As Edgar soundly slept, moonlight sculpted to his ivory pillow as it began, at first like an expected flash of movement from the corner of his nostril. Then again, this time several coarse black hairs grew slowly from each of Edgars openings, slowly but surely moving cautiously over his lip and chin like a raven-black out-of-control Jack in the Beanstalk. -from Coiffure Love Buoyed by the concert, Elaine ordered two Black Russians, heavy on the vodka and light on Japanese custom.....During the last course the vodka blacksmith hammered me. By now the room was tilting and the vodka and butterfly shrimp were scurrying toward my stomachs exit sign....First kneeling, then completely falling into the lower seating tier, I nested on my side, soaked in sour soup atop a middle aged couple....Never turning back, I reeled all the way to my little hotel by foot, partially digested shrimp and curly crispy noodles now decorating my lower trouser legs and those silly bamboo sandals. - from Livin by Wits As a last ditch effort, I almost jokingly asked if he was a betting man, a simple Roman coin toss, heads heaven, tails hell, what do you say, JC? The attending angels blushed as he aptly flipped the coin, mid air I called heads, it landed on his nail scarred wrist, Caesar side up, heads, I won! -from Dinner with Jesus Reappearing. Olga the Orangutan, a bit squat, very muscular and quite hairy in the now splitting silk teddy showed surprising agility as she clutched Carl to dance; swaying slowly to the music, they formed an interesting couple: Carl, knees bent and stooping over in his tasseled smoking jacket; Olga standing on his slippers, hairy arms around his neck. -from Monkey Business

In 2016, Americans fed up with the political process vented that frustration with their votes. Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade. Democrats nearly selected a self-described socialist who ran on a populist platform against the influence of big money in politics. While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual, the truth is that we don't have to pin our hopes for greater participation on any one candidate. All of us have a say—if we learn, master and practice

the skills of effective citizenship. One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America -- and will be ready to make governments work for you, not the other way around.

The word holistic comes from the Greek root holos, which means whole, total, entire. Holistic means to understand the entire human being. In holistic health, the entire human being is considered, paying attention to the interaction and integration of the biological and physiological (body and breath), psychological (conscious and unconscious mind) and philosophical (soul) dimensions. The emphasis is on treating the whole patient and not just the symptoms of disease. Man has to realize that he is not a body alone. He is a breathing being and a thinking being with complex emotions, appetites and desires. To maintain good health, the following guidelines must be considered: Nourish and exercise the physical body Make the breath deep, smooth, even and continuous Discipline the senses Quieten the mind Calm the emotions Cultivate contentment Discover the inner

being, the soul or center of consciousness The purpose of life is to be happy and free from pains, fears and miseries. This can be achieved by practicing a self-training program as set forth in this manual.
