 Updating recommendations last made by the National Research Council in the mid-1980s, this report provides nutrient recommendations based on physical activity and stage in life, major factors that influence nutrient needs. It looks at how nutrients are metabolized in the bodies of dogs and cats, indications of nutrient deficiency, and diseases related to poor nutrition. The report provides a valuable resource for industry professionals formulating diets, scientists setting research agendas, government officials developing regulations for pet food labeling, and as a university textbook for dog and cat nutrition. It can also guide pet owners feeding decisions for their pets with information on specific nutrient needs, characteristics of different types of pet foods, and factors to consider when feeding cats and dogs.

The Everything Pug Book Inner Traditions / Bear & Co
 A classic Canadian story of the bravery and ingenuity of three

animals who find their way home. First published in 1961, *The Incredible Journey* tells the story of three pets: a young Labrador retriever, an old bull terrier, and a Siamese cat. While their owners are away in England, they are being cared for by a family friend at his home in the country. But a miscommunication occurs between the friend and his housekeeper when he goes on a hunting trip, and the animals are left alone for a several hours, with a gnawing instinct that something has gone wrong. They soon set off on a journey to find home, which instinct tells them is to the west. They travel 400 kilometres across the Northern Ontario wilderness, facing many obstacles along the way: swift-flowing rivers and the rugged landscape; wild animals and unsympathetic humans; starvation, injuries and sheer exhaustion. Separately they would not have survived, but together this disparate group prevails, and they find their way home to the family they love.

He can retrieve—but can he sit, lie down and stay?

Sporting dog breeds can be relatively easy to train to do what they have been bred to do be it retrieve, point, flush—even act as a decoy to attract game! In addition, most sporting breeds have a gregarious personality and love people and other dogs. These attributes make these dogs very popular pets, but at the same time present all sorts of problems when they are not working in the field. Have you ever tried to ask your Lab to sit and stay near a pond with the ducks? Why is it that Golden Retrievers are notorious for jumping up on people (not to mention other dogs) when greeting them? Does your sporting dog eat every smelly item he encounters before you can stop him? In this new book, author Dawn Antoniak-Mitchell offers answers to solving and preventing the often surprising set of problems that owners of sporting dogs encounter at home and in their local communities.

You will learn

- Many of the overly friendly traits associated with sporting dogs can cause problems with other people and other dogs if you cannot control your dog's enthusiastic (and sometimes obnoxious) greeting behaviors.
- How to make yourself more interesting than birds, as impossible as that might seem, to make walks and outings more pleasant for all involved.
- How to train a strong "leave it" behavior to keep your dog from eating things that might be dangerous.

Praise for *From Birdbrained to Brilliant*

Having bred and trained sporting dogs for almost forty years, Dawn's ideas are spot on for understanding that the mindset and work ethics of sporting dogs is based around them being "people dogs." As a tracking judge, trainer and exhibitor I can attest that Dawn is correct when she says training sporting dogs is "an investment worth making." Just like making an investment in this book!

Ed Presnall, noted trainer and judge, author of *Component Training for TDX* and four other books on the subject of tracking

From Birdbrained to Brilliant gave me more insight into my beloved retrievers than anything I've read in my 25+ years of working with assistance dogs. Ms. Antoniak-Mitchell provides a treasure trove of information for those of us who love sporting dogs. As entertaining as it is illuminating, this book has earned a center spot in my library!

Jennifer Arnold, author *Through a Dog's Eyes and In a Dog's Heart*

Hunt, point and/or retrieve yourself a copy of this book. Working with your sporting breed dog's natural traits instead of against them is what *From Birdbrained to Brilliant* is all about. I'm so excited to see a down to earth and practical book that gives clear

training and management exercises for field bred dogs.

Inga From, CPDT-KSA, owner Positive Gun Dogs of Minnesota

FIRST OF ALL who could resist this title? I work with all breeds and each group brings something a little different to the table. Dawn's knowledge of sporting dogs is going to be invaluable to you because her insights into their instincts will improve your training and your dogs will live better lives because you will have learned how to understand and communicate better with them.

Help! He's herding the neighborhood kids!!

Herding breed dogs such as Border Collies, Corgis, and Australian Shepherds have incredibly strong instinctive behaviors to do the work they were bred for—controlling various kinds of livestock. These behaviors manifest themselves in modern herding breed dogs kept as companions or family pets in a number of ways. These include chasing cars and bicyclists, herding kids, nipping at vulnerable heels, barking incessantly, and acting as the "fun police" in dog parks. All behaviors that are entirely appropriate and necessary when dealing with sheep or cattle, not so great in a suburban neighborhood. Fortunately, these instincts can be redirected in a number of ways that keep these energetic dogs busy and happy as well as out of trouble. That is why so many of these dogs can be taught to excel in agility and obedience trials, love to retrieve, and make great running companions. In her latest book, author Dawn Antoniak-Mitchell offers solutions to solving and preventing problem behaviors associated with herding breeds living in the modern world. And no, even though your Border Collie or Corgi might love it, you don't need to buy a farm!

As the owner of two obsessive but outstanding herding dogs, I found myself nodding along in agreement with this book from start to finish. Dawn offers tips to allow a handler to work with, rather than against a dog's herding instincts and her easy-to-read writing style and the depth of information she shares makes this book a must read for anyone who works or lives with herding dogs.

Nicole Larocco-Skeehan, CPDT-KA and member of the Board of Directors, CCPDT

A super resource that explains how instinctive behaviors impact dogs in their every day activities. I especially like the training tips—very clear and helpful explanations to manage problems often brought out by a variety of herding instincts.

Lynn Leach, owner of Downriver Stock Dog Training and creator of the popular *All Breed Herding* DVD series

A wonderful mix of training information, management suggestions, psychology, and commonsense advice for herding dog owners. Easy to read and filled with gems of information for all dog owners—like eliminating annoying barking! I highly recommend this book for trainers and owners of any breed of dog.

Gail Tamases Fisher, CDDBC and author of *The Thinking Dog*

If you have chosen to bring a herding breed in to your life and home this is the book for you! Dawn takes the reader through the history of herding breeds in order to help you understand the why behind some of the obsessive-compulsive behaviors your herding breed may be exhibiting. Better yet, Dawn then offers up specific exercises and training techniques to help herding breed owners

become as valuable as livestock in the eyes of their herding dog. You owe it to your herding breed to read this book!

This book is an absolute must for anyone thinking of getting a puppy. Canine author Linda Whitwam provides a step-by-step guide to selecting the unique puppy most likely to fit in with you and your family. This latest book in the acclaimed *Canine Handbooks* series steers anyone thinking of getting a puppy or rescue dog around the many pitfalls and arms them with the expert knowledge to select the one puppy which is right for them. Written in an easy-to-understand manner, this 224-page manual is packed full of invaluable information you won't find elsewhere and makes a great gift. It includes: The insider's guide to the 25

most popular breeds registered with the Kennel Clubs - and one that isn't Choosing a crossbreed or mixed breed Suitable breeds and crossbreeds for allergy sufferers Current health issues with various pure breeds How to find a good breeder - and the right questions to ask How to reduce the risk of buying a puppy with health problems How to pick the puppy with the temperament and energy levels to suit you The book is full of tips on what to do before and after you bring your new arrival home, covering: Puppy proofing your home A checklist of things you'll need before your pup arrives Bringing your puppy home Feeding schedules, charts and types of food, including a raw diet Housetraining and crate training Basic obedience and collar and lead training Puppy biting Spaying, neutering and vaccinations Getting a puppy from a rescue centre The signs of a healthy puppy How to spot if your puppy is unwell One of the main reasons puppies are given away or end up in rescue centres is owners' unrealistic expectations of their dog. Pick the puppy that's right for you and look forward to a decade or more of happiness with the perfect companion - who turned out to be all that you'd hoped for. Reviews for *How To Pick The Perfect Puppy*: "This book is not just another handbook, more an owner's manual for choosing the right furry addition to the family Breeds and cross-breeds are discussed at length, helping you choose the right temperament, size and exercise requirements for your pooch, including advice for those with allergies to choose a pup with a coat to suit. Also choosing a rescue pup or dog is covered too with sensitive insight into the extra requirements they may need for helping them settle. Feeding, positive training tips and advice on helping your new furry settle into your environment along with lovely pics make this a good read," J. C. VICKERMAN, YORKSHIRE, UK "Extremely helpful and informative. Planning to purchase a puppy soon and will continue to use the guidance given," HEATHER FISHER, UK "What a great resource for those considering acquiring a family pet. It contains lots of practical information and tips. I have owned dogs as pets all my life and I learned a lot from this book. I have 14 year old dog now who has had separation anxiety issues and I wish I had this book when she was young. It will, unfortunately, not be long until she is no longer with us (still healthy, but showing her age) and I will definitely rely on this book when it is time to bring a new puppy into the house. I would highly recommend this to anyone thinking about choosing a family pet," N. CLARK, USA "I bought this book for my son who is considering buying a puppy. I made the mistake of flicking through it before I gave it to him. I just couldn't put it down, so now it looks as though it's been read from cover to cover, which it has! Linda Whitwam writes in the most down to earth, readable fashion and the book is packed full of really useful information. She outlines the pros and cons of all the most common breeds and even the crossbreeds and mixed breeds. And when you've decided upon your puppy there's loads of advice on how to look after and train it," S. E. KAYE, UK

In this fun, inviting look at a serious topic—codependence—Nancy L. Johnston shares the life lessons she learned from her observations of the relationship behaviors exhibited by her pet collie, Daisy: "The book began by my noticing behaviors in Daisy that resemble the codependent behaviors in me, which I have been working to moderate through my recovery. Daily I am struck by our tendencies to attend to others, to herd, to overreact." Johnston's delightful book examines twelve specific behaviors that, in their extreme form, can be codependent. It also offers new information on codependence and help for it, including the latest research-supported findings, so that readers can understand "What am I doing that is not producing the relationship results I really want?" Nancy L. Johnston, MS, LPC, LSATP, is a licensed psychotherapist and licensed substance abuse treatment practitioner in private practice in Lexington, Virginia. She has thirty-three years of clinical experience addressing a wide range of emotional and behavioral issues. Johnston specializes in treating adolescents and adults, and has always had a special interest in addiction and its effects on both individuals and family systems. Her first book, *Disentangle: When You've Lost Your Self in Someone Else*, was published by Central Recovery Press in 2011.
