The Metallurgy of Anodizing Aluminum Oxford University Press

In the decades after World War II, the American economy entered a period of prolonged growth that created unprecedented affluence—but these developments came at the cost of a host of new environmental problems. Unsurprisingly, a disproportionate number of them, such as pollution-emitting factories, waste-handling facilities, and big infrastructure projects, ended up in communities dominated by people of color. Constrained by long-standing practices of segregation that limited their housing and employment options, people of color bore an unequal share of postwar America's environmental burdens. This reader collects a wide range of primary source documents on the rise and evolution of the environmental justice movement. The documents show how environmentalists in the 1970s recognized the unequal environmental burdens that people of color and low-income Americans had to bear, yet failed to take meaningful action to resolve them. Instead, activism by the affected communities themselves spurred the environmental justice movement of the 1980s and early 1990s. By the turn of the twenty-first century, environmental justice had become increasingly mainstream, and issues like climate justice, food justice, and green-collar jobs had taken their places alongside the protection of wilderness as "environmental" issues. Environmental Justice in Postwar America is a powerful tool for introducing students to the US environmental justice movement and the sometimes tense relationship between environmentalism and social justice. Lesser Feasts and Fasts had not been updated since 2006. This updated edition, adopted at the 79th General Convention (resolution A065), fills that need. Biographies and collects associated with those included within the volume have been updated; a deliberate effort has been made to more closely balance the men and women represented within its pages.

Set against the backdrop of the Civil Rights Movement, *Redlined* exposes the racist lending rules that refuse mortgages to anyone in areas with even one black resident. As blacks move deeper into Chicago's West Side during the 1960s, whites flee by the thousands. But Linda Gartz's parents, Fred and Lil choose to stay in their integrating neighborhood, overcoming previous prejudices as they meet and form friendships with their African American neighbors. The community sinks into increasing poverty and crime after two race riots destroy its once vibrant business district, but Fred and Lil continue to nurture their three apartment buildings and tenants for the next twenty years in a devastated landscape—even as their own relationship cracks and withers. After her parents' deaths, Gartz discovers long-hidden letters, diaries, documents, and photos stashed in the attic of her former home. Determined to learn what forces shattered her parents' marriage and undermined her community, she searches through the family archives and immerses herself in books on racial change in American neighborhoods. Told through the lens of Gartz's discoveries of the personal and political, *Redlined* delivers a riveting story of a community fractured by racial turmoil, an unraveling and conflicted marriage, a daughter's fight for sexual independence, and an up-close, intimate view of the racial and social upheavals of the 1960s.

A Washington Post Notable Book One of the Best Books of the Year: NPR, The Economist, Financial Times Shortlisted for the Costa Novel Award Finalist for the Women's Prize for Fiction Here is the story of the Iliad as we've never heard it before: in the words of Briseis, Trojan queen and captive of Achilles. Given only a few words in Homer's epic and largely erased by history, she is nonetheless a pivotal figure in the Trojan War. In these pages she comes fully to life: wry, watchful, forging connections among her fellow female prisoners even as she is caught between Greece's two most powerful warriors. Her story pulls back the veil on the thousands of women who lived behind the scenes of the Greek army camp—concubines, nurses, prostitutes, the women who lay out the dead—as gods and mortals spar, and as a legendary war hurtles toward its inevitable conclusion. Brilliantly written, filled with moments of terror and beauty, *The Silence of the Girls* gives voice to an extraordinary woman—and makes an ancient story new again.

Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by *Life* magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C. Behind the Magic Curtain: Secrets, Spies, and Unsung White Allies of Birmingham's Civil Rights Days is a remarkable look at a historic city enmeshed in racial tensions, revealing untold or forgotten stories of secret deals, law enforcement intrigue, and courage alongside pivotal events that would sweep change across the nation. Birmingham, Alabama gave birth to momentous events that spawned the Civil Rights Act of 1964 and affected world history. But that is not why it is known as The Magic City. It earned that nickname with its meteoric rise from a cornfield valley to an industrial boomtown in the late 1800s. Images of snarling dogs and fire hoses of the 1960s define popular perception of the city, obscuring the complexity of race relations in a tumultuous time and the contributions of white citizens who quietly or boldly influenced social change. Behind the Magic Curtain peels back history's veil to reveal little-known or never-told stories of an intriguing cast of characters that include not only progressive members of the Jewish, Christian, and educational communities, but also a racist businessman and a Ku Klux Klan member, who, in an ironic twist, helped bring about justice and forward racial equality and civil rights. Woven throughout the book are the firsthand recollections of a reporter with the state's major newspaper of the time. Embedded with law enforcement, he reveals the fascinating details of their secret wiretapping and intelligence operations. With a deft hand, Thorne offers the insight that can be gained from understanding little-known but important perspectives, painting a multihued portrait of a city that has figured so prominently in history, but which so few really know.

As Catholics, the Mass is the center of our Faith. We celebrate it every day. We know all the responses. We know all the gestures. But do we know what it all means? In *A Biblical Walk Through the Mass*, Dr. Edward Sri takes us on a unique tour of the Liturgy. Based on the revised translation of the Mass, this book explores the biblical roots of the words and gestures we experience in the Liturgy and explains their profound significance. This intriguing look at the Mass is sure to renew your faith and deepen your devotion to the Eucharist. This book is used as the text for *A Biblical Walk Through the Mass Study Program*, but it may also be purchased separately at steep bulk discounts. For those not able to attend a study, this is a perfect resource for catechesis on the deep riches of the Mass.

Systematic Approaches to a Successful Literature Review SCM Press

From the New York Times bestselling author of *Churchill* and *Napoleon* The last king of America, George III, has been ridiculed as a complete disaster who frittered away the colonies and went mad in his old age. The truth is much more nuanced and fascinating--and will completely change the way readers and historians view his reign and legacy. Most Americans dismiss George III as a buffoon--a heartless and terrible monarch with few, if any, redeeming qualities. The best-known modern interpretation of him is Jonathan Groff's preening, spitting, and pompous take in *Hamilton*, Lin-Manuel Miranda's Broadway masterpiece. But this deeply unflattering characterization is rooted in the prejudiced and brilliantly persuasive opinions of eighteenth-century revolutionaries like Thomas Paine and Thomas Jefferson, who needed to make the king appear evil in order to achieve their own political aims. After combing through hundreds of thousands of pages of never-before-published correspondence, award-winning historian Andrew Roberts has uncovered the truth: George III was in fact a wise, humane, and even enlightened monarch who was beset by talented enemies, debilitating mental illness, incompetent ministers, and disastrous luck. In *The Last King of America*, Roberts paints a deft and nuanced portrait of the much-maligned monarch and outlines his accomplishments, which have been almost universally forgotten. Two hundred and forty-five years after the end of George III's American rule, it is time for Americans to look back on their last king with greater understanding: to see him as he was and to come to terms with the last time they were ruled by a monarch.

2020 Anisfield-Wolf Book Award Winner Finalist for the National Book Critics Circle Award From an award-winning historian comes a dazzling history of the birth of cultural anthropology and the adventurous scientists who pioneered it—a sweeping chronicle of discovery and the fascinating origin story of our multicultural world. A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in neat packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In *Gods of the Upper Air*, a masterful narrative history of radical ideas and passionate lives, Charles King shows how these intuitions led to a fundamental reimagining of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose *Coming of Age in Samoa* is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale Hurston, whose studies under Boas fed directly into her now classic novel, *Their Eyes Were Watching God*. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, *Gods of the Upper Air* is a brilliant and groundbreaking history of American progress and the opening of the modern mind.

A NEW YORK TIMES, TIME, GQ, Vulture, and WASHINGTON POST TOP 10 BOOK OF THE YEAR ONE OF BARACK OBAMA'S FAVOURITE BOOKS OF THE YEAR Finalist for the Los Angeles Times Book Prize, and the National Book Critics Circle Award Shortlisted for the Rathbones Folio Prize Winner of the Hefner Heitz Kansas Book Award From the award-winning author of *10:04* and *Leaving the Atocha Station*, a tender and expansive family drama set in the American Midwest at the turn of the century, hailed by Maggie Nelson as Ben Lerner's "most discerning, ambitious, innovative, and timely novel to date." Adam Gordon is a senior at Topeka High School, class of '97. His mother, Jane, is a famous feminist author; his father, Jonathan, is an expert at getting "lost boys" to open up. They both work at a psychiatric clinic that has attracted staff and patients from around the world. Adam is a renowned debater, expected to win a national championship before he heads to college. He is one of the cool kids, ready to fight or, better, freestyle about fighting if it keeps his peers from thinking of him as weak. Adam is also one of the seniors who bring the loner Darren Eberheart—who is, unbeknownst to Adam, his father's patient—into the social scene, to disastrous effect. Deftly shifting perspectives and time periods, *The Topeka School* is the story of a family, its struggles and its strengths: Jane's reckoning with the legacy of an abusive father, Jonathan's marital transgressions, the challenge of raising a good son in a culture of toxic masculinity. It is also a riveting prehistory of the present: the collapse of public speech, the trolls and tyrants of the New Right, and the ongoing crisis of identity among white men.

An Honest and Well-Experienced Heart: Bloodlines of the Illuminati

Beginning with a 'Street Nativity Play' that didn't end as planned, and finishing with an open-ended conversation in the midst of the COVID-19 pandemic, "Being Interrupted" locates an institutionally-anxious Church of England within the wider contexts of divisions of race and class in 'the ruins of empire', alongside ongoing gender inequalities, the marginalization of children, and catastrophic ecological breakdown. In the midst of this bleak picture, Al Barrett and Ruth Harley open a door to a creative disruption of the status quo, 'from the outside, in': the in-breaking of the wild reality of the 'Kin-dom' of God. Through careful and unsettling readings in Mark's gospel, alongside stories from a multicultural outer estate in east Birmingham, they paint a vivid picture of an 'alternative economy' for the Church's life and mission, which begins with transformative encounters with neighbours and strangers at the edges of our churches, our neighbourhoods and our imaginations, and offers new possibilities for repentance and resurrection.

The picturesque Hopewell Valley is one of New Jersey's finest treasures. Sprawled over more than sixty square miles, the valley encompasses the boroughs of Hopewell and Pennington, the village of Titusville, and the township of Hopewell. From Christmas night of 1776, when George Washington and his troops crossed the Delaware River, to the twentieth century and the saga of Charles Lindbergh's missing infant son, Hopewell Valley has been steeped in history and drama. Rare images gathered from the Hopewell Valley Historical Society and local residents make up this monumental pictorial journey. Hopewell Valley combines the famous and not-so-famous elements of these communities nestled between the Delaware River and the Sourland Mountains. Home to key figures in American history, the Hopewell Valley has also seen important developments in architecture and industry. Although modernization has taken hold, the rural character of the area remains intact. And although the area has been home to well-known faces and events, Hopewell Valley is peppered with the lesser-known faces and places that bring out the full flavor.

Race, Ethnicity, and Policing NewSouth Books

While scholars increasingly recognize the importance of religion throughout American history, *The Bible in American Law and Politics* is the first reference book to focus on the key role that the Bible has played in American public life. In considering revolting from Great Britain, Americans contemplated whether this was consistent with scripture. Americans subsequently sought to apply Biblical passages to such issues as slavery, women's rights, national alcoholic prohibition, issues of war and peace, and the like. American presidents continue to take their oath on the Bible. Some of America's greatest speeches, for example, Lincoln's Second Inaugural and William Jennings Bryan's Cross of Gold speech, have been grounded on Biblical texts or analogies. Today, Americans continue to cite the Bible for positions as diverse as LGBTQ rights, abortion, immigration, welfare, health care, and other contemporary issues. By providing essays on key speeches, books, documents, legal decisions, and other writings throughout American history that have sought to buttress arguments through citations to Scriptures or to Biblical figures, John Vile provides an indispensable guide for scholars and students in religion, American history, law, and political science to understand how Americans throughout its history have interpreted and applied the Bible to legal and political issues.

An Honest, Well-Experienced Heart introduces us to the life and writings of Puritan preacher and author John Flavel (1627–1691). In his brief, introductory biography, Adam Embry discusses Flavel's background, ministry, and theology of keeping the heart, which, for Flavel, "is the great business of a Christian's life." Centuries ago, Flavel wrote, "Above all other studies in the world, study your own hearts." Embry guides us through forty-two short passages from Flavel's writings that acquaint us with this dedicated Puritan minister's piety and help us see the importance of this great business of keeping and managing our hearts. Table of Contents: Section One: Christ Rules the Heart Section Two: Keeping the Heart Section Three: Seasons of the Heart Section Four: Discerning the Heart Series Description Seeking, then, both to honor the past and yet not idolize it, we are issuing these books in the series Profiles in Reformed Spirituality. The design is to introduce the spirituality and piety of the Reformed Profiles in Reformed Spirituality tradition by presenting descriptions of the lives of notable Christians with select passages from their works. This combination of biographical sketches and collected portions from primary sources gives a taste of the subjects' contributions to our spiritual heritage and some direction as to how the reader can find further edification through their works. It is the hope of the publishers that this series will provide riches for those areas where we are poor and light of day where we are stumbling in the deepening twilight.
