In David Lodge's last novel, *Thinks...* the novelist Henry James was invisibly present in quotation and allusion. In *Author, Author* he is centre stage, sometimes literally. The story begins in December 1915, with the dying author surrounded by his relatives and servants, most of whom have private anxieties of their own, then loops back to the 1880s, to chart the course of Henry's 'middle years', focusing particularly on his friendship with the genial Punch artist and illustrator, George Du Maurier, and his intimate but chaste relationship with the American writer Constance Fenimore Woolson. By the end of the decade Henry is

seriously worried by the failure of his books to 'sell', and decides to try and achieve fame and fortune as a playwright, at the same time that George Du Maurier, whose sight is failing, diversifies into writing novels. The consequences, for both men, are surprising, ironic, comic and tragic by turns, reaching a climax in the years 1894-5. As Du Maurier's *Trilby*, to the bewilderment of its author himself, becomes the bestseller of the century, Henry anxiously awaits the first night of his make-or-break play, *Guy Domville* ... Thronged with vividly drawn characters, some of them with famous names, others recovered from obscurity, *Author, Author* presents a fascinating panorama of literary and theatrical life in late Victorian England, which in many ways foreshadowed today's cultural mix of art, commerce and publicity. But it is essentially a novel about authorship - about the obsessions, hopes, dreams, triumphs and disappointments, of those who live by the pen - with, at its centre, an exquisite characterisation of one writer, rendered with remarkable empathy.

A memoir from one of Britain's greatest novelists and critics, showing how his childhood and early career led to him becoming the writer of *Changing Places*, *Small World* and *The Art of Fiction*. 'I drew my first breath on the 28th of January 1935, which was quite a good time for a future writer to be born in England...' The only child in a lower-middle-class London family, who got his artistic genes from his musician father and his Catholic faith from his Irish-Belgian mother, David Lodge was four when World War II began and grew to maturity through decades of great social and cultural change, giving him plenty to write about in his distinguished career. In this memoir of his life up to the publication of his breakthrough book, *Changing Places*, David looks back over his childhood and youth, including his undergraduate years at University College London, where he met Mary, his future wife, in freshers' week. After National Service, and two years' postgraduate research, married at last and soon a father, he struggles to make a start as both novelist and academic, until a lucky break brings him a job at the University of Birmingham and a stimulating friendship with a colleague of similar ambition, Malcolm Bradbury. A promising career anchored on a happy marriage opens up, full of opportunities for travel, enjoyment of exciting new trends and interesting new friends, but also intertwined with unexpected setbacks and challenges, both professional and personal. Candid, witty and insightful, illuminating both the author and his work, *Quite a Good Time to be Born* gives a fascinating picture of a period of transition in British society and the evolution of a writer who has become a classic in his own lifetime.

The restrictions of a wartime childhood in London and subsequent post-war shortages have done little to enrich Timothy's early youth. But everything changes when his glamorous older sister, Kath, invites him to spend the summer at Heidelberg. Kath, who left home long ago to work for the American army, introduces her sixteen-year-old brother to a lifestyle that is deliriously fast, furious and extravagant. Dazzled by the indulgent habits of the American forces, but at the same time sensitive to the broken spirits of the German community beneath this sparkling surface, Timothy will find that his summer holiday is in more ways than one an unforgettable rite of passage.

This open access book shines a light on how and why academic work became entwined with air travel, and what can be done to change academia's flying habit. The starting point of the book is that flying is only one means of scholarly communication among many, and that the state of the planet now obliges us to shift to other means. How can the academic-as-globetrotter become a thing of the past? The chapters in this book respond to this call in three steps. It documents the consequences of academic flying, it investigates the issue of why academics fly, and it begins an effort to think through what can replace flying, and how. Finally, it confronts scholars and scientists, students, activists, research funders, university administrators, and others, with a call to translate this research into action.

In 2004, Henry James featured as a character in no less than three novels - David Lodge's *Author*, *Author* was one of them. With insightful and amusing candour, here he traces the history

of his book from conception to publication, pondering the mystery - and indeed the anguish - of so many novels about James appearing at the same time. Lodge's reflections on his own creative practice are accompanied by studies of the genesis, composition and reception of key works by James himself, as well as other novelists from George Eliot to Vladimir Nabokov, and J.M. Coetzee to Graham Greene.

Home Truths: a Novella Harvard University Press

Novelist, critic, lecturer, reviewer, man-about-conferences, David Lodge, as both analyst and practitioner, is one of our foremost experts in the forms of fiction. He is also an uncommonly sympathetic and informed observer of the passing scene, and his penetrating vision is set in a consistently ironic frame. David Lodge's humour can be a devastating weapon, but it is continually engaging because as often as not the sniper's sights are trained on the author himself, and on the curiously mobile, cosmopolitan yet specialist world he inhabits. The essays and reviews collected in this volume are selected from the occasional writings over a span of twenty years, and are all prompted by an impulse - or an invitation - to "write on" some specific topic: a book, a film, an anniversary, a trip abroad. They also reflect the drive of the professional to keep writing, "to keep the muscles of composition exercised." The pieces collected here are designed for a wide audience, and most focus, in more or less direct ways, on Lodge's own work as a novelist. Enthusiasts will take especial pleasure in discovering sources for episodes from his novels, in tracing how reality mutates into fiction - or how on occasion, the process works the other way round.

The subject of enthusiastic and widespread reviews, David Lodge's fourteenth work of fiction displays the humor and shrewd observations that have made him a much-loved icon. *Deaf Sentence* tells the story of Desmond Bates, a recently retired linguistics professor in his mid-sixties. Vexed by his encroaching deafness and at loose ends in his personal life, Desmond inadvertently gets involved with a seemingly personable young American female student who seeks his support in matters academic and not so academic, who finally threatens to destabilize his life completely with her unpredictable-and wayward-behavior. What emerges is a funny, moving account of one man's effort to come to terms with aging and mortality—a classic meditation on modern middle age that fans of David Lodge will love.

"Polly, Dennis, Angela, Adrian and the rest are bound to lose their spiritual innocence as well as their virginities on the journey between university in the 1950s and the marriages, families, careers and deaths that follow. On the one hand there's *Sex and then the Pill*, on the other there is the traditional Catholic Church. In this razor-sharp novel, David Lodge exposes the pressures that assailed Catholics everywhere within a more permissive society, and voices their eternal question: how far can you go?" -- Provided by publisher.

Varying Degrees of Success Vintage

In a career spanning six decades, David Lodge has been one of Britain's best-loved and most versatile writers. With *Varying Degrees of Success* he completes a trilogy of memoirs which describe his life from birth in 1935 to the present day, and together form a remarkable autobiography. His aim is to describe honestly and in some detail the highs and lows of being a professional creative writer in several different genres: prose fiction, literary criticism, plays for live theatre and screenplays for film and television. Few writers have excelled in so many different forms of the written word. Lodge's creativity, and his wonderful sense of humour, have made his work popular in translation in numerous countries, and his extensive travels around the world are recorded here. Each of the three memoirs has its own thematic focus. In this latest one it is on the hope and desire of writers to make a significant and positive impression on their readers and audiences. The elation of success, and the depression that follows disappointment, are familiar emotions to most writers in varying degrees. David Lodge describes these feelings with rare candour. *Varying Degrees of Success* provides the reader with a privileged insight into the working practices and

the creative life of a major British novelist.

"A trio of dazzling novels in a comic mode that the author has now made completely his own...a cause for celebration." -The New York Times Book Review David Lodge's three delightfully sophisticated campus novels, now gathered together in one volume, expose the world of academia at its best-and its worst. In *Changing Places*, we meet Philip Swallow, British lecturer in English at the University of Rummidge, and the flamboyant American Morris Zapp of Euphoric State University, who participate in a professorial exchange program at the close of the tumultuous sixties. Ten years later in *Small World*, older but not noticeably wiser, they are let loose on the international conference circuit-along with a memorable and somewhat oversexed cast of dozens. And in *Nice Work*, the leftist feminist Dr. Robyn Penrose at Rummidge University is assigned to shadow the director of a local engineering firm, sparking a collision of ideologies and lifestyles that seems unlikely to foster anything other than mutual antipathy.

Seminar paper in the subject English Language and Literature Studies - Literature, Dresden Technical University, language: English, abstract: This term paper deals with the topic of Women's Rights in the 1960s in Britain and the United States by especially examining abortion rights issues. The statements used in this term paper are supported by the novel "Changing Places" by the English author and literary critic David Lodge. The Abortion Act of 1967 in Britain was a central occasion in the Women's Liberation Movement, as women were now free to choose between keeping a child or aborting it, even though an abortion required certain reasons. But this was not the only change in the Women's Liberation Movement. Women started to get more rights in keeping a part of the money their husbands gave them. Women furthermore started to get involved in politics, since the first female Secretary of State in Britain was appointed in 1968 and the youngest female Minister-President in 1969. But there was still inequality in payment, job opportunities, and the educational system. Discrimination on the basis of sex was no rarity, and women had to fight for equal treatment.
