*Your Guide to a Wonderful Life* Simon and Schuster  
 Can fate be signed, sealed and delivered? When Allegra North parted from first love Francis after a decade together, she poured all her regret into a letter. He didn't reply. A year later, her job brings her back to the beautiful Devon coast where romance first blossomed and she hopes that they can start a new chapter. As summer storms circle, the exes juggle rebellious parents, vengeful family members and a very reluctant celebrity author who holds the key to everybody's future . . . The Love Letter is a wonderfully warm comedy of mistaken identities, new loves and old flames.

Mr. Renny's paintings are so good that they almost appear real. But no one seems to pay them any attention-until a strange man offers to make everything that Mr. Renny paints come to life. First there's the painting of the apple, which Mr. Renny can now eat. Then there's a huge hotdog, a new car, a cruise liner... Mr. Renny

paints himself a life of luxury-until his friend Rose comes to ask if she can buy one of his paintings. But he doesn't have any real paintings left! The spell must be broken-and soon! A book containing subtle references to the work of Belgian surrealist Ren Magritte, the illustrations are full of clever and amusing details.

While working on his two-volume biography of Lytton Strachey, Michael Holroyd had access to the Strachey archives. From the same source he collected all Strachey's diaries and memoirs, which together in this volume form an intermittent but not disconnected autobiography. From childhood diaries to the introspective and often anguished records of late adolescence emerges an intimate self-portrait, valuable for its own sake and also for the light it sheds on the most gifted members of the Bloomsbury Group. In addition to the informal diaries, Strachey wrote and read to the Memoir Club two autobiographical essays (also published here) which may be judged among the finest and most characteristic of his writing.

For readers of Roddy Doyle, Nick Hornby, and Mark Haddon, *The Adulterants* is a piercingly funny—and cringingly poignant—take on how hard it is to grow up and how hard it is when you don't. Ray Morris is a tech journalist with a forgettable face, a tiresome manner, a small but dedicated group of friends, and a wife, Garthene, who is pregnant. He is a man who has never been punched above the neck. He has never committed adultery with his actual body. He has never been caught up in a riot, nor arrested, nor tagged by the state, nor become an international hate-figure. Not until the summer of 2011, when discontent is rising on the streets and within his marriage. Ray has noticed none of this. Not yet. *The Adulterants* would be a coming-of-age story if its protagonist could only forget that he is thirty-three years old. Throughout a series of escalating catastrophes, our deadpan antihero keeps up a merciless mental commentary on the foibles and failings of those around him, and the vicissitudes of modern urban life: internet trolls, buy-to-let landlords, open marriages, and the threat posed by more sensitive men. But the wonder of *The Adulterants* is how we feel ourselves rooting for Ray even as we acknowledge that he deserves everything he gets.

International Relations emerged as a distinct academic discipline in the early twentieth century, but its philosophic foundations draw on centuries of thinking about human nature, power and authority, justice and injustice, and their implications for relations within and between political communities. In this fully revised and updated third edition of her popular text, Stephanie Lawson retains a broad historical and contextual approach in introducing readers to the central themes and theoretical perspectives in IR while also addressing key issues and challenges in the contemporary period. These include the emergence of states and empires, theories ranging from classical realism and liberalism to postcolonial and 'green' theory, twentieth-century international history, security and insecurity, global governance and world order, international political economy, globalization, the future of the sovereign state and the prospects for a 'post-international' world. Written in an accessible narrative style, this book is an ideal primer for students at undergraduate level and beyond, including those undertaking postgraduate study in IR with little or no previous academic training in the field.

This is the story of a successful father describing his approach to parenting, making us think and consider what will make our children happy and successful individuals. Ravi Mahendra is a

father of three young girls and he is passionate about parenting. He has personally gone on a journey of learning and developing the relationship between him and his daughters. Ravi delights in seeing his children become bigger and better individuals. Ravi believes passionately that parenting is about dedication and focus. The book is based on the principle that you are the best teacher for your children; you can pass on your knowledge and experience to help to support the best development of your child. The parent is the figure of authority, with immense responsibility for decisions regarding the children. This book draws out the benefits of really pro-actively grasping the responsibility and making the decisions rather than running with the flow. The real strength of this book lies with the thought process on determining priorities, characteristics and values that will produce successful children. It will inspire you to look at your parenting approach with a fresh set of eyes and help you to succeed on your chosen path. The book uses well-chosen examples from the world of business, politics and historical figures to really illustrate what success means and what needs to be done to achieve it. Ravi uses connection of business ideas and stories with parenting to bring a fresh perspective on children's upbringing. . The book is drawing interesting connection from management and business theories to really focus on children leading successful lives. At a practical level, the book offers a vast array of examples on managing the prosaic day-to-day issues. Unless the practical challenges are resolved, it becomes very difficult to manage the more advanced parenting questions. Ravi does a great job in visualising the impact of our actions now on the children in the future. Ravi Mahendra lives with his three daughters in London. His career spans many areas: he has built a renowned business school in his native Sri Lanka, written business columns for newspapers and is a prize-winning Qualified Accountant with an MBA. Ravi is currently working as Global Finance leader in a large insurance organisation and he is also a regular blogger on LinkedIn. His aim is to live life to the fullest and to raise his children as successful and content individuals.

On 28 August 1984, Josef Fritzl drugged his teenage daughter with ether and imprisoned her in an underground bunker behind eight locked doors. Over the following twenty-four years, he raped and abused her, never letting her or the children she bore him out of the dark, windowless cellar. Based on 150 new interviews with psychologists, neighbours, colleagues and friends who knew Fritzl, as well as the insight of his own chilling confession, Allan Hall reconstructs the monstrous personality behind this hideous crime. He exposes Josef Fritzl's dark past in Nazi Austria, his previous conviction as a rapist, the appalling conditions in which Elisabeth and her children were kept and her astonishingly brave conduct while held prisoner. Including exclusive photographs and previously unseen evidence, this is a truly heart-stopping record of one of the most elaborate and disturbing cases of abuse in modern times.

The legendary Deep Thoughts and New Yorker humorist Jack Handey is back with his very first novel-a hilarious, absurd, far-flung adventure tale. *THE STENCH OF HONOLULU* Are you a fan of books in which famous tourist destinations are repurposed as unlivable hellholes for no particular reason? Read on! Jack Handey's exotic tale is full of laugh-out-loud twists and unforgettable characters whose names escape me right now. A reliably unreliable narrator and his friend, who is some other guy, need to get out of town. They have a taste for adventure, so they pay a visit to a relic of bygone days-a travel agent-and discover an old treasure map. She might have been a witch, by the way. Our heroes soon embark on a quest for the Golden Monkey, which takes them into the mysterious and stinky foreign land of Honolulu. There, they meet untold dangers, confront strange natives, kill and eat Turtle People, kill some other things and people, eat another thing, and discover the ruins of ancient civilizations. As our narrator says, "The ruins were impressive. But like so many civilizations, they forgot the rule that might have saved them: Don't let vines grow all over you."
