reviews of the second edition: "The second edition of Mathematical Statistics continues to hold its identity among many other available books on mathematical statistics... The revised and updated version remains of high quality, and I recommend it for use as a text or reference book in a graduate statistics program." Mathematical Statistics (Springer Texts in Statistics) GuRu, packed full of never-before-seen images from his career, is RuPaul's guidebook to keep you walking in the sunshine of the spirit. GuRu is full of RuPaul's secrets for success not only in show business, but in all aspects of life, especially in navigating the emotional landmines that inhibit most sweet, sensitive souls. Students of the subject would do well to invest in one of these statistics textbooks, which present their material clearly and are available in editions suitable for all levels of study. When users buy our independently chosen editorial recommendations, we may earn commissions to help fund the Wiki. Skip to the best statistics textbook on Amazon.
