Addison-Wesley Longman A-State Department of Sustainability: Software Applications in Business Project A-State Department of Sustainability is a fictional organization in which the student works as the Executive Assistant. The project consists of 28

workdays (June 1 - July 8) during which students complete the following tasks: Create and update spreadsheets, databases, charts, graphs, an organizational chart and Gantt Chart; write business letters, memos, emails, a slogan, and press release; design a letterhead, brochure, advertisement, flyer, t-shirt, web site and blog; organize a global conference and conduct problem solving. Instructors may assign tutorials for software as needed. Tutorials are not included in the text. All assignments refer to "spreadsheet, database, word processing, ect." so the instructors/students can use their preferred software brands. Examples of how to format letters, memos, emails, and spreadsheets are included. In the optional research and presentation component students research and present topics related to global and domestic sustainability. This textbook has been

designed for lower-level and upper-level courses and can be easily adapted for in-class or online use. From the author: I created this textbook while teaching Software Applications in Business because I could not find a suitable text. I have conducted many iterations of refinement during classroom use. Many years of industry experience together with a 15-year State University of New York tenure have enabled me to design a textbook that will meet the needs of instructors who wish to create a realistic experience which builds a skill set that students can confidently take into the workplace. Students have returned after graduation and told me this was a valuable class and they could immediately utilize the skills they developed during the class in their current jobs. Most girls' dream of being rescued by a handsome knight but for Lady Silory Bayroy that dream never really existed. She wasn't trapped in a dragon guarded tower or even imprisoned by a wicked stepmother. No, her fate seemed much crueler than that. She was trapped in her own room, unable to walk and it was her own fault. To make matters worse Silory's mother treated her like a dress up doll. Her only chance to escape her reality was by reading the books her father brought her. As time went on though, she longed to see the world the books described or learn the magic spells they contained. With no handsome knight to rescue her, Silory would have to break free on her own. In her struggle to do so, she discovers a hidden power deep within herself that sets off a chain of chaotic events

 Q: How does a shanghaied computer geek conquer all the forces of Darkness and win the love of the most beautiful witch in the world? A: By transforming himself from a demon programmer into a programmer of demons! It

all began when the wizards of the White League were under attack by their opponents of the Black League and one of their most powerful members cast a spell to bring forth a mighty wizard to aid their cause. What the spell delivered was master hacker Walter "Wiz" Zumwalt. The wizard who cast the spell was dead and nobody^{3/4} not the elves, not the dwarves, not even the dragons^{3/4} could figure out what the shanghaied computer nerd was good for. But spells are a lot like computer programs, and, in spite of the Wiz's unprepossessing appearance, he was going to defeat the all-powerful Black League, win the love of a beautiful red-haired witch, and prove that when it comes to spells and sorcery, nobody but nobody can beat a Silicon Valley computer geek! At the publisher's request, this title is sold without DRM (Digital Rights Management).

ABOUT BOOK FIVE: Daniel Light and the EXILE OF ARADON What if the person you came to care for most was the only one who stood between you and what you wanted most? The conquest for the eradication of the Dark has been taken up by the second generation. Daniel's children, and the children of his associates are now embroiled in the

great quest to rid the Realms of the Darkness. Daniel's eighteen-year-old daughter, Caelith, is on a quest: to distance herself from the ways of her father. On this quest she meets an outcast, a slightly younger man near her own age, who is magically prevented from going home. Together they form a union and Caelith is slowly turned back to the life, and politics and cause of her father, Daniel Gregoryson: The Prophecy. And also to securing the return of her companion, Evermon, to his homeland. But not before she is called upon to endure the trials that the Dark has in store for her friend and herself. A Kingdom in peril would fall to the youngest of three brothers, as the older Princes are off on quests of their own. The new Queen, the King's second wife, has other plans; promoting the rise of her own, foreign-born son to the Kingship. Unknown to the Queen, the Queen she replaced is being sought for secretly; as is the true identity of the new Queen. There is something not quite right about her. The Princess of Mirador, Daniel's daughter, self-exiled, seeks freedom from her impending royal responsibilities - for she is

to be Queen there. Will it be exile for one Prince of Aradon, or will all three face replacement and banishment by an insanely jealous Queen? ABOUT THE SERIES: THE CHILDREN OF THE ORB A long time ago on a planet far away there lived The Race of Enchanters, beings of Light. As is ever the situation when Light is present, so, also, is Darkness. These Sorcerors, close kin to the Enchanters, seek to influence and destroy all that had been protected and created by the Light. Other magical beings and creatures inhabit these realms and are torn and divided by this constant battle between Light and Dark; events and prophecies are ignored by the Light, The Dark, and the neutral; allegiances change and shift; power over all being the end result, for some. Then comes word of The Prophecy of Light: a being to come in the median of time to lead the Forces of Light to victory. Thus the stage is set in Colabos for Daniel Light and the Children of the Orb. STORY NOTES: The stories of Two Black Birds and The Waters Of Life (Brothers Grimm) loosely provide a basic framework on which to hang this re-

imagined tale about The Children Of The Orb, which also alludes to the origin of the stories we know and love on Planet Earth as having possibly come from beyond our own Earthly experience.
