True Tales of  
Amazing Boys  
Who Changed  
the World  
National

Geographic Books One day Arthur Conan Doyle will create the greatest detective of all -- Sherlock Holmes. But right now Artie Conan Doyle is a twelve-year-old Edinburgh schoolboy with a mystery of his own to solve. While sneaking out to explore Greyfriars Kirkyard by night, Artie and his best friend Ham spot a ghostly lady in grey and discover the footprints of a gigantic

hound. Could the two mysteries be connected? These strange clues lead them to a series of robberies carried out the sinister Gravediggers' Club and soon they find themselves pitted against the villainous Colonel Braxton Dash. Will Artie survive his encounters with graveyards and ghosts in the foggy streets of nineteenth century Edinburgh -- or will his first case be his

last? Robert J. Harris, author of *The World Goes Loki* series and *William Shakespeare and the Pirate's Fire*, brings the young Conan Doyle to life in this ingenious detective story full of twists, turns and shocking reveals. *National Geographic Little Kids First Big Book of Things That Go* Dorling Kindersley Ltd A unique, lavishly illustrated e-guide to the beauty and diversity of the Amazon--

the rainforest and the river, its flora and fauna, and the people who live in the region.

Applying the award-winning DK Eyewitness formula to the subject of the largest and most bio-diverse tract of tropical rainforest in the world, and the vast river that winds its way through it, this title profiles everything from the birds, animals, and insects that live there to the nine South American countries it extends

across.

### **Soldiers in Business**

Penguin  
A latest annual installment of a best-selling middle-grade reference incorporates a new section on animal friends, an updated "Fun and Games" chapter and a new "Dino Myths Busted" feature.

Simultaneous.  
*In Darkest Night* National Geographic Books

It's the 10th anniversary of the world's best-selling almanac for kids! This year the Almanac

features all-new content, interviews with explorers in each chapter, a special look at what was going on in the world when the first National Geographic Kids Almanac came out 10 years ago, plus the results of the 2019 Almanac Challenge and a new Challenge for kids who want to get involved with helping our planet. Kids can have fun keeping up with our quickly changing

world with the New York Times best-selling almanac, packed with incredible photos, tons of fun facts, crafts, activities, and fascinating features about animals, science, nature, technology, conservation, and more. There's a whole chapter full of fun and games, including activities, jokes, and comics. Practical reference material, including fast facts and

maps of every country, has been fully updated. Homework help on key topics is sprinkled throughout the book. **National Geographic Kids Almanac 2017** Running Press Kids Armed forces across the globe engage in economic activities both in times of war and peace. This book provides a critical analysis of this phenomenon, comparing experiences with 'military

business' from four continents (Asia, Africa, Europe and Latin America). Taking an interdisciplinary approach, the volume shows the implications of 'military business' for civil-military relations, good governance and international development policies. **Animal Smackdown** National Geographic Books The latest instalment of the best-selling

Happy New  
Almanac Year!  
It's time to  
celebrate the  
230th edition  
of The Old  
Farmer's  
Almanac!

Long recognized as North America's most-beloved and best-selling annual, this handy yellow book fulfills every need and expectation as a calendar of the heavens, a time capsule of the year, an essential reference that reads like a magazine.

Always timely, topical, and distinctively "useful, with a pleasant degree of humor," the Almanac is consulted daily throughout the year by

users from all walks of life. The 2022 edition contains the fun facts, predictions, and feature items that have made it a cultural icon: traditionally 80 percent-accurate weather forecasts; notable astronomical events and time-honored astrological dates; horticultural, culinary, fashion, and other trends; historical hallmarks; best fishing days; time- and money-saving garden

advice; recipes for delicious dishes; facts on folklore, farmers, home remedies, and husbandry; amusements and contests; plus too much more to mention—all in the inimitable Almanac style that has charmed and educated readers since 1792. [National Geographic Kids Infopedia 2020, UK Edition](#) National Geographic Children's Books A worldwide bestseller that

makes a great present for children who are fascinated by culture, nature, technology, animals and much more, 2018's Infopedia from National Geographic Kids will tell children 'everything they always wanted to know about everything'. Great for dipping in and out of, the book will take children on a tour of history's most famous sites, and looks at the work of the National Geographic

Explorers and their initiatives. It even has hilarious jokes and activities to try out. There are also weird-but-true facts, crafts and activities. [125 Cool Inventions](#) National Geographic Books While the Justice League is fighting a solar-powered supercomputer, the Green Lantern blacks out and awakes on another planet, remembering nothing of his identity on Earth. *Artie Conan*

*Doyle and the Gravediggers' Club* National Geographic Kids The latest installment of the New York Times best-selling almanac features brand-new amazing animal stories, explorer profiles, and outrageous attractions that kids know and love, plus more of the incredible inventions, awesome games, and fresh challenges for curious kids who want to learn all about the world and

everything that's in it! Kids can have fun keeping up with our rapidly changing planet with the world's best-selling almanac for kids, packed with incredible photos, tons of fun facts, crafts, activities, and fascinating features about animals, science, nature, technology, conservation, and more. National Geographic Books  
 This peer-reviewed academic yearbook stems from the inaugural meeting of the newly formed UNESCO UNITWIN network on

Arts Education Research for Cultural Diversity and Sustainable Development, held at the National Institute of Education, Singapore in April 2017. It presents international scholarly perspectives on issues related to arts education and cultural diversity in terms of: i) national and international policies; ii) terms, concepts and vocabularies; iii) current and ongoing research; and iv) best

practices. The UNESCO UNITWIN is an arts education research think tank that gathers and leverages original research and critical commentaries on the arts and sustainable development from UNITWIN member states and beyond (Australia, Canada, Colombia, Germany, Hong Kong, Kenya, Korea, Israel, New Zealand, Singapore, Taiwan, the Netherlands and the United

States of America).

A charming children's first encyclopedia bursting with

facts about the world, animals, people, planets, and, very importantly, you! Finally, the world is at your little learner's fingertips for all in storybook format with exciting graphic novel elements. Introduce children aged 4 - 7 to the foundations of what makes the world turn during story time with this range of encyclopedias. The world is so much bigger than young minds

can fathom and there is always more to learn. My Encyclopedia Of Very Important Things is a mind-boggling collection of everything interesting to get you on your way to knowing it all. Full of fun facts for kids, colorful illustrations, and games that will feed your imagination. This kids encyclopedia is filled with age appropriate knowledge on a range of topics that is complementar

y to your school's Curriculum. Explore our world and its place in the galaxy - from animals and people, to planets and very importantly about yourself! Go on a journey to discover a world of information. Learn about just how many animals are there and how they live and communicate. Find out about our history - cavemen, the first explorers, ancient Egyptians and even dinosaurs.

There's so much crammed into one place and it's all put into colorful and engaging ways suitable for young inquisitive minds. Tell The Story Of The World One Page At A Time! My Encyclopedia of Very Important Things is the perfect blending of adorable, simple illustrations with rich photography and lively text. Made for you and young minds to read together or

alone and formatted with a ribbon bookmark to pick up right wherever you left off. This truly is the ideal first reference book for young readers. This educational book takes you on a journey through: - Very Important Things About People - Very Important Things About Me - Very important Things About My Planet - Very Important Things About Places - Very

Important Things About Animals My Encyclopedia Of Very Important Things is part of the educational series My Very Encyclopedias . Complete the collection and learn more about the world around you, the animals that walk, fly and swim and the dinosaurs who ruled the earth before them. Shortlisted The School Library Association Information Book Award 2017 Best Children's

Book in the Junior Design Awards 2017 *National Geographic Kids Infopedia* 2021 National Geographic Almanacs Provides the latest information on a wide range of topics, including animals, culture, geography, the environment, history, and science.

**National Geographic Kids Almanac** 2022 National Geographic Books Early anthropological evidence for

plant use as medicine is 60,000 years old as reported from the Neanderthal grave in Iraq. The importance of plants as medicine is further supported by archeological evidence from Asia and the Middle East. Today, around 1.4 billion people in South Asia alone have no access to modern health care, and rely instead on traditional medicine to alleviate various symptoms. On

a global basis, approximately 50 to 80 thousand plant species are used either natively or as pharmaceutical derivatives for life-threatening conditions that include diabetes, hypertension and cancers. As the demand for plant-based medicine rises, there is an unmet need to investigate the quality, safety and efficacy of these herbals by the “scientific methods”.

Current research on drug discovery from medicinal plants involves a multifaceted approach combining botanical, phytochemical, analytical, and molecular techniques. For instance, high throughput robotic screens have been developed by industry; it is now possible to carry out 50,000 tests per day in the search for compounds, which act on a key enzyme or a subset of

receptors. This and other bioassays thus offer hope that one may eventually identify compounds for treating a variety of diseases or conditions. However, drug development from natural products is not without its problems. Frequent challenges encountered include the procurement of raw materials, the selection and implementation of appropriate high-throughput bioassays, and

the scaling-up of preparative procedures. Research scientists should therefore arm themselves with the right tools and knowledge in order to harness the vast potentials of plant-based therapeutics. The main objective of Plant and Human Health is to serve as a comprehensive guide for this endeavor. Volume 1 highlights how humans from specific areas or cultures use indigenous

plants. Despite technological developments, herbal drugs still occupy a preferential place in a majority of the population in the third world and have slowly taken roots as alternative medicine in the West. The integration of modern science with traditional uses of herbal drugs is important for our understanding of this ethnobotanical relationship. Volume 2 deals with the phytochemical

and molecular characterization of herbal medicine. Specifically, it focusses on the secondary metabolic compounds, which afford protection against diseases. Lastly, Volume 3 discusses the physiological mechanisms by which the active ingredients of medicinal plants serve to improve human health. Together this three-volume collection intends to bridge the gap for herbalists, traditional and

modern medical practitioners, and students and researchers in botany and horticulture. My Encyclopedia of Very Important Things National Geographic Books The second book in this fabulously funny series by bestselling author Steven Butler and the wonderful Steven Lenton! Having just saved the hotel from a goblin prince, Frankie Banister and

<p>the guests are looking forward to enjoying themselves and celebrating the summer holiday of Trogmanay! But when a snow storm blows in (complete with Yeti family), and a number of mysterious guests arrive, something sinister seems to be taking over the hotel and celebrating is the last thing on anyone's mind... PRAISE</p>	<p>FOR THE NOTHING TO SEE HERE HOTEL: 'This book is so good you won't blunking believe it!' Tom Fletcher 'Hilariously funny and inventive, and I love the extraordinary creatures and the one thirty-sixth troll protagonist...' Cressida Cowell 'A rip-roaring, swashbuckling , amazerous magical adventure. Comedy Gold.' Francesca Simon 'This</p>	<p>hotel gets five stars from me' Liz Pichon 'A splundishly swashbungling tale of trolls, goblins and other bonejangling creatures. Put on your wellies and plunge into the strangest hotel you will ever encounter. This is a hotel I hope I never find! Wonderfully, disgustingly funny.' Jeremy Strong 'What a fun hotel! Book me in immediatly!' Kaye Umansky</p>
