Sap Maintenance Work Order User

Sap Maintenance Work Order UserWhat is User Status in an Order and What is it Use For ... What is User Status in an Order and What is it Use For. There are two statuses available for Orders in SAP. One is system

controlled called as 'System status'. ... SAP Plant Maintenance Books SAP PM Books - Certification, Interview Questions and Configuration.What is User Status in an Order and What is it Use ForIn SAP, there

are 5 types of maintenance processes:
 Corrective maintenance: triggered by the detection of a defect. Preventive maintenance: work planned in advance. Breakdown maintenance: work that has to be executed in emergency. Calibration maintenance: ensures that precision instruments keep accurate measurements
 SAP Maintenance Order Management One is preventive maintenance, which is known as planned maintenance in many SAP documents. SAP also sometimes refers to preventive maintenance work orders as scheduled orders. The other work order processing path, which is often referred to as breakdown maintenance, includes all non-preventive work orders.
 The Work Order Process in SAP PM Tutorial 07 January 2020 ...The work order is the document that gives the "go-ahead" for maintenance work to proceed. It contains the plan of where, when, how, and by whom the work will be done.
 NOTIFICATION TYPE The notification type determines the kind of maintenance and the department scheduled to do the work. Notifications can be corrective (11) or special order (41).
