If you have the appropriate software installed, you can download article citation data to the citation manager of your choice.Book Review: Contemporary Language Motivation Theory: 60 ...According to Brown (2000) and Gardner (1985), there are two basic types of motivation: integrative and instrumental. According to Gardner and Lambert (1959 as cited in Pourhosein Gilakjani, Leong, & Saburi, 2012), integrative motivation refers to language learning for personal growth and cultural enrichment; that is, the learner likes to learn aThe Impact of Motivation on

English Language Learning This book brings together contributions from the leaders of the language learning motivation field. The varied chapters demonstrate how Gardner's work remains integral to a diverse range of contemporary theoretical issues underlying the psychology of language, even today, 60 years after the publication of Gardner and Lambert's seminal 1959 paper. Contemporary Language Motivation Theory (1959) Gardner, Robert C.; Lambert, Wallace E. Canadian Journal of Psychology, v13 n4 p266-272 Dec 1959 Montreal high school students studying French as a second language completed a battery of tests including measures of linguistic aptitude, verbal intelligence, and various attitudinal and motivational characteristics. ERIC - ED031968 - Motivational Variables in Second ... The Social Psychological Period (1959-1990) This period has been associated with the work of Robert Gardner in a bilingual context in Canada. According to Gardner (2010), motivation is a complex construct that does not

have a simple definition, however, he states that a motivated individual is someone who sets a goal and perseveres to achieve it. Motivation in Second Language Learning: A Historical ... Book Review: Contemporary Language Motivation Theory: 60 Years Since Gardner and Lambert (1959) Abigail Parrish Journal of Language and Social Psychology Book Review: Contemporary Language Motivation Theory: 60 ... Gardner and Lambert made several important claims: that motivation can be integrative, "where the aim in language study is to learn more about the language group, or to meet more and different people"; or instrumental, "where the reasons reflect the more utilitarian value of linguistic achievement" (Gardner and Lambert, 1959, p. 267). They George Mason Socio-Educational Model Attitude/Motivation Test Battery (AMTB) Proposed by Gardner and Smythe (1975) Extension of theoretical interpretations provided by Lambert (1963, 1967, 1974) and Carroll (1962) Based on three elements: effort spent, motivation to achieve, enjoying the Gardner & Lambert's theories of Language

Learning ... Such social-educational model of language learning, developed by Gardner and Lambert (1959, 1972), postulated two major motivation orientations for language learning: integrative and instrumental. Integrative motivation is identified with positive attitudes toward the target language group and potential for integrating into that group, or at least an interest in meeting and interacting with ... Attitude, motivation, and difficulties involved in ... Anyone seeking an up-to-date assessment of sixty years of motivation research since Gardner and Lambert's (1959) ground-breaking proposal for a social-educational model will find in this volume a treasure trove of theoretical, empirical, and methodological insights, made all the richer by critical, dialogic engagement alongside personal reminiscences by top researchers in the field.
