AGUILAR HESTER

England in the Later Middle Ages MDPI

In this multi-authored book, senior practitioners and researchers offer an international overview of landscape character approaches for those working in research, policy and practice relating to landscape. Over the last three decades, European practice in landscape has moved from a narrow, if relatively straightforward, focus on natural beauty or scenery to a much broader concept of landscape character constructed through human perception, and transcending any of its individual elements. Methods, tools and techniques have been developed to give practical meaning to this idea of landscape character. The two main methods, Landscape Character Assessment (LCA) and Historic Landscape Characterisation (HLC) were applied first in the United Kingdom, but other methods are in use elsewhere in Europe, and beyond, to achieve similar ends. This book explores

why different approaches exist, the extent to which disciplinary or cultural specificities in different countries affect approaches to land management and landscape planning, and highlights areas for reciprocal learning and knowledge transfer. Contributors to the book focus on examples of European countries – such as Sweden, Turkey and Portugal – that have adopted and extended UK-style landscape characterisation, but also on countries with their own distinctive approaches that have developed from different conceptual roots, as in Germany, France and the Netherlands. The collection is completed by chapters looking at landscape approaches based on non-European concepts of landscape in North America, Australia and New Zealand. This book has an introductory price of £125/\$205 which will last until 3 months after publication - after this time it will revert to £140/\$225.

The Authorized Biography Routledge

In this introduction to educational policy, practice and professionalism, the authors focus first on providing an historical overview of English policy from the state's first interventions in education through to Thatcherism and the election of the Blair government. Chapters then explore the key

contemporary policies of recent times and offer a critique on how they have worked in practice, with reference the hysteria that often surrounds education policy. An important theme is media representation of educational matters and the effects this has on the teaching profession. Commentaries and case studies are presented throughout providing an accessible link to what it was really like to learn, teach and live at the time the policy was in place. This new edition now includes: - an account of the measures taken by the Coalition Government of 2010-15, examining the Coalition's continuities with the previous administration whilst also exploring departures from previous thinking and practices; - updated references and case studies throughout to represent new research and legislation since the first edition; - an extended discussion of globalization and global 'policy borrowing'; - further coverage of social justice theory, including a perspective on identity theory and the role of education in the development of identity and the marginalisation of individuals and groups; - a new historical chapter covering the period 1945 to 1997; - a summary of the development of the curriculum and a critique of the 2014 National curriculum, as pioneered by Michael Gove; and - a new conclusion setting out the trajectory of current policies and how this

may affect educational practitioners. This is essential reading for all undergraduate students studying education policy and practice.

Employment Law in Practice provides full coverage of the substantive areas of employment law likely to be encountered by a lawyer in the early years of practice. Topics covered include unfair dismissal, breach of contract, discrimination, equal pay and family friendly provisions. This manual also employs sample cases to illustrate how to complete relevant forms, deal with interlocutory stages and use special procedures and record settlements to encourage students to develop and practise their legal skills in an employment law context.

Employment Law in Context Bloomsbury Publishing USA

This collection of essays analyses how diversity in human identity and disadvantage affects the articulation, realisation, violation and enforcement of human rights. The question arises from the realisation that people, who are severally and severely disadvantaged because of their race, religion, gender, age, disability, sexual orientation, class etc, often find themselves at the margins of human rights; their condition seldom improved and sometimes even worsened by the rights discourse. How does one make sense of this relationship between the complexity of people's disadvantage and violation of their human rights? Does the human rights discourse, based on its universal and common values, have tools, methods or theories to capture and respond to the difference in people's lived experience of rights? Can intersectionality help in that quest? This book seeks to inaugurate this line of inquiry.

Public Law Facet Publishing

"...an institution for those who practise public law...it has the authority that comes from being compiled by an author of singular distinction". (Lord Woolf, from the Foreword to the Fifth Edition)
The new edition of this Handbook remains an indispensable source of reference and a guide to the case-law in judicial review. Established as an essential part of the library of any practitioner engaged in public law cases, it offers unrivalled coverage of administrative law, including, but not confined to, the work of the Administrative Court and its procedures. Once again completely revised and up-dated, the seventh edition approximates to a restatement of the law of judicial review, organised around 63 legal principles, each supported by a comprehensive presentation of the sources and an unequalled selection of reported case quotations. It also includes essential procedural rules, forms and guidance issued by the Administrative Court. As in the previous edition, both the Civil Procedure Rules and Human Rights Act 1998 feature prominently as major influences on the shaping of the case-law. Attention is also given to impact of the Supreme Court. Here Michael Fordham casts an experienced eye over the Court's work in the area of judicial review, and assesses the signs from a Court that will be one of the key influences in the development of judicial review in the modern era. The author, a leading member of the English public law bar, and now has been involved in many of the leading judicial review cases in recent years and is the founding editor of the Judicial Review journal.

Offers an incisive review of the conceptual questions that arise as legal systems around the world grapple with whether and how to protect people against sexual orientation and gender identity discrimination. This volume is an essential guide for researchers seeking to acquaint themselves quickly with a comparative view of cutting-edge issues concerning sexual orientation and gender identity rights.

Current Approaches to Characterisation and Assessment Routledge

Freedom of information (FOI) is now an international phenomenon with over 100 countries from Albania to Zimbabwe enacting the right to know for their citizens. Since 2005, the UK's Freedom of Information Act has opened up thousands of public bodies to unparalleled scrutiny and prompted further moves to transparency. Wherever the right to know is introduced, its success depends on the way it is implemented. In organisations worldwide, FOI only works because of those who oversee its operation on a day-to-day basis, promoting openness, processing requests and advising colleagues and the public. FOI is dependent on the FOI Officers. The Freedom of Information Officer's Handbook is a comprehensive guide to FOI and its management. It is designed to be an indispensable tool for FOI Officers and their colleagues. It includes: - a guide to the UK's FOI Act, the right to know and the exemptions - clear analysis of the most important case law and its implications for the handling of FOI requests - pointers to the best resources to help FOI

officers in their work - explanations of how FOI interacts with other legislation, including detailed explorations of the Environmental Information Regulations 2004 and how the EU's General Data Protection Regulation impacts on FOI - a look at requirements to proactively publish information and the effect of copyright and re-use laws on FOI and open data - comparisons of the UK's Act with FOI legislation in other jurisdictions from Scotland to South Africa - an exploration of the role of the FOI Officer: who they are, what they do, their career development and what makes them effective - suggestions on how to embed FOI within an organisation using effective procedures, technology and training - a stage-by-stage guide to processing requests for information. The Freedom of Information Officers' Handbook includes the latest developments in FOI including amendments made to the UK's FOI Act by the Data Protection Act 2018 and the revised s.45 code of practice published by the Cabinet Office in July 2018.

What can nurses do to support those receiving palliative care? How do you ensure clear communication and maintain patients' and families' preferences? Palliative Care Nursing is essential reading for nursing students, nurses and other health and social care professionals providing supportive and palliative care to those with advanced illness or who are towards the end of life. This third edition of the acclaimed textbook has been extensively revised and examines important research studies, key debates around care and strategies to move palliative care nursing forward. In four sections the book covers key elements of nursing practice towards the end of life: • Who is the palliative care patient? • Providing palliative nursing care • Caring around the time of death • Challenging issues in palliative care nursing
Leading authors in each of these fields address contemporary issues and explore how to provide high quality person-centred palliative care, encouraging application to practice through exercises case studies. Chapters completely reworked or new for this edition include those on communication, living with uncertainty, bereavement care, the costs of caring, nurses' decision-making and capacity, and palliative care worldwide. The clarity of evidence presented and coverage of a diverse range of topics make this the foundational textbook for all studying palliative care at pre-registration level, postgraduate level or as part of CPD study. With a foreword by last edition editor, Professor Sheila Payne, Lancaster University, UK. "I welcome this third edition of Palliative Care Nursing and congratulations to the new team who have provided us with a dynamic and innovative development of a core text for palliative nursing practice. As the largest workforce in palliative care, and given the changing face of clinical practice for nurses, including increased educational opportunity and expanding roles and responsibilities, this book is timely in its focus on critical issues which frame and scope the reality of palliative care and the nursing contribution to that discipline. The learning exercises, in particular, offer tools for educators and clinicians to reflect on practice and understand new ways of knowing in palliative care. It will be an excellent resource for nursing, both in the UK and Ireland and to the wider international audience, having drawn on the breadth of global nursing expertise to bring this book together. Philip Larkin, Professor of Clinical Nursing (Palliative Care), University College Dublin and Our Lady's Hospice and Care Services, Dublin, Ireland; President, European Association for Palliative Care "This is a book of substance that captures the current status of palliative nursing, including the values and research evidence that underpin it. The changing nature of palliative nursing as an evidence-based specialism is balanced with practical skills and insights from experts, and also considers the needs of those working with, or concerned about, the dying person's well-being. It covers a range of challenging issues as well as drawing on the wisdom of those who actually undertake this work on a daily basis. I hope that students and practitioners from all disciplines will find this a useful resource to understand the art and craft of good palliative nursing." Professor Daniel Kelly, Fellow of the Royal College of Nursing and Royal College of Nursing Chair of Nursing Research, Cardiff University, UK

This complete guide to LEGO® Therapy contains everything you need to know in order to set up and run a LEGO® Club for children with autism spectrum disorders or related social communication difficulties and anxiety conditions. By providing a joint interest and goal, LEGO® building can become a medium for social development such as sharing, turn-taking, making eye-contact, and following social rules. This book outlines the theory and research base of the approach and gives advice on all practical considerations including space, the physical layout of the room and choosing and maintaining materials, as well as strategies for managing behaviour, further skill development, and how to assess progress. Written by the pioneer of the approach alongside those who helped form it through their research and evaluation, this evidence-based

manual is essential reading for professionals working with autism who are interested in running a LEGO® Club or learning more about the therapy.

Contemporary questions about gender challenge our views of ourselves and the proverbial other. In this meticulously researched, well-written, and illuminating guide, Vincent Gil unpacks elements involved in gender-identity conflicts and intersexuality. At the heart of the matter are real people, not just issues. Drawing on histories culled from his many years as counselor, professor, and researcher, Gil explores gender and identity, issues of conflict, and of reconciliation. He distinguishes biological and psychological elements from social issues, and addresses the current movement of gender individuation, its language idioms, and its influences on gender ideology and theology. He also provides an engaging theological discourse, filling gaps in our understanding of procreation to better inform our theology of being. The work assists Christian parents, clergy, and lay leaders by working through the tough questions. It suggests means to engage, counsel, support, and reconcile with those gender-questioning or conflicted, be they children, adolescents, or adults.

This first volume, presenting research carried out through the Exeter: A Place in Time project, provides a synthesis of the development of Exeter within its local, regional, national and international hinterlands. Exeter began life in c. AD 55 as one of the most important legionary bases within early Roman Britain, and for two brief periods in the early and late 60s AD, Exeter was a critical centre of Roman power within the new province. When the legion moved to Wales the fortress was converted into the civitas capital for the Dumnonii. Its development as a town was, however, relatively slow, reflecting the gradual pace at which the region as a whole adapted to being part of the Roman world. The only evidence we have for occupation within Exeter between the 5th and 8th centuries is for a church in what was later to become the Cathedral Close. In the late 9th century, however, Exeter became a defended burh, and this was followed by the revival of urban life. Exeter's wealth was in part derived from its central role in the south-west's tin industry, and by the late 10th century Exeter was the fifth most productive mint in England. Exeter's importance continued to grow as it became an episcopal and royal centre, and excavations within Exeter have revealed important material culture assemblages that reflect its role as an international port.

Fresh, modern, and practical, Public Law provides law undergraduates with a unique approach to constitutional and administrative law, aptly demonstrating why this is an exciting time to be studying the subject. Writing in a fluid, succinct style, the authors carve a logical pathway through the key areas studied on the LLB, guiding students to a solid understanding of the fundamental principles. This theoretical grounding is then rooted in reality, with each concept applied to a hypothetical scenario (included at the start of each chapter) to set it into a practical context. While this practical element helps students to understand how the law applies and develop problem-solving skills, a trio of supportive learning features also encourages active engagement with and a critical appreciation of public law. 'Key case' boxes highlight and analyse the significant case law in each area; "Counterpoint" boxes flag alternative viewpoints and areas of debate; and "Pause for reflection" boxes prompt readers to consider the impact of laws, and what potential developments and reforms may lie ahead. Public Law's modern approach and unique combination of practical application and theoretically critical discussion makes it the ideal choice for students seeking to understand concepts not only in the abstract but in practice, helping them to develop the skills they need to succeed at university and beyond. Online Resources This title is supported by an online resources platform for students featuring guidance on approaching and analysing the real life scenarios in the book, a bank of multiple choice questions, legal updates, and links to useful

material elsewhere on the web.

Volume 1: US Perspectives College of Law Publishing

Adolescents in many countries consume poor quality diets that include high intakes of sugary drinks and fast food and low intakes of vegetables. The aims of this Special Issue on adolescent dietary behavior were to identify methods and approaches for successful interventions to improve diet quality in this age group and identify at-risk subgroups that need particular attention. In total, 11 manuscripts were published in this Special Issue: three qualitative studies that included a systematic review, five cross-sectional studies, and three quantitative evaluations of interventions. This Special Issue discusses the contribution of the studies and provides suggestions to improve the success of future interventions in adolescents. It is important that adolescents are involved in the design of interventions to improve social and cultural acceptability and relevance.

Interventions targeting schools or communities framed within a larger food system, such as issues around climate change and the carbon footprint of food, may improve engagement. Targeting adolescents in areas of deprivation is a priority where diet quality is particularly poor. Potentially successful interventions also include environmental policies that impact the cost and marketing of food and drinks, although evaluations of these were not included in this Special Issue.

Employment Law introduces the issues involved in the regulation of employees and their relations

with their employers. It explains the framework governing employment contracts, dismissal procedures and redundancy payments. The book also covers TUPE, discrimination law and family-friendly legislation, as well as practice and procedure. The book has been comprehensively updated to take account of all the main recent and proposed developments in employment law and practice, including the recent guidance issued by the Equality and Human Rights Commission on the use of non-disclosure agreements to settle employment claims, and an updated summary of the key cases on annual leave, including the Court of Appeal's decisions in *The Harpur Trust v Brazel* and *Flowers v East of England Ambulance Trust*. A number of key European court cases are considered, including two ECtHR decisions looking at the privacy in the workplace (*Garamukanwa v UK* and *Lpez Ribalda v Spain*) and the ECJ decision in *Federacin de Servicios de Comisiones Obreras v Deutsche Bank* (keeping records of time worked). The first Supreme Court decision in almost 100 years to consider post-employment restrictive covenants, *Tillman v Egon Zehnder*, is included, along with a number of important Court of Appeal judgments, including *Network Rail v Crawford* (daily rest periods), *Hare Wines v Kaur* (automatically unfair dismissal and TUPE), *Okedina v Chikale* (impact of illegal contacts in an unfair dismissal situation), *Owen v AMEC Foster Wheeler Energy* (disability discrimination and comparators) and *Foreign and Commonwealth Office v Bamieh* (territorial jurisdiction in a whistleblowing claim). The case law on unfair dismissal and reasonableness has been updated to include the Court of Appeal decisions in *North West Anglia NHS Foundation Trust v Gregg* (suspension and disciplinary proceedings) and *London Borough of Lambeth v Agoreyo* (suspension and mutual trust and confidence), and the EAT decisions in *Radia v Jefferies International* (investigations and appeals) and *Phoenix House v Stockman* (No 2) (making covert recordings at work). Three recent cases considering what amounts to a religious or

philosophical belief under the Equality Act 2010 are included (*Mackereth v Department for Work and Pensions*, *Conisbee v Crossley Farms and Gray v Mulberry Company*), as are a number of significant EAT rulings, including *Dray Simpson v Cantor Fitzgerald* (a masterclass on whistleblowing) and *Ameyaw v PwC* (online publication of employment tribunal judgments). The book is up to date as at 1 October 2019, although account has been taken of some later developments as at 20 November 2019.
