SGN .The book covers
More Than 300 MCQs With
Answers.
Obstetrics and
Gynaecology Mcqs CRC
Press

The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology. There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997

and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.
MRCOG Part 1: 550 SBAs and MCQs Wiley-Blackwell
The Part 2 MRCOG is one of the most challenging postgraduate examinations in medicine

and recent changes bring focus to more MCQs and evidence-based questions. Passing the exam requires not just 'knowledge' but mastery of examination technique. This book provides the unique opportunity not only to practice up-to-date MCQs extensively sourced from the RCOG's suggested reading material, but to consolidate knowledge through its concise notes accompanying the answers. Traditionally difficult topics are given special emphasis and all

explanatory notes are methodical and evidence-based - ideal for both exam practice and revision.
EFOG Part 1: 400 MCQs, EMQs and SBAs CRC Press
 This is an essential revision aid for all trainee obstetricians. Comprising 360 MCQ's with cross-references to Key Topics in Obstetrics and Gynaecology, Second Edition, for the detailed background to the questions and their answers, this text will ensure a successful examination.

MCQs in Undergraduate Obstetrics and Gynaecology CRC Press
 Basic Sciences for Obstetrics and Gynaecology - MCQs presents sample multiple choice questions and answers dealing with the basic sciences in obstetrics and gynaecology. The aim of the volume is to give those candidates studying for examinations such as the MRCOG Part 1 a flavour of the examination itself. -- book cover.
Multiple Choice Questions

in Gynaecology and Obstetrics Chandresh Agrawal

This book presents medical students and those preparing for postgraduate examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement

the latest editions of the best-selling volumes *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers*. Key features: Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested Clear and accessible— with concise explanations of answers

and directions to the Ten Teachers textbooks for those seeking further advice and guidance With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for for DRCOG and MRCOG examinations will find *Self Assessment in Obstetrics and Gynaecology by Ten Teachers* provides invaluable practice and guidelines during the critical revision period. *MCQs for MRCOG Part 2* CRC Press We have all heard of

Single Best Answers (SBA), Multiple Choice Questions (MCQ), Extended Match Questions (EMQ) and True and False Questions. However we have not heard of Multiple Statement Questions (MSQ). Well maybe because they were not there! To the best of my knowledge, this is the first time this question format is introduced into a medical book form. In MSQ there are four questions and no option is given for the answers. What happens is that in

MSQ all the statements are intended to have the same answer response. The difference is that the students have options of questions as opposed to SBA where they have options of answers. Therefore, if students cannot find a correct answer from the first statement maybe they can in the second, third or even the fourth statement. As the statements are fact based on a particular topic, they will also be able to learn in the process of answering. Therefore this

is an opportunity for students to explore the MSQ and enhance their knowledge.

OSCEs and MCQs in Obstetrics and Gynaecology CRC Press

This new review guide contains approximately 500 multiple choice questions on obstetrics and gynecology. Each question is followed by the correct answer and an explanation of the answer. A PC disk accompanies the book, enabling the reader to take several practice tests under exam conditions.

MULTIPLE STATEMENT QUESTIONS IN Obstetrics and Gynaecology CRC Press
 IT CONTAINS MORE THAN 2000 MCQS OF OBSTERICS & GYNAECOLOGY IT WILL HELP YOU GUYS TO CRACK FOLLOWING EXAMS - FMGE - NEET PG - UNIVERSITY EXAM - NEXT EXAM
