**Studyguide for Assessment Procedures for Counselors and Helping Professionals by Drummond, Robert J.** John Wiley & Sons  
 Tests and Assessments in Counseling provides students with current information on assessment tools and techniques through detailed case scenarios and vignettes. Going beyond basic information about a multitude of assessments, the authors focus on the use of instruments in individual cases to allow readers to more fully grasp the integral relationship between tests and assessment data and the counseling process. Chapters guide students through choosing the most effective assessment tool, successfully administering the assessment, and making meaningful and useful results of the data with the client. Test questions are also included at the end of each chapter.

*A Process Guide to Helping* John Wiley & Sons

The latest edition of this perennial bestseller instructs and updates students and clinicians on the basic principles of psychological assessment and measurement, recent changes in assessment procedures, and the most widely used tests in counseling practice today. Dr. Danica Hays guides counselors in the appropriate selection, interpretation, and communication of assessment results. This edition covers more than 100 assessment instruments used to evaluate substance abuse and other mental health disorders, intelligence, academic aptitude and achievement, career and life

planning, personal interests and values, assessment of personality, and interpersonal relationships. In addition, a new chapter on future trends in assessment discusses the changing cultural landscape, globalization, and technology. Perfect for introductory classes, this text provides students and instructors with practical tools such as bolded key terminology; chapter pretests, summaries, and review questions; self-development and reflection activities; class and field activities; diverse client case examples; practitioner perspectives illustrating assessment in action; and resources for further reading. PowerPoint slides, a test bank, a sample syllabus, and chapter outlines to facilitate teaching are available to instructors by request to ACA. \*Requests for digital versions from the ACA can be found on wiley.com. \*To request print copies, please visit the ACA website here. \*Reproduction requests for material from books published by ACA should be directed to [permissions@counseling.org](mailto:permissions@counseling.org)

The Assessment and Treatment of Dangerousness Routledge

This comprehensive introduction to assessment, created specifically for counseling students, presents mathematical and statistical concepts in a simple and useful manner. The book stresses the importance of counselors being good consumers of assessment tools, helping them avoid misusing tools in manners that can be harmful to clients. Updated throughout, PRINCIPLES AND APPLICATIONS OF ASSESSMENT IN COUNSELING, 5th Edition includes material on the DSM-5 and corresponds to the 2014 Standards for Educational and Psychological Testing as well as to the 2016 CACREP Standards. Assessment in Educational Therapy offers essential grounding, skills, and ethical approaches for understanding and conducting assessments in the context of educational therapy. Six clear, straightforward chapters guide graduate students and trainees of the field to use scores, observation, and hypothesis testing to create strengths-based assessments and intervention strategies that can be delivered orally or in written reports. The book is the first to describe and critique all the standardized assessment instruments that qualified educational therapists can use to measure skills in reading, written expression, mathematics, and processing. Real-world case studies, practical takeaways of key concepts, resources for self-study, reflective questions, and other readers' tools enliven this comprehensive yet accessible reference.

*Harm to Others* offers students and clinicians an effective way to increase their knowledge of and training in violence risk and threat assessment, and it also provides a comprehensive examination of current treatment approaches. Although the text includes many examples from K-12 and college/university settings, which are particularly relevant for mental health professionals in school settings, the underlying concepts and suggestions are useful for counselors, psychologists, and social workers who face these issues in their daily practice. In an easy-to-understand, jargon-free manner, Dr. Van Brunt shares his observations, extensive clinical expertise, and the latest research on what clinicians should be aware of when performing risk and threat assessments. In addition, he offers numerous examples from recent mass shootings and rampage violence to help explain the motivations and risk factors of those who make threats. Two detailed case examples are presented to illustrate key concepts related to assessing dangerousness. Treatment options are then described, using a variety of diverse case studies to demonstrate concrete approaches for clients who have been identified as at risk for violence following a threat assessment. \*Requests for digital versions from the ACA can be found on wiley.com. \*To request print copies, please visit the ACA website here. \*Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.

*Assessment for Counselors* Pearson

Showcases assessments that specifically support the unique work of school counselors! Written specifically for school counselors and those in training, this is the first book to highlight the use of assessment and data collection to effectively advocate for student success. It bridges the gap in relevant knowledge and skills by not only delineating the requirements for formulating a data-driven approach, but also presenting actual assessments that can immediately be implemented. Underscoring the professional and ethical responsibilities of practicing school counselors to be data-driven, the book delivers the guidance and instruments needed to access multiple levels of data. This includes individual student data, school-level data, school counseling program-level data, or data regarding the school counselors' practices or beliefs. This practical, user-friendly book is organized step-by-step, starting with foundational knowledge and progressing towards application. It introduces readers to both formal and informal assessments and provides examples of how to integrate assessments within comprehensive school counseling programs (CSCP). It addresses a variety of approaches to assessments and data collection across the domains of academic, career, and social-emotional development, and examines needs assessment and program evaluation to drive the development and implementation of a CSCP. Additionally, the resource explains each type of data, reinforced with examples across domains and school levels. Also included are technology tools that can aid in the assessment and data collection process as well as accountability reporting. Key Features: Provides specific, concrete steps for using assessment and data collection to advocate for student success and develop effective CSCPs Includes examples of data collection tools, assessments, charts, tables, and illustrations Delivers hands-on application tasks throughout Delineates valid and reliable instruments to bolster effectiveness Includes downloadable appendix with formal assessments and templates to complete tasks described throughout the text

Because testing has long been regarded as an important role for counselors, they traditionally have provided a variety of testing services, including personality, vocational, intellectual, and aptitude testing. A major purpose of this book is to show how these kinds of tests can be used to augment and facilitate the counseling process. Testing in Counseling Practice provides current information about various tests and assessment methods such as historical foundations and conceptual background, measurement properties, administration and interpretation, implementation, and future research directions. The book is divided into three sections: personality assessment, vocational assessment, and contemporary issues and innovations. Each chapter is written either by the person who developed and originated the test/assessment method or by the person who is regarded as the major interpreter of it. Case examples showing how various test/assessment methods can be used in counseling practice are also included.

This text presents current, accessible information on enhancing the counseling process using a brain-based paradigm. Leading experts provide guidelines and insights for becoming a skillful neuroscience-informed counselor, making direct connections between the material covered and clinical

practice. In this much-needed resource—the first to address neurocounseling concepts across the counseling curriculum—chapters cover each of the eight common core areas in the 2016 CACREP Standards in addition to several specialty areas of the Standards. Detailed case studies, questions for reflection, quiz questions, and a glossary facilitate classroom use. “Neurocounseling provides a foundation for work with individuals and groups across a broad spectrum of wellness and clinical mental health counseling topics. As a result, the reader is introduced to an exciting new frontier for understanding and serving clients more effectively. Having benefited from neurofeedback personally, as well as having been taught its principles by skilled counselor practitioners, I am enthusiastic for all counselors to learn its efficacy and applications.” —Thomas J. Sweeney, PhD Professor Emeritus, Counselor Education Ohio University “An essential addition to the counselor’s professional library, this text brings together a unique collection of well-written chapters to help both seasoned counselors and students develop an approach to counseling that applies neurophysiological information to case conceptualization, counseling relationships, assessment, addiction, psychopharmacology, group work, and career counseling.” —Richard Ponton, PhD Editor, Journal of Mental Health Counseling \*Requests for digital versions from ACA can be found on [www.wiley.com](http://www.wiley.com). \*To purchase print copies, please visit the ACA website \*Reproduction requests for material from books published by ACA should be directed to [permissions@counseling.org](mailto:permissions@counseling.org)
