key problem faced by  
managers is how to  
allocate scarce  
resources among  
activities or projects.  
Linear programming,  
or LP, is a method of  
allocating resources in  
an optimal way. It is  
one of the most widely

British/Europeans refer  
to "operational  
research", the  
Americans to  
"operations research" -  
but both are often  
shortened to just "OR"  
(which is the term we

will use). Another term  
which is used for this  
field is "management  
science" ("MS"). The  
Americans sometimes  
combine the terms OR  
and MS together and  
say "OR/MS" or  
"ORMS".OPERATIONS
