In Santa's Christmas village at the North Pole, the elves celebrate special days all year round. Apart from Christmas, though, nothing is more exciting to a scout elf than a birthday--and elves celebrate birthdays with a tradition that goes back thousands of years. Now, at the request of children from around the world, Santa has given his scout elves special permission to share that birthday tradition with the families they love. An elf cannot come to a celebration, though, unless it is invited.

The Elf Archive: It has been nearly five years since Noel Night became head of the new Historical department of the North Pole. The summer solstice brings the start of the Reindeer Games, in which Noel and Spices will be teaming up to compete in one of the events. Santa Nicolas has decided to plunge into the dating game in hopes of finding a Mrs. Claus, with adventurous results. Mistletoe Green continues to plot and interfere from behind the scenes, but for what purpose is still not clear... The North Pole complex is as ancient as its mysteries, some of which are coming to light. Noel will need to solve the secret of a lost library as well as his own human past in order to

thwart those who do not wish the elves to regain too much freedom... About the series: For over two thousand years the legend of Santa Claus has endured. His is a mission of peace as outlined in the Magi Charter, given to the first Santa by the Child. From humble beginnings following that First Christmas the Santa lineage has been passed down through the ages. This historical sci/fi adventure tells the story of those Santas from the founding of the North Pole and the origin of the ancient elves, to our modern times where the world's problems effect even those in the secluded complex of the North, and concluding in the distant future which finds Santa and the elves committed to their mission on a galactic scale where Christmas traditions are barely recognizable. In every era those committed to the Mission must find a way to deliver that which is needed most to those most deserving.

It is the year 2761. Our galaxy's starways are claimed by numerous empires all positioning themselves for dominance. On the surface, the politics seem stable, yet war could be touched off at any moment. Despite the vast territories claimed by these powers, countless millions of primitive worlds are left to fend for themselves. It is these remote and discounted worlds that the Santas seek out in accordance with the Mission. A Mission that in nearly three millennia has not once failed. Santa Tiberius, having long overstayed his term, endures threats on multiple fronts; he is determined to resist the internal strife within his own organization that has created competition and conflict for carrying out the Mission. But even these centuries' old issues pale in the face of the disaster that unfolds when rogue elves, long thought dead, emerge to exact vengeance. Nothing will be the same. Not for Santa, not for the Elves, not for anyone. The Mission will soon come to a conclusion. About the series: The Magi Charter For over two thousand years the legend of Santa
