valuable, sustainable companies. How Companies Can Deliver Radically Greater Value in Fast-Changing Markets Ubiquity Press Christopher Knowlton, author of Cattle Kingdom and former Fortune writer, takes an in-depth look at the spectacular Florida land boom of the 1920s and shows how it led directly to the Great Depression. The 1920s in Florida was a

time of incredible excess, immense wealth, and precipitous collapse. The decade there produced the largest human migration in American history, far exceeding the settlement of the West, as millions flocked to the grand hotels and the new cities that rose rapidly from the teeming wetlands. The boom spawned a new subdivision civilization—and the most egregious

large-scale assault on the environment in the name of “progress.” Nowhere was the glitz and froth of the Roaring Twenties more excessive than in Florida. Here was Vegas before there was a Vegas: gambling was condoned and so was drinking, since prohibition was not enforced. Tycoons, crooks, and celebrities arrived en masse to promote or exploit this new and dazzling

American frontier in the sunshine. Yet, the import and deep impact of these historical events have never been explored thoroughly until now. In Bubble in the Sun Christopher Knowlton examines the grand artistic and entrepreneurial visions behind Coral Gables, Boca Raton, Miami Beach, and other storied sites, as well as the darker side of the frenzy. For while giant

fortunes were being made and lost and the nightlife raged more raucously than anywhere else, the pure beauty of the Everglades suffered wanton ruination and the workers, mostly black, who built and maintained the boom, endured grievous abuses. Knowlton breathes dynamic life into the forces that made and wrecked Florida during the decade: the real estate moguls Carl Fisher, George

Merrick, and Addison Mizner, and the once-in-a-century hurricane whose aftermath triggered the stock market crash. This essential account is a revelatory—and riveting—history of an era that still affects our country today. *Leveraging Outside Wisdom to Deliver Sustainable Value* Knopf The second edition of A Russian Grammar Workbook provides a

rigorous and hands-on approach to Russian grammar for students who are intent on mastering the nuance and complexities of this language. Revised and updated version of the popular and comprehensive workbook offering detailed coverage of all aspects of Russian grammar. New edition reflects changes in Russian lexis and grammar over the past few years. Features over

230 sets of structured exercises. Packed with activities ranging from substitution drills and multiple choice questions, to grammatical quizzes and translation exercises. May be used independently or in conjunction with Wade's *A Comprehensive Russian Grammar*, 3rd edition; a transparent structure links directly to the *Grammar for ease of reference* between the two volumes.

Timeless lessons on wealth, greed, and happiness. Public Affairs. How will Russia redraw post-Soviet borders? In the wake of recent Russian expansionism, political risk expert Agnia Grigas illustrates how—for more than two decades—Moscow has consistently used its compatriots in bordering nations for its territorial ambitions. Demonstrating how this policy has been implemented.

in Ukraine and Georgia, Grigas provides cutting-edge analysis of the nature of Vladimir Putin's foreign policy and compatriot protection to warn that Moldova, Kazakhstan, the Baltic States, and others are also at risk. Technological, Political, Global, and Creative Perspectives Yale University Press Your Company Isn't Fast Enough. Here's How to Change That.

The traditional hierarchical organization is dead, but what replaces it? Numerous new models--the agile organization, the networked organization, and holacracy, to name a few--have emerged, but leaders need to know what really works. How do you build an organization that is responsive to fast-changing markets? What kind of organization delivers both speed and scale, and how do you lead it? Arthur

Yeung and Dave Ulrich provide leaders with a much-needed blueprint for reinventing the organization. Based on their in-depth research at leading Chinese, US, and European firms such as Alibaba, Amazon, DiDi, Facebook, Google, Huawei, Supercell, and Tencent, and drawing from their synthesis of the latest organization research and practice, Yeung and Ulrich explain how to build a

new kind of organization (a "market-oriented ecosystem") that responds to changing market opportunities with speed and scale. While other books address individual pieces of the puzzle, *Reinventing the Organization* offers a practical, integrated, six-step framework and looks at all the decisions leaders need to make--choosing the right strategies,

capabilities, structure, culture, management tools, and leadership--to deliver radically greater value in fast-moving markets. For any leader eager to build a stronger, more responsive organization and for all those in HR, organizational development, and consulting who will shape and deliver it, this book provides a much-needed roadmap for reinvention. *The Ultimate Guide to Leveraging*

Your Appearance to Be Happier, More Successful, and Less Stressed Simon and Schuster "Artificial intelligence (AI) and big data promise to help reshape the global order. For decades, most political observers believed that liberal democracy offered the only plausible future pathways for big, industrially sophisticated countries to make their citizens rich.

<p>Now, by allowing governments to monitor, understand, and control their citizens far more effectively than ever before, AI offers a plausible way for big, economically advanced countries to make their citizens rich while maintaining control over them--the first since the end of the Cold War. That may help fuel and shape renewed international competition between types</p>	<p>of political regimes that are all becoming more "digital." Just as competition between liberal democratic, fascist, and communist social systems defined much of the twentieth century, how may the struggle between digital liberal democracy and digital authoritarianism define and shape the twenty-first? This work highlights several key areas where AI-related</p>	<p>technologies have clear implications for globally integrated strategic planning and requirements development"- - <i>Russian Etymological Dictionary</i> John Wiley & Sons Examines the causes of the financial crisis that began in 2008 and reveals the weaknesses found in financial regulation, excessive borrowing, and breaches in accountability. <i>Open Harvard Business Press</i></p>
---	---	---

Argues that a manager's central responsibility is to create and implement strategies, challenges popular motivational practices, and shares anecdotes discussing how to enable action-oriented plans for real-world results.

Modern Russian Grammar Workbook
Slavica Pub
Russian writer Leo Tolstoy created a realistic masterpiece in "Anna Karenina,"

utilizing allegory and symbol to an extent and at a level of sophistication unknown in his other works.

Browning's study identifies and analyzes previously unnoticed or only briefly mentioned "linkages and keystones" arising from Anna Karenina's momentous train ride and peasant nightmares, and allegories rooted in Vronsky's disastrous steeplechase.

Professional How Russian Came to Be

the Way It Is Slavica Pub
 An absorbing, novelistic, and powerfully affecting work of history and investigative journalism that tracks the unraveling of American democracy. In *American Oligarchs*, award-winning investigative journalist Andrea Bernstein tells the story of the Trump and Kushner families like never before. Building on her landmark reporting for the acclaimed podcast *Trump, Inc.* and *The New*

Yorker, Bernstein brings to light new information about the families' arrival as immigrants to America, their paths to success, and the business and personal lives of the president and his closest family members. Drawing on hundreds of interviews and more than one hundred thousand pages of documents, American Oligarchs details how the Trump and Kushner

dynasties encouraged and profited from a system of corruption, dark money, and influence trading, and reveals the historical turning points and decisions?on taxation, regulation, white-collar crime, and campaign finance laws?that have brought us to where we are today. A new afterword examines how the two families' transactional politics left America particularly

vulnerable to the crises of 2020.

The official U.S. government report on Russian interference in democracy around the world! Most Americans were surprised to learn of Russian efforts to

manipulate the results of the 2016 presidential election, and have become increasingly concerned about the vulnerabilities of our democracy. Here for the first time in an official U.S. government report is the fascinating and detailed account of how ex-KGB agent Vladimir Putin has used computer hackers, official state spy agencies, and even Russian organized crime thugs over the past

thirty years to achieve his policy agenda?not only for Russian political domination, but also for his own enrichment and the enrichment of the oligarchs who control almost all aspects of the Russian economy. This complete report includes chapters on: Putin's Rise and Motivations Manipulation and Repression Inside Russia Old Active Measures and

Modern Malign Influence Operations Weaponization of Civil Society, Ideology, Culture, Crime, and Energy Kremlin Interference in Semi- Consolidated Democracies and Transitional Governments Kremlin Interference in Consolidated Democracies Multilateral and U.S. efforts to Counter the Kremlin's Asymmetric Arsenal In Putin's Asymmetric Assault on	Democracy in Russia and Europe, we learn about Vladimir Putin's rise to power through the KGB to mayor of St. Petersburg and eventually as head of the Russian state. We discover the history of how Putin used classic Cold War KGB tactics by weaponizing civil society, culture, ideology, and Russia's criminal element against the nascent Russian democracy by cultivating and using ties	to NGOs, thinktanks, extremist political groups, the Russian orthodox church, industrial and energy policy, and the Russian Mafia. We also see how the Kremlin then exported this political extortion, intimidation, and monetary corruption first to its Eastern European neighbors, then their western partners in the European Union, and how it has now landed on America's
--	--	--

<p>shores. Just as certain people in the intelligence community became increasingly alarmed at the growing strength and sophistication of Al-Qaeda in the late 1990s, the senators and staffers of the U.S. Senate Committee on Foreign Relations are giving the nation fair warning of a 9/11-level assault on the United States, this time by Russia's spy agencies. Putin's Asymmetric Assault on</p>	<p>Democracy in Russia and Europe reveals not only the history of Russia's devastating tactics, but how to recognize and counter them. <u>Final Report of the National Commission on the Causes of the Financial and Economic Crisis in the United States</u> Createspace Independent Publishing Platform The Cambridge Advanced Learner's Dictionary gives the vital support which</p>	<p>advanced students need, especially with the essential skills: reading, writing, listening and speaking. This book
explores the
puzzling
phenomenon
of new veiling
practices
among lower
middle class
women in
Cairo, Egypt.
Although
these women
are part of a
modernizing
middle class,
they also
voluntarily
adopt a

traditional
symbol of
female
subordination.
How can this
paradox be
explained? An
explanation
emerges
which
reconceptualiz
es what
appears to be
reactionary
behavior as a
new style of
political
struggle--as
accommodatin
g protest.
These women,
most of them
clerical
workers in the
large
government
bureaucracy,
are
ambivalent
about working
outside the
home,

considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling

emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.
