Prentice Hall
 Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 13e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the

basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet. NEW for the 13th edition is McGraw-Hill Connect, a digital teaching and learning environment that saves students and instructors time while improving performance over a variety of critical outcomes.

 Give your students a solid foundation in core accounting concepts while helping learners develop a true appreciation for why accounting is important to business and a prosperous society.

Warren/Reeve/Duchac's FINANCIAL AND MANAGERIAL ACCOUNTING, 14E clearly demonstrates how accounting is much more than simply data and black and white rules. Instead, students see how accounting provides key information used to make critical business decisions. A new chapter schema provides context for how each chapter's content fits into the big picture. The book focuses on why accounting is important and consistently reinforces connections to the big picture by connecting journal entries to the accounting equation. Fresh organization progresses from the simplest to the

more complex topics with reorganized and fully integrated coverage of the new Revenue Recognition standard, reorganized coverage of adjustments, and reorganized managerial accounting chapters
