from which to select. With special emphasis on the principles of inclusion and accessibility, this new edition of *Developing Library Collections* includes guidelines for creating a young adult collection development policy, conducting a needs assessment, and evaluating and selecting print and nonprint material for the

library’s YA collection.
