*Quentin Blake's ABC* The Experiment Devoted, eccentric, and compelling, Gertrude and Leo Stein were constant companions, from childhood to adulthood, until, finally, they spoke no more. Americans, expatriates, and virtually orphans, they lived together for almost forty years, collaborating in one of the great artistic and literary adventures of the twentieth century. *Sister Brother* tells the story of that adventure and relationship. With a personality that drew people toward her--regardless of what they thought of her inventive, hermetic prose--Gertrude Stein dazzled and perplexed. Enigmatic, intelligent, and self-absorbed, Leo also dazzled but in his own way. One of the crucial figures in Gertrude's early years, he was the original guiding spirit of the famed salon at 27 rue de Fleurus, which continued for almost two decades. From her early days as a medical

student to her first days in Paris, Gertrude was passionately driven toward the career in which she distinguished herself, demanding appreciation as an exceptional writer who knew precisely what she intended. This book shows how Gertrude slowly struggled with what became a unique voice--and why her brother spurned it. With its wealth of new and rare material, its reconstruction of Leo's famed art collection, and its array of characters--from Bernard Berenson to Pablo Picasso--this biography offers the first glimpse into the smoldering sibling relationship that helped form two of the twentieth century's most unusual figures. **The Quentin Blake Treasury** New York Review of Books

### The Ceramic Art Tate

Published to accompany a major exhibition highlighting Quentin Blake's prolific but unknown work. Quentin Blake's illustrations are instantly recognisable to

millions of people around the world. A new exhibition to be held at London's House of Illustration will explore an unusual aspect of Blake's work, however, exhibiting for the first time 100 examples of his works of art. *100 Figures*, will feature all of the 100 exhibited works - ranging from large-scale oil paintings to drawings and prints, created between the 1950s and today - providing an unprecedented insight into Blake's creative practice. Works included date back to his post-grad years in the 1950s when he struggled to make a living as an illustrator and took life-drawing classes at Chelsea School of Art. It was here that he first engaged with the human figure, but soon, having observed how the human body behaves, he found he was able to draw it from memory in any pose, working from his vivid imagination. *100 Figures* will also offer the chance to catch a rare glimpse of early oil paintings by Blake - some painted on hardboard since he was unable to afford canvases at that time and painted using commercial house-painters' brushes. -- Tate Publishing.

A NEW YORK REVIEW BOOKS ORIGINAL  
Novels in Three Lines collects more than a

thousand items that appeared anonymously in the French newspaper *Le Matin* in 1906—true stories of murder, mayhem, and everyday life presented with a ruthless economy that provokes laughter even as it shocks. This extraordinary trove, undiscovered until the 1940s and here translated for the first time into English, is the work of the mysterious Félix Fénéon. Dandy, anarchist, and critic of genius, the discoverer of Georges Seurat and the first French publisher of James Joyce, Fénéon carefully maintained his own anonymity, toiling for years as an obscure clerk in the French War Department. *Novels in Three Lines* is his secret chef-d'oeuvre, a work of strange and singular art that brings back the long-ago year of 1906 with the haunting immediacy of a photograph while looking forward to such disparate works as Walter Benjamin's *Arcades Project* and the *Death and Disaster* series of Andy Warhol.

A moving reflection on a subject that touches us all, by the bestselling author of *Claire of the Sea* Light Edwidge Danticat's *The Art of Death: Writing the Final Story* is

at once a personal account of her mother dying from cancer and a deeply considered reckoning with the ways that other writers have approached death in their own work. "Writing has been the primary way I have tried to make sense of my losses," Danticat notes in her introduction. "I have been writing about death for as long as I have been writing." The book moves outward from the shock of her mother's diagnosis and sifts through Danticat's writing life and personal history, all the while shifting fluidly from examples that range from Gabriel García Márquez's *One Hundred Years of Solitude* to Toni Morrison's *Sula*. The narrative, which continually circles the many incarnations of death from individual to large-scale catastrophes, culminates in a beautiful, heartrending prayer in the voice of Danticat's mother. A moving tribute and a work of astute criticism, *The Art of Death* is a book that will profoundly alter all who encounter it.

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs--nearly a century after Charles Fort's Book

of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

This book addresses for the first time four major rock art areas of West Papua: the Berau Gulf, Bitsyari Bay, Triton Bay and the Baliem Valley. Together, they form one

of the richest regions of rock art and include many newly discovered sites. These sites, located along the South Coast and in the Baliem Highlands, contain thousands of paintings. This book presents, for the first time, hundreds of original photographs including hand stencils, matutuo, faces, and abstract motifs found in West Papua. It also compiles existing hypotheses on the antiquity and origins of rock art in the region and tries to offer a stimulus for further research

'In recent years I have found myself working increasingly in sequences of drawings which explore subjects and techniques which interest me. These sequences vary in approach and tone, and between reality and fantasy. But I hope that in each of them in its own way will appeal to anyone who like looking at drawings.' Quentin Blake 2019  
Quentin Blake, like many illustrators, works essentially in isolation. In normal times he would make two daily trips to his office across the square from where he lives to see what business there was for him to deal with. But during the lockdowns he had no such distractions and demands made of his time. There was still some commissioned works; he finished two books and he did some work for charities raising funds to deal with the lockdowns. But Quentin had a lot more time to explore his visual interests and go wherever his imagination took him. Some of these

series were drawn at 6.00 am while he was still in bed. The medium he used for each series was partly decided by whatever was to hand; pencil, biro or Sennelier oil pastels. Similarly, the size, colour and quality of the paper would be decided by what was available. This book is an edited selection of over 3,000 drawings Quentin produced from March 2020 to February 2021; a portfolio of new personal work, not commissioned and not meant for publication. They provide a unique insight into what happens when a great artist is left to his own devices.

Quentin Blake is a collaboration between Tate and London 's new House of Illustration, published to coincide with the gallery's inagural exhibition, Inside Stories, a landmark show by Quentin Blake.

Quentin Blake is one of the best-known and most highly regarded illustrators of our time. Internationally celebrated for his partnership with Roald Dahl, throughout his fifty year career he also extended collaboration with other authors such as Russel Hoban, John Yeoman, and Michael Rosen. He created children's books of his own and illustrated adult classics by Cervantes, Cyrano de Bergerac, Voltaire, and La Fontaine. In recent years his work has appeared extensively on the walls of museums, hosptials, and other public spaces. Joanna Carey's essay is a brilliant survey of Blake's oeuvre, at once intimate, perceptive and illuinating, and written with an exuberance matching that of her

subject.
