Viewing fluency as a bridge between foundational skills and open-ended learning, this book guides teachers through effective instruction and assessment of fluent reading skills in the primary grades. Fluency's relationship to phonological awareness, phonics, and print concepts is explained, and practical methods are shared for integrating fluency instruction in a literacy curriculum grounded in the Common Core State Standards (CCSS). Classroom examples, weekly lesson plans, and extensive lists of recommended texts add to the book's utility for teachers.

*Literacy Changemakers* New Leaf Publishing Group

The 3rd Edition of Literacy & Learning in the Content Areas helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.
