### Technical Bulletin

Scarecrow Press  
Launched 35 years ago, the 2007 edition of the New Cars and Minivans has been restyled to present more current information in a user-friendly manner. This guide tells you when to buy, sell, or hold onto a vehicle and why price rarely guarantees reliability (beware of 'luxury lemons'). Hard-nosed ratings, true fuel-consumption figures, and which safety features are unsafe, are all found in this year's guide, as well as: Dealer markups for each model; cutting the freight fee The best and worst options; whose warranty is the best Which 2006s are butter buys than a 2007 Sample compliant letters that work

### Technical News Bulletin of the National Bureau of Standards

Jones & Bartlett Learning  
Discover how to choose a quality repair facility, buy a car, handle roadside emergencies, diagnose common problems, and communicate effectively with technicians - all while saving money.

### Lemon-Aid Used Car Guide 1996

Rolling Hills Publishing  
Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

### Resources in Education

AUTOMOTIVE MAINTENANCE AND LIGHT REPAIR (AM&LR) was designed to meet the needs of automotive programs that teach to the competencies specified in NATEF's Maintenance & Light Repair (MLR) program standard. Designed for entry-level students, the primary features of AM&LR are the focus on the foundational principles and knowledge for the MLR tasks, and the

activities to supplement student learning. In addition, Automotive Maintenance and Light Repair is written to engage students not just in automotive competencies, but also in applied academic skills and lifelong learning skills, including math, science, and communication.
