Club Penguin: Stuck on Puffles Ladybird Books
In *Rhetorics of Insecurity*, Zeynep Gambetti and Marcial Godoy-Anativia bring together a select group of scholars to investigate the societal ramifications of the present-day concern with security in diverse contexts and geographies. The essays claim that discourses and practices of security actually breed insecurity, rather than merely being responses to

the latter. By relating the binary of security/insecurity to the binary of neoliberalism/neoconservatism, the contributors to this volume reveal the tensions inherent in the proliferation of individualism and the concurrent deployment of techniques of societal regulation around the globe. Chapters explore the phenomena of indistinction, reversal of terms, ambiguity, and confusion in security discourses. Scholars of diverse backgrounds interpret the paradoxical simultaneity of the suspension and enforcement of the law through a variety of

theoretical and ethnographic approaches, and they explore the formation and transformation of forms of belonging and exclusion. Ultimately, the volume as a whole aims to understand one crucial question: whether securitized neoliberalism effectively spells the end of political liberalism as we know it today. Zeynep Gambetti is Associate Professor of Political Theory at Bogazici University, Istanbul. Marcial Godoy-Anativia is Associate Director of the Hemispheric Institute of Performance and Politics at New York University, where he serves as coeditor of its online

journal e-misférica.

Matsutake Worlds NYU Press

The matsutake mushroom continues to be a highly sought delicacy, especially in Chinese, Japanese, and Korean cuisine. *Matsutake Worlds* explores this mushroom through the lens of multi-species encounters centered around the matsutake's notorious elusiveness. The mushroom's success, the contributors of this volume argue, cannot be accounted for by any one cultural, social, political, or economic process. Rather, the matsutake mushroom has flourished as the result of a number of different processes and dynamics, culminating in the culinary institution we know today.

"A tale of diversity within our damaged landscapes,

The Mushroom at the End of the World follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction."--Publisher's description.
