All the cost data you need to keep your estimating accurate, competitive and profitable. Do you work on jobs between £50 and £50,000? Then this book is for you. Specially written for contractors and small businesses carrying out small works, Spon's Estimating Cost Guide to Electrical Works provides accurate information on thousands of rates, each broken down to labour, material overheads and profit for residential, retail and light industrial premises. It is the first book to include typical project costs for new installations, stripping out, rewiring and upgrading for flats and houses. In addition, vital information and advice is given on setting up and running a business, employing staff, tax, VAT and CIS4s. For the cost of approximately two hours of your charge-out rate (or less), this book will help you to: produce estimates faster keep your

estimates accurate and competitive run your business more effectively save time. Spon's Architect's and Builders' Price Book 2016 CRC Press

Complete your pathway to a career in plumbing with Plumbing Book 2, published in association with City & Guilds. -Study with confidence, covering all core units for the new specification -Enhance your understanding of plumbing practice with clear and accurate step-by-step photo sequences, demonstrating technical skills you need to master -Practise Maths and English in context, with embedded Improve your maths and English activities -Test your knowledge with end of unit practice questions and activities -Get to know the format and requirements for synoptic assessments, with practice mini-assignments -Prepare for the workplace with up-to-date information on relevant key regulations and industry standards Spon's Mechanical and Electrical Services Price Book 2021 CRC Press

Construction prices rose over the last year by 5%, according to AECOM's tender price index, with construction price inflation continuing to run above the long-run average. The main drivers are rising input

costs. Producer price indices have moved up at a clip in recent quarters, with sharp increases in prices for materials and fuels consumed by UK manufacturers. Demand- and supply-side factors make the probability of short-term price falls very slim. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2018, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with a VitalSource® ebook of this 2018 edition. This versatile and powerful online data viewing package is available for use until the end of December 2018. Major changes have been made to this 143rd edition: New Cost Models for a retail distribution unit, a palliative care unit, and a cinema As well as an overhaul of prices, several new items have been added, including: An

expanded range of beam & block flooring
 Rainwater harvesting – with a precast concrete tank
 A precast concrete flow attenuation system
 Precast concrete communication boxes ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updates, free of charge, two or three times a year – see inside for registration details. Updates are available online at www.pricebooks.co.uk
Spon's External Works and Landscape Price Routledge
 "An essential reference for everybody concerned with the calculation of costs of mechanical and electrical works." – Cost Engineer
 Market conditions remain unfavourable and construction output and orders obtained by contractors continue to decline. The costs of some items have

increased, but profits and overheads have fallen and are expected to fall further in the coming year. But price changes have varied across the industry. Spon's Mechanical and Electrical Services Price Book 2010 continues to be the most comprehensive and best annual services engineering price book currently available, providing detailed pricing information across the full range of mechanical and electrical services, together with higher level costs for a diverse range of systems and different building applications. This year's book provides an overhaul of the unit rates and composite rates. It contains a new section on the Façade System in engineering features which explains the relationship between the building envelope and the provision of cooling And the new series of topical features continues, focusing on subjects which affect M&E costs within buildings; and design schematics are provided for several M&E services. All the standard features you have come to expect from Spon's M & E are also included, considered essential for today's services cost professional:
 Detailed materials prices, labour constants, labour costs and measured

work prices for mechanical and electrical works, from above ground drainage to automatic transfer switches, and circuit breakers to sprinkler systems. An extensive Approximate Estimating section for quick, rule-of-thumb pricing of mechanical or electrical installations, together with elemental services costs for different types and standard of buildings. Full details of wage rates, daywork and cost indices on a national and Central London basis. An overhauled index and guidance notes. Updated, free of charge, every four months – see enclosed card to register. Updates are available online at www.pricebooks.co.uk Buyers of this 2010 edition can make a free internet download of Spon's Mechanical & Electrical Services price data data, which will run to the end of 2010 and: produce estimate and tender documents generate priced or unpriced schedules adjust rates and data and enter rogue items export schedules into Excel carry out an index search This year, for the first time, the download includes a versatile and powerful ebook.
Spon's Civil Engineering and Highway Works Price Book 2021 CRC Press
 Spon's Asia Pacific Construction Costs

Handbook includes construction cost data for 19 countries. This edition has been extended to include Canada and India. The UK is also included, to facilitate comparison with construction costs in Europe. The book includes: * key data on the main economic and construction indicators. * an outline of the national construction industry, covering structure, tendering and materials cost data * labour and materials cost data * Measured rates for a range of standard construction work items * costs per unit area for a range of building types * price index data and exchange rate movements against £ sterling, \$US and Japanese Yen The book also includes a Comparative Data section to facilitate country-to-country comparisons. Figures from the national sections are grouped in tables according to national indicators, construction output, input costs and costs per square metre for factories, offices, warehouses, hospitals, schools, theatres, sports halls, hotels and housing.

Spon's Architects' and Builders' Price Book 2022 John Wiley & Sons

This unique handbook collects together a comprehensive and up-to-date range of

indices measuring construction costs and price movements. The authors give guidance on the use of the data making this an essential aid to accurate estimating.

Urban Drainage has been thoroughly revised and updated to reflect changes in the practice and priorities of urban drainage. New and expanded coverage includes: Sewer flooding The impact of climate change Flooding models The move towards sustainability Providing a descriptive overview of the issues involved as well as the engineering principles and analysis, it draws on real-world examples as well as models to support and demonstrate the key issues facing engineers dealing with drainage issues. It also deals with both the design of new drainage systems and the analysis and upgrading of existing infrastructure. This is a unique and essential textbook for students of water, environmental, and public health engineering as well as a valuable resource for practising engineers.

The City & Guilds Textbook: Plumbing Book 2 for the Level 3 Apprenticeship

(9189), Level 3 Advanced Technical Diploma (8202) and Level 3 Diploma (6035) CRC Press

Have you ever had to provide accurate costs for a new supermarket or a pub "just an idea...a ballpark figure..." ? The earlier a pricing decision has to be made, the more difficult it is to estimate the cost and the more likely the design and the specs are to change. And yet a rough-and-ready estimate is more likely to get set in stone. Spon's First Stage Estimating Handbook is the only comprehensive and reliable source of first stage estimating costs. Covering the whole spectrum of building costs and a wide range of related M&E work and landscaping work, vital cost data is presented as: costs per square metre elemental cost analyses principal rates composite rates. Compact and clear, Spon's First Stage Estimating Handbook is ideal for those key early meetings with clients. And with additional sections on whole life costing and general information, this is an essential reference for all construction professionals and clients making early judgements on the viability of new projects.

Spon's Asia Pacific Construction Costs

Handbook CRC Press

Spon's European Construction Costs Handbook is the only book of its kind - a unique compilation of cost data on the single most important construction market in the world. This updated edition expands its coverage of countries and once again gives details of select difficult-to-research markets in Eastern Europe as well as Western Europe, North and South. The book includes: * key data on the main economic and construction indicators as well as on geography and population * an outline of the national construction industry covering structure, tendering and contract procedures, liability and insurance and regulation and standards. * labour and materials cost data * measured rates (in local currency) for up to 60 or so construction work items * approximate estimating costs for a range of building types * regional variation percentages, tax details, construction cost and retail price indices. Exchange rates with £ sterling, euro and US\$ * addresses of authorities, professional institutions, trade associations etc. To facilitate country to country comparisons the book also includes a Comparative Data section,

where figures from the individual country chapters are grouped in tables on economy, geography, construction output, input costs per square metre for offices, warehouses and housing. Figures here are given in national currency, sterling, US dollars and Euros.

Spon's Construction Cost and Price Indices Handbook CRC Press

SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2021 from AECOM gives costs for both general and civil engineering works and highway works. It provides a full breakdown of labour, plant and material elements, with labour rates updated. cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing, and in conformity with CESMM4 and the Highways Method of Measurement. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource(R) Bookshelf platform, available for access and use until the end of December 2021. In a time when it is essential to gain 'competitive advantage' in a sometimes turbulent market, this price book provides instant-access cost

information and forms a one-stop reference. ... along with the standard features you have come to expect from SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK: -for budgeting: estimating principles, on-cost advice, method-related charges -for resource costings: labour costs, plant costs, material prices -for rapid cost information: approximate estimates, dayworks, cost indices -for plant and labour allowances: production rates, outputs, man hour constants -for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs -for incidental advice: tables and formulae, technical information, professional advice - updates, free of charge, twice a year - see inside for registration details. Updates are available online at www.pricebooks.co.uk
Spon's Railways Construction Price Book CRC Press

Spon's Asia Pacific Construction Costs Handbook includes construction cost data for twenty countries. This new edition has been extended to include Pakistan and Cambodia. Australia, UK and America are also included, to facilitate comparison with

construction costs elsewhere. Information is presented for each country in the same way, as follows: key data on the main economic and construction indicators. an outline of the national construction industry, covering structure, tendering and contract procedures, materials cost data, regulations and standards labour and materials cost data measured rates for a range of standard construction work items approximate estimating costs per unit area for a range of building types price index data and exchange rate movements against £ sterling, \$US and Japanese Yen. The book also includes a Comparative Data section to facilitate country-to-country comparisons. Figures from the national sections are grouped in tables according to national indicators, construction output, input costs and costs per square metre for factories, offices, warehouses, hospitals, schools, theatres, sports halls, hotels and housing. This unique handbook will be an essential reference for all construction professionals involved in work outside their own country and for all developers or multinational companies assessing comparative development costs.

Spon's Asia-Pacific Construction Costs Handbook, Fourth Edition CRC Press
 SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2019, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value.
