Black Haze, Second Edition Grand Central Publishing
 When does becoming part of the team go too far? For decades, young men and women endured degrading and dangerous rituals in order to join sororities and fraternities while college administrators blindly accepted their consequences. In recent years, these practices have spilled over into the mainstream, polluting military organizations, sports teams, and even secondary schools. In *Destroying Young Lives: Hazing in Schools and the Military*, Hank Nuwer assembles an extraordinary cast of analysts to catalog the evolution of this dangerous practice, from the first hazing death at Cornell University in 1863 to present day tragedies. This hard-hitting compilation

addresses the numerous, significant, and often overlooked impacts of hazing, including including sexual exploitation, mental distress, depression, and even suicide. *Destroying Young Lives* is a compelling look at how universities, the military, and other social groups can learn from past mistakes and protect their members going forward.

Baird's Manual of American College Fraternities Lulu.com

A Dartmouth fraternity member who blew the whistle on inhumane hazing practices in a Rolling Stone profile presents a true account of sordidness and redemption.

Encyclopedia of American Folklife Indiana University Press

Going Greek offers an unprecedented look at the relationship between American Jewish students and fraternity life during its heyday in the first half of the twentieth century. More than secret social clubs, fraternities and sororities profoundly shaped the lives of members long after they left college—often dictating choices in marriage as well as business alliances. Widely viewed as a key to success, membership in these self-governing, sectarian organizations was desirable but not easily accessible, especially to non-Protestants and nonwhites. In *Going Greek* Marianne Sanua examines the founding of Jewish fraternities in light of such topics as antisemitism, the unique

challenges faced by Jewish students on campuses across the United States, responses to World War II, and questions pertaining to assimilation and/or identity reinforcement. The book covers a vast array of information, from the many famous people who belonged to Jewish fraternities to the songs they sang. Snobbery within the fraternities—what behavior constituted the "proper image" for an American Jew—comes up for discussion, but so does the increasing awareness of Jewish students toward issues of social justice. For several generations of leaders in the national Jewish community, fraternities were central to their lives. Going Greek thus provides historians and biographers with a window onto an important aspect of American Jewish cultural experience. [The Negro in American History, Men and Women Eminent in the Evolution of the American of African Descent](#) Black Haze, Second Edition Violence, Sacrifice, and Manhood in Black Greek-Letter Fraternities

The rich history and social significance of the "Divine Nine" African American Greek-letter organizations is explored in this comprehensive anthology. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members,

exerting considerable influence in the African American community and being in the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King, Jr., Toni Morrison, Arthur Ashe, and Sarah Vaughn are just a few of the trailblazing members of these organizations. African American Fraternities and Sororities places the history of these organizations in context, linking them to other movements and organizations that predated them and tying their history to the Civil Rights movement. It explores various cultural aspects of the organizations, such as auxiliary groups, branding, calls, and stepping, and highlights the unique role of African American sororities.

2015 Edition: With a New Preface, Afterword, and Updates. "Alexandra Robbins rips into the secret, sordid underbelly of sororities."--Vanity Fair Updated ten years after it is original publication, Pledged by Alexandra Robbins is as timely today as it was when first published. With salacious breaking news about fraternities and sororities shocking the general public (and members themselves) Pledged exposes what really goes on behind the facades of some of these Greek organizations. Robbins, an investigative journalist, went undercover as a sorority sister; her expose is a breathtaking narrative of tumultuous breakups, fights, drunk driving, stalkers, cover-ups, predation by faculty and staff, theft, rape, and an abundance of drugs and alcohol, and much, much more.

Expanded and revised edition of the first book devoted solely to black fraternity hazing. Are black men naturally violent? Do they define manhood in the same way as their counterparts across lines of race? Are black Greek-letter fraternities among the most dangerous student organizations on American college and university campuses? Can their often-dangerous initiation processes be stopped or even modified and, if not, what should be done about them? In this second edition of *Black Haze*, Ricky L. Jones takes on these questions and more. The first edition was an enlightening and sometimes disturbing examination of American men's quest for acceptance, comfort, reaffirmation, and manhood in a world where their footing is often unstable. In this new edition Jones not only provides masterful philosophical and ethical analyses but he also forces the engagement of a terrifying real world process that damages and kills students with all too frequent regularity. With a revealing new preface and stunning afterword, Jones immerses the reader in an intriguing and dark world marked by hypermasculinity, unapologetic brutality, and sometimes death. He offers a compelling book that ranges well beyond the subject of hazing—one that yields perplexing questions and demands difficult choices as we move forward in addressing issues surrounding fraternities, violent hazing, black men, and American society. "Black Haze is a landmark study on hazing culture within black Greek-letter organizations. With an insider's eye and scholar's touch, Jones masterfully captures the emic contours, complexities, and contradictions of black fraternity hazing as ritual act and cultural practice. This text is at once rigorous and accessible, theoretical and practical, classic and urgent. Anyone interested in understanding hazing, masculinity, BGLOs, or black cultural practice must read this book!" — Marc Lamont Hill, coauthor of *The Classroom and the Cell: Conversations on Black Life in America* "Black Haze is a compelling survey of black Greek-letter organizations, their history, purpose, and their most damning traditions. This is an examination of how the virtues of brotherhood and civic service coexist with brutal violence and cruelty within some of the oldest organizations in black America. Professor Jones has produced a vital contribution about a crucial and enduring problem." — William Jelani Cobb, author of *The Substance of Hope: Barack Obama and the Paradox of Progress* "Ricky Jones's *Black Haze* is an important study of black male identity development. By examining black men's relationship with fraternities, he uncovers larger and brilliantly penetrating insights into issues of masculinity and political identity among African American males in the post-civil rights era." — Peniel E. Joseph, author of *Waiting 'Til the Midnight Hour: A Narrative History of Black Power in America* "Black Haze is a riveting coup de grâce against ritualized violence in black fraternities. The second edition of *Black Haze* is the most penetrating, illuminating, and articulate sociopolitical and cultural analysis of the chilling legacy of violence in black Greek-letter fraternities. As one of the world's leading authorities on black masculinity and organizations, Ricky Jones intelligently confronts traditional verities, social norms, and myths that seek to justify and continue ritualized violence in black fraternities through the courageous prism of a reformed insider dedicated to the preservation of black dignity and life." — Jeremy I. Levitt, author of *Black Women and International Law: Deliberate Interactions, Movements and Actions Praise for the First*

Edition "...provides valuable insights into the reasoning behind hazing, a practice that extends into the realms of sports and even high school, and is relevant for not only fraternity members and officials, but the general public as well." — The Griot "...an important contribution ... because of the skillful manner in which Jones incorporates and critically analyzes relevant literature and other related scholarly writings ... Jones, himself a member of Kappa Alpha Psi, offers personal observations as well as first-hand views and perceptions of hazing." — Journal of College Student Development

Key Themes in the Ethnography of Education Bloomsbury Publishing

Before You Pledge: Essential Information You Should Know About the Divine Nine is an important read for all those considering joining a Black Greek Letter Organization or for anyone wanting to simply learn about the origin of this august body of black men and women. The dawn of the twentieth century brought many challenges to young African American students seeking enrollment at all-white college campuses. Intense racial prejudice forced many black students to leave predominantly white universities. And at the same time, on Historically Black College campuses, the desire for fellowship through shared social experiences led to the rise of Black Greek life, starting with Cornell University in New York. Alpha Phi Alpha, the first black fraternity formed at a predominantly white university in 1906, would point the way for similar organizations to develop. Between 1906 and 1922, eight Black Greek Letter Organizations were formed, with a ninth in 1963. Known collectively as the "Divine Nine," these five fraternities and four sororities would go on to shape the course of Black America. Together, these young black men and women would face down racial prejudice, take the lead in the fight for social justice, in the end, reshape the American cultural landscape. Finally, no other group of people can claim to have the sheer degree of accomplishments in all areas of human activity in the United States and in many other parts of the world compared to the Divine Nine.

Hazing Hachette Books

"This is a beautifully written book that takes the reader to the heart of ethnography as experience. Readers can walk in the shoes of ethnographers who have travelled before them, and learn as they learned. Sara Delamont is an undisputed expert in both ethnography and education, and here illustrates she is also a tour de force in writing style. All the important ingredients for a recipe to make a good quality ethnography are here, and they are served up with relish!" - Karen O'Reilly, Loughborough University "This is a powerful, richly nuanced, evocative work; a stunning and brilliantly innovative intervention. It provides ground zero - the starting place for the next generation of social scholars of education. A major accomplishment." - Norman K. Denzin, University of Illinois at Urbana-Champaign The ethnography of education has been conducted by sociologists and anthropologists, largely in self-contained and self-referential ways. This book celebrates the continuities and the strengths of ethnographic research on education in formal and non-formal settings, deliberately transgressing the sociology/anthropology divide. Education is broadly defined to cover many settings other than schools, in many countries, for many age-groups. The book is structured thematically, including chapters on movement and mobilities, memorials and memories, time and timescapes, bodies, and performativities, multi-sensory research, and narratives. Strategies for designing innovative ethnographic projects, and for fighting familiarity are provided.

Jewish College Fraternities in the United States, 1895-1945 SAGE

Black Greek 101 is the first book to provide a complete analysis of the culture of historically Black fraternities and sororities. Based on over ten years of research, *Black Greek 101* presents a detailed history of Black fraternalism as a whole. As a unique culture within the college environment, these organizations are fascinating examples of the ways students form groups with their own artifacts, rites, customs, stories, and rituals that help them to adapt to the larger college environment. When members of Black fraternal organizations and non-members alike finish *Black Greek 101*, they will have a foundation for understanding some of the most interesting organizations that have influenced not only campus culture, but American culture as a whole.

[Reports of Sub-committees](#) LLMC

"A masterpiece of multidisciplinary scholarship that clearly demonstrates the contemporary relevance of black fraternities and sororities." —Hasan Kwame Jeffries, author of *Bloody Lowndes* During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. To foster a greater engagement with the history and contributions of BGLOs, Black Greek-Letter Organizations in the Twenty-first Century brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, *Black Greek-Letter*

Organizations in the Twenty-first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.

Wrongs of Passage SUNY Press

Written with clarity and passion, Preventing Hazing uncovers the deep roots of hazing, how and why it permeates schools, colleges, and communities, and what parents, teachers, and coaches can do to prevent it. The author shows how to recognize the warning signs, what to do if a student has been involved in a hazing (either as a victim, bystander, or perpetrator), how to deal with the moral, legal, and emotional aspects of hazing, and, ultimately, how to heal and move forward both as an individual and a community.

Confessions of an Ivy League Frat Boy University Press of Kentucky

Black Haze, Second Edition Violence, Sacrifice, and Manhood in Black Greek-Letter Fraternities SUNY Press

An Intertextual and Theological Exegesis The Open University

The American Fraternity is a mysterious photo and ritual book that lifts the veil on America's oldest and most influential male tradition. The text comes from a decaying ritual manual from a prominent college fraternity. Seventy-five percent of modern U.S. presidents, senators, justices, and executives have taken arcane oaths of allegiance like the ones it contains. Six decades of red ceremonial wax stain it like blood. It is filled with dark power.

Violence, Sacrifice, and Manhood in Black Greek-Letter Fraternities Wayne State University Press

THE NEW YORK TIMES BEST-SELLER Put simply, it's time for a national update on college fraternities. Greek life today makes Animal House look like a Pixar movie. The amount of alcohol

that is being consumed, promiscuous sex that is being enjoyed, and intense drug-induced raging that is taking place on campuses across the country has quietly reached ridiculous new heights. Written with the goal of being the most fun you've ever had reading a book, TOTAL FRAT MOVE pulls back the curtain on this world of hard-partying American decadence. The stories are unabashed. They are hilarious. And they are going to blow you away. You're welcome, world.

Acts of the National Council Macmillan

Brian Abasciano continues his project examining the use of the Old Testament in Romans 9.

Abasciano builds upon his forthcoming LNTS volume Paul's Use of the Old Testament in Romans 9.1-9, continuing the project begun in that volume and its intertextual methodology. This method incorporates into a thorough traditional exegesis a comprehensive analysis of Paul's use of Scripture against the background of interpretive traditions surrounding the texts alluded to, with great emphasis placed on analyzing the original contexts of Paul's citations and allusions. Such an intertextual exegesis is conducted in Romans 9:10-33 with an awareness of the broader unit of chapters 9-11 especially, and also the epistle as a whole. Conclusions for the meaning of these passages and their theological significance are drawn. Formerly the Journal for the Study of the New Testament Supplement, this is a book series that explores the many aspects of New Testament study including historical perspectives, social-scientific and literary theory, and theological, cultural and contextual approaches. The Early Christianity in Context series, a part of JSNTS, examines the birth and development of early Christianity up to the end of the third century CE. The series places Christianity in its social, cultural, political and economic context. European Seminar on Christian Origins and Journal for the Study of the Historical Jesus Supplement are also

part of JSNTS.

The Eleusis of Chi Omega University Press of Kentucky

The author highlights the worst aspects of college life, focusing on hazing and binge drinking and the tragedies that have resulted, and challenging the college administrators who continue to allow it to go on. Reprint.

The Delta Upsilon John Wiley & Sons

American folklife is steeped in world cultures, or invented as new culture, always evolving, yet often practiced as it was created many years or even centuries ago. This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America - from barn raisings to the Internet, tattoos, and Zydeco - through expressions that include ritual, custom, crafts, architecture, food, clothing, and art. Featuring more than 350 A-Z entries, "Encyclopedia of American Folklife" is wide-ranging and inclusive. Entries cover major cities and urban centers; new and established immigrant groups as well as native Americans; American territories, such as Guam and Samoa; major issues, such as education and intellectual property; and expressions of material culture, such as homes, dress, food, and crafts. This encyclopedia covers notable folklife areas as well as general regional categories. It addresses religious groups (reflecting diversity within groups such as the Amish and the Jews), age groups (both old age and youth gangs), and contemporary folk groups (skateboarders and psychobillies) - placing all of them in the vivid tapestry of folklife in America. In addition, this resource offers useful insights on folklife concepts through entries such as "community and group" and "tradition and culture." The set also features complete indexes in each volume, as well as a bibliography for further research.
