Form of Building Contract,
one of the most common
standard contracts used
in the UK to procure
building work, is updated
regularly to take account
of changes in legislation

relevant court decisions

Standard Building
Contract: Law and

edition to the authors'
earlier award-winning The
JCT98 Building Contract:

and clarifies complex
issues surrounding
obligations and rights
under the contract. This
makes it an essential
reference for construction
professionals, employers,
contractors, and lawyers
new to construction
seeking to update and
consolidate their
knowledge. The book also
provides the knowledge
and understanding of the
contract, which are a
fundamental part of the
education of most
students who go on to
become managers and
leaders in the

construction industry. It
thoroughly works through
the provisions of the
contract in simple
language, using case law
examples and relevant

First published in 2002.
The German Dictionary of
Business, Commerce and
Finance is the second
dictionary to be published
in Routledge's

programme of bilingual business dictionaries. The series was launched in December 1995 with the French Dictionary of Business, Commerce and Finance. It would not have been possible to compile this dictionary within a relatively short timescale, and to the standard achieved, without the use of a highly sophisticated, custom-designed database. The database's most significant feature is that it is designed as a relational database: term records for each language are held in separate files,

with further files consisting only of link records. Links between terms in different language files represent translations, enabling us to handle various types of one-to-many and many-to-one equivalences. Links between terms within a single language file represent crossreferences between geographical variants and abbreviations. The content of the database for this dictionary was created in three principal phases. A considerable proportion of the English

term list was already available following the publication of the French Dictionary of Business, Commerce and Finance. The term list was then sent out to specialist translators - with current practical experience of business translation - who supplied German equivalences and expanded the English and German term lists to include the main relevant terminology in their particular spheres of work.
