coverage of social media and social responsibility elements New chapters on corporate social responsibility (CSR) and activism End-of-chapter exercises Embedded hyperlinks in eBook Fully enhanced companion website that includes: Instructor resources: PowerPoint presentations, Case Supplements, Instructor Guides Student resources: Quizzes, Glossary, Case Supplements *Anderson's Ohio Consumer Law Manual, 2017 Edition* Canadian Scholars' Press The essays in this volume enhance our understanding of Canadians on the job. Focusing on specific industries and kinds of work, from logging and longshoring to restaurant work and the needle trades, the contributors consider such issues as job skill, mass production, and the transformation of resource industries. They raise questions about how particular jobs are structured and changed over time, the role of workers' resistance and trade unions in shaping the lives of workers, and the impact of technology. Together these essays clarify a fundamental characteristic shared by all labour processes: they are shaped and conditioned by the social, economic, and

political struggles of labour and capital both inside and outside the workplace. They argue that technological change, as well as all the transformations in the workplace, must become a social process that we all control.
