The course of south Indian history from pre-historic times to the contemporary era is a complex narrative with many interpretations. Reflecting recent advances in the study of the region, this volume provides an assessment of the events and socio-cultural development of south India through a comprehensive analysis of its historical trajectory. Investigating the region's states and configurations, this book covers a wide range of topics that include the origins of the early inhabitants, formation of the ancient kingdoms, advancement of agriculture, new religious movements based on bhakti, and consolidation of centralized states in the medieval period. It further explores the growth of industries in relation to the development of East-West maritime trade in the Indian Ocean as well as the wave of Islamicization and the course of commercial relations with various European countries. The book then goes on to discuss the advent of early-modern state rule, impact of the raiyatwari system introduced by the British, debates about whether the region's economy developed or deteriorated during the eighteenth century, decline of matriliney in Kerala, emergence of the Dravidian Movement, and the intertwining of politics with contemporary popular culture. Well illustrated with maps and images, and incorporating new archaeological evidence and historiography, this volume presents new perspectives on a gamut of issues relating to communities, languages, and cultures of a macro-region that continues to fascinate scholars and readers alike.

 Beginning with Timur, Sultan Ghazni who invaded India seventeen times at the head of a large army, plundering the country of its great wealth, to the last Mughal Emperor Bahadur Shah, banished from the country by the British - details and descriptions of every incident and each king astonish and exhilarate us. The approach is direct, simple and unambiguous. From Timur to Bahadur Shah it is one engaging account. The book should find a place in every household, as an authentic account of ourselves. A flawless portrait. -THE HINDU Madhan while explaining historical events uses modern similes... In spite of being a cartoonist in his previous avatar Madhan did not caricature the Moghul Emperors and their subjects. I am so pleased he did not sit on judgement as a south Indian non-Muslim writer. -KAMAL HAASAN

This intricately woven narrative is one of the landmark novels of Indian modernism. This ambitious novel, teeming with characters, focuses on the family of Srinivasa Aiyar or SRS, who moves from his ancestral house in Alapuzhai in Kerala, to the more modern Kottayam, before returning to his wife Lakshmi's home in Nagercoil in Tamil Nadu. Set in the late 1930s and reflecting the political and social turmoil of the pre-war years, it chronicles the psychological conflict between SRS and his nine-year-old son, Balu; the moral struggle of a young widow, Anandam, as she considers remarriage; and the political journey of Sridaran, who chooses to break off his studies in England in order to join nationalist activities at home.

In recent years, research on microelectronics has been specifically focused on the proposition of efficient alternative methodologies and materials to fabricate feasible integrated circuits. This book provides a general background of thin film transistors and their simulations and constructions. The contents of the book are broadly classified into two topics: design and simulation of FETs and construction of FETs. All the authors anticipate that the provided chapters will act as a single source

of reference for the design, simulation and construction of FETs. This edited book will help microelectronics researchers with their endeavors and would be a great addition to the realm of semiconductor physics.

"An extraordinary book. This dignified, just and unbearable account of the dark heart of Sri Lanka needs to be read by everyone." — Roma Tearne, author of *Mosquito* The tropical island of Sri Lanka is a paradise for tourists, but in 2009 it became a hell for its Tamil minority, as decades of civil war between the Tamil Tiger guerrillas and the government reached its bloody climax. Caught in the crossfire were hundreds of thousands of schoolchildren, doctors, farmers, fishermen, nuns, and other civilians. And the government ensured through a strict media blackout that the world was unaware of their suffering. Now, a UN enquiry has called for war crimes investigation, and Frances Harrison, a BBC correspondent for Sri Lanka during the conflict, recounts those crimes for the first time in sobering, shattering detail.

Tale of a Tamarind Tree BoD - Books on Demand

The eeriness of Jayakanthan's two novellas in this volume is overwhelming and disturbing. The protagonists are helpless victims of psychological maladies. Their suppressed libido and Oedipus complex are areas Tamil writers generally dared not enter - at any rate in the 1960s, when they were written. The brilliant introvert Rajaraman is the quintessential good boy. The play of circumstances kindles oedipal fancies in him. The incandescent consummation with Sarada Mami is a catharsis. A rishi is born looking at the world with a disdain at once benignly distant and compellingly personal. Well-educated and well-employed Janaki lives under the protective cover of her paranoid, possessive, puritanical mother. Her healthy friendship with a collegemate of yesteryear promises liberation. Her short-lived taste of freedom is stamped out and she is sucked back into her mother's bizarre, overwhelming orbit. The success of Jayakanthan lies in evoking in the reader a profound empathy with the tragically deviant characters of the two stories.

Nagapattinam to Suvarnadwipa MacMillan India

This book brings together linguistic and archaeological evidence of South Asian prehistory. The author depicts and analyses the region, in particular the Indus Valley civilization, its links with neighbouring regions and its implications for social history. Each type of linguistic data is put into its socio-historical context. Consequently, the book is both a description of the unique methodology 'linguistic archaeology' and a treatment of South Asian linguistic data.

The Life and Times of K. Kamaraj Penguin UK

In this era, curiosity of story has become like the mind. Incidents have become shallow. That is why in unnatural circumstances, after searching mystery of heart a big mistake had been inserted in the life of hero and heroine of the story - very cruel but interesting. The question of its psychology is that the ordinary women of our country are too much conditioned for their husbands, it is so deeply rooted inside their heart that they can easily condemn the trap of their first love, but for all these questions, answer is not same for everything. It is not impossible for a particular girl to be deeply conditioned with old rituals of society, in which the moment she gets information of her unknown husband, she immediately goes to her husband by leaving each bond. If bond and conditioning could have firmly run inside a woman's heart from both the sides till the end of the story, drama of story could be very sharp. The sign of tragedy would have a portrait inside heart, forever. Ramesh becomes the main vehicle of tragedy. His sorrows were not that much against his feelings, the way it was for the trap of the incident. Therefore, if reader says that writer is a sinner, I won't answer. I will only say that the part of the story which has a touch of poetry in explanation and agony, if there is no deficiency of juice in that part the author could maintain his fame in whole story of ?Nauka Dubi?, but this also I cannot say with full authority, because liking is changing every day.

Linguistic Archaeology of South Asia BoD - Books on Demand

The expansion of the Cholas from their base in the Kaveri Delta saw this growing power subdue the kingdoms of southern India, as well as occupy Sri Lanka and the Maldives, by the early eleventh century. It was also during this period that the Cholas initiated links with Song China. Concurrently, the Southeast Asian polity of Sriwijaya had, through its Sumatran and Malayan ports, come to occupy a key position in East-West maritime trade, requiring engagement with both Song China to the north and the Chola kingdom to its west. The apparently friendly relations pursued were, however, to be disrupted in 1025 by Chola naval expeditions against fourteen key port cities in Southeast Asia. This volume examines the background, course and effects of these expeditions, as well as the regional context of the events. It brings to light many aspects of this key period in Asian history. Unprecedented in the degree of detail assigned to the story of the Chola expeditions, this volume is also unique in that it includes translations of the contemporary Tamil and Sanskrit inscriptions relating to Southeast Asia and of the Song dynasty Chinese texts relating to the Chola Kingdom.
