...files.ettus.com:/LabVIEW seems to be the easy and straigh-forward software to use NI USRPs. I don't know much about LabVIEW but I know a bit about programming in GNU radio. It seems extremely flexible and attractive, at least for a programmer. So my question is that am I going to face too much trouble to get the NI USRP to work with GNU radio? I read here and there about the FPGA image and firmware.

LabVIEW seems to be the easy and straigh-forward software to use NI USRPs. I don't know much about LabVIEW but I know a bit about programming in GNU radio. It seems extremely flexible and attractive, at least for a programmer. So my question is that am I going to face too much trouble to get the NI USRP to work with GNU radio? I read here and there about the FPGA image and firmware.
