Economics is a method and can help us understand the reason behind human (mis)behavior. Economists study a variety of behaviors and misbehaviors. Misbehavior may result from an action or inaction. Economists use creative ways to collect data to answer their research questions. An economic approach to the behavior of individuals in the society emphasizes on the individual's desire to gain rewards while overlooking costs. This would explain the nature of the prosocial behavior that is manifested in the rational behavior undertaken by humans at the social level.
