*Nature vs. Nurture:
Genes or Environment?*
Gender Nature And
Nurture This begs the
question, is gender
identity nature and
innate or is it, as Dr.
Money would have led
us to believe, entirely
based on cultural and
nurturing factors?
Research at the Johns
Hopkins Children
Center has shown that
gender identity is
almost entirely based
on nature and is almost
exclusively
predetermined before
the birth of the
baby. Gender Identity:

Nature vs. Nurture? |
The Evolution of ... His
review defines gender,
summarizes research
on gender differences,
examines the nature of
masculinity and
femininity, describes
theories of gender, and
presents a "cascade
model," which argues
that nature and
nurture weave
together to form the
complex tapestry
known as gender.
