Whats New In Loadrunner 11

Whats New In Loadrunner 11
First up, there is no LoadRunner version 10. The LoadRunner version number had slipped behind the other HP testing tools; so HP have realigned the

numbering with the latest releases of Quality Center (now ALM) and QuickTest Professional. LoadRunner 11.00 is major update, with a large number of new features, and undercover tweaks. What's new in LoadRunner 11.00? | JDS Australia Load Runner 11.50 was released on June 5th, during HP

Discover 2012 in Las Vegas. This release was originally going to be called LoadRunner 12.00, but this would have put it out of step with the version numbers for ALM/Quality Center and QTP, which might have created some marketing confusion. What's new in LoadRunner 11.50? |
