Bulletin of Courses One World

Digital Citizenship in Schools, Second Edition is an essential introduction to digital citizenship. Starting with a basic definition of the concept and an explanation of its relevance and importance, author Mike Ribble goes on to explore the nine elements of digital citizenship. He provides a useful audit and professional development activities to help educators determine how to go about integrating digital citizenship concepts into the classroom. Activity ideas and lesson plans round out this timely book.

A Mighty Long Way Oxford University Press

One of the most compelling issues in public education involves what it means for schools to be public. Are they public in funding or public in oversight and control? Are they public in the values they convey or in the standards they set? Are they public in deciding curriculum or only in access to space? David Matthews

probes these issues in 19th century Alabama in ways that no one else has attempted. And he provides lessons from the past that can inform the present and future.

Hearings International Society for Technology in Education
 "A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation."—Professor Charles Ogletree, Harvard Law School "Provides important context for an important moment in America's history."—Associated Press When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the "Little Rock Nine," as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine

into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.

By the end of the Twentieth century, formal schooling - once the privilege of male elites - had become accessible to women, the working class and some ethnic minorities. The essays in this volume explore the historical origins of this transformation, analyzing struggles Australia, Canada, China, Columbia, India, the United States, and South Africa.

Spanish across Domains in the United States NewSouth Books
This volume, covering a range of topics such as Spanish as a heritage language in the United States, policy issues, pragmatics and language contact, sociolinguistic variation and contact, and Bozal (Creole) Spanish, will serve the interests of linguists, educators, and policy makers alike. It provides cutting edge research on varieties of Spanish spoken by children, teenagers, and adults in places as diverse as Chicago, New York, New Mexico, and Houston; Valencia and Galicia; the Andean highlands; and the border between Haiti and the Dominican Republic. The emphasis is on spoken Spanish, although researchers also investigate code-switching in the lyrics of bachata songs and the presence of creole in Cuban and Brazilian literature. This collection will be of interest wherever Spanish is spoken.

Digital Citizenship in Schools, Second Edition Harper Collins
Connect your students to science projects that are intriguing and fun! Let Randi Stone and her award-winning teachers demonstrate tried-and-tested best practices for teaching science in diverse elementary, middle, and high school classrooms. Linked to companion volumes for teaching writing and mathematics, this resource for new and veteran educators helps build student confidence and success through innovative approaches for raising student achievement in science, such as: Expeditionary learning, technology and music, and independent research study. Model lessons in environmental studies and real-world science. Inquiry-based strategies using robotics, rockets, straw-bale greenhouses, "Project Dracula," "Making Microbes Fun," and more! With engaging activities weaving through science fact and fiction to lead learners on intriguing journeys of discovery, this guide is sure to fascinate and inspire both you and your students!
Teaching Spanish in School and College to Native Speakers of Spanish Hoover Institution Press

This New York Times bestselling novel from acclaimed author Walter Dean Myers tells the story of Steve Harmon, a teenage boy in juvenile detention and on trial. Presented as a screenplay of Steve's own imagination, and peppered with journal entries,

the book shows how one single decision can change our whole lives. *Monster* is a multi-award-winning, provocative coming-of-age story that was the first-ever Michael L. Printz Award recipient, an ALA Best Book, a Coretta Scott King Honor selection, and a National Book Award finalist. *Monster* is now a major motion picture called *All Rise* and starring Jennifer Hudson, Kelvin Harrison, Jr., Nas, and A\$AP Rocky. The late Walter Dean Myers was a National Ambassador for Young People's Literature, who was known for his commitment to realistically depicting kids from his hometown of Harlem.

Why Public Schools? Whose Public Schools? Springer

The American Dream and the Public Schools examines issues that have excited and divided Americans for years, including desegregation, school funding, testing, vouchers, bilingual education, and ability grouping. While these are all separate problems, much of the contention over them comes down to the same thing--an apparent conflict between policies designed to promote each student's ability to succeed and those designed to insure the good of all students or the nation as a whole. The authors show how policies to promote individual success too often benefit only those already privileged by race or class, and often conflict with policies that are intended to benefit everyone. They propose a framework that builds on our nation's rapidly changing population in order to help Americans get past acrimonious debates about schooling. Their goal is to make public education work better so that all children can succeed.

Extension of the Voting Rights Act of 1965 BRILL

This edited volume focuses on Spanish use in education, public spaces, and social media in five macro-regions of the United States: the Southwest, the West, the Midwest, the Northeast, and the Southeast.

The Cultures of the Americas John Benjamins Publishing
Represents the content of science education and includes the essential skills and knowledge students will need to be scientifically literate citizens. Includes grade-level specific content for kindergarten through eighth grade, with sixth grade focus on earth science, seventh grade focus on life science, eighth grade focus on physical science. Standards for grades nine through twelve are divided into four content strands: physics, chemistry, biology/life sciences, and earth sciences.
