Billy Korean* This book enables Western scholars and educators to recognize the roles and contributions of shadow education/hakwon education

in an international context. The book allows readers to redefine the traditional and limited understanding of the background success behind Korean schooling and to expand their perspectives on Korean hakwon education, as well as shadow education in other nations with educational power, such as Japan, China, Singapore, and Taiwan. students. Rogers, You, and Richards have used their many years of teaching to devise and test an approach that balances reading and writing with the spoken language. The result is a well-rounded textbook suited to a yearlong course in which students learn to conduct conversations about their own lives and interests, read texts written in hangul, and write simple compositions.

The book systematically introduces basic Korean grammar, a contextualized vocabulary, and styles of speech that are sociolinguistically appropriate for college students.
