definitions of the European Court of Justice and Central Banks, among others. Frequently-used terms in Middle-Eastern politics are explained, from Ayatollah and the Arab-Israeli wars, to fundamentalism and the Gulf War. It also includes sections on ideas that have become familiar terms over recent years, such as perestroika, glasnost, being politically correct, and Thatcherism, as well as

issues that have taken on greater political significance - for example, abortion and environmentalism. A Dictionary of Modern Politics Edward Elgar Publishing The Explanatory Dictionary of Politics (EDP) contains 2 620 key political terms and definitions. The main goal of the EDP is to facilitate a proper understanding of the political realm. The EDP provides assistance to subject

specialists and language practitioners. The disciplines involved, which are loosely referred to as the political sciences, include politics, international politics, international relations, African politics, strategic studies, as well as aspects of political development, political administration and political economy. Die Verklarende Politieke Woordeboek (VPW) is

gebaseer op die bekoonde tweetalige Nuwerwetse Politieke Woordeboek (NPW) van 2011, en bevat 2 620 politieke kernterme en -definisies. Die hoofdoel van die VPW is om behoorlike begrip van die politieke bestel moontlik te maak. Die VPW verleen hulp aan vakspesialiste en taalpraktisyns. Die dissiplines betrokke en waarna breedweg as die politieke wetenskappe verwys word,

sluit in politiek, internasionale politiek, internasionale verhoudinge, Afrikapolitiek, strategiese studies, sowel as aspekte van politieke ontwikkeling, politieke administrasie en politieke ekonomie. **Dictionary of Politics** Routledge Three components per entry (definition, "see also," and significance) offer thorough reference to some 600 terms pertinent to urban politics

and those involved. A suggested reading list is also included for most terms--the more controversial and complicated entries, not the self-evident ones.

The Routledge Dictionary of Politics Santa Barbara, Calif. : ABC-CLIO This dictionary offers the only comprehensive collection of profiles of American political scientists, each of whom contributed significantly to the

intellectual development of American political science from its beginnings in the late-19th century to the present. This second edition includes 22 new and 110 revised entries, reflecting new scholarship that emerged during the 1990s. Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important

theoretical contributions over the years, with attention to varied approaches and the different subfields. Alphabetically arranged entries focus on the main ideas and major works by each scholar, listing the most important publications by and about the individual. There are numerous cross-references to show how the work of one scholar has influenced another in the

discipline. Appendices list the political scientists by degree-granting institutions and by major fields. A short bibliography points to important general readings about the profession. A general index makes this major reference easily accessible for broad interdisciplinary research. *Blackwell Dictionary of Political Science* University of Chicago Press

The Blackwell Dictionary of Political Science is a clear introduction to the terminology of political science for students and general readers. The book comprises rigorous definitions and explanations of around 1000 key terms presented in an engaging style, cross-referenced, and easily accessible to readers new to the subject. It also includes a section of short biographies of the most eminent writers in the discipline - both classical and modern. The book is unique in combining a single author's overview and minimal assumptions about the reader's prior knowledge of the discipline. Major entries include short bibliographies for those who wish to pursue topics further. *American Political Scientists* Chicago, Ill. : Dorsey Press Hyperpolitics is an appealing book in print format that is enhanced by an interactive Web version . Calise (Univ. of Naples Federico II) and Lowi (Cornell Univ.) define a hyperdictionary as a dictionary that uses a "method for unpacking a dense concept by separating out its components ... a method of concept analysis." Hyperpolitics provides an innovative way of defining political science topics.

It is a dictionary, so readers can look up concepts that are organized in alphabetical order. Using the Web site, users can also, for instance, move from a definition to its "Sources"-- "summaries from other dictionaries and online bibliographical sources." The 67 terms are divided into main concepts, short entries, and cross-entries. The 18 main subjects include terms like "citizen,"

"law," and "pluralism." The 17 short entries cover subjects such as "choice," "majority," and "participation." Finally, the 32 cross-entries feature concepts like "class," "conflict," and "democracy," with matrices linking them to other concepts. The book is very visual, which should appeal to students. However, the matrices lend themselves very naturally to the Web, where many readers will find additional

value. The Web site includes a users' guide. Summing Up: Recommended. Lower-division undergraduates through researchers/faculty. Lower-division Undergraduates; Upper-division Undergraduates; Graduate Students; Researchers/Faculty. Reviewed by K. N. Djorup. **The American Political Dictionary** Longman Publishing Group This bestselling

dictionary contains over 1,700 entries on all aspects of politics and international relations. Written by a leading team of political scientists, it embraces the multi-disciplinary spectrum of political theory including political thinkers, history, institutions, theories, and schools of thought, as well as notable current affairs that have shaped attitudes to politics. Fully

updated for its fourth edition, the dictionary has had its coverage of international relations heavily revised and expanded, reflected in its title change, and it includes a wealth of new material in areas such as international institutions, peace building, human security, security studies, global governance, and open economy politics. It also incorporates recommended web links that

can be accessed via a regularly checked and updated companion website, ensuring that the links remain relevant. The dictionary is international in its coverage and will prove invaluable to students and academics studying politics and related disciplines, as well as politicians, journalists, and the general reader seeking clarification of political terms.

The Dorsey

Dictionary of American Government and Politics

Wildside Press LLC

Fifteen years in the making, Hyperpolitics is an interactive dictionary offering a wholly original approach for understanding and working with the most central concepts in political science.

Designed and authored by two of the discipline's most distinguished scholars, its purpose is to provide its readers with

fresh critical insights about what informs these political concepts, as well as a method by which readers—and especially students—can unpack and reconstruct them on their own.

International in scope, Hyperpolitics draws upon a global vocabulary in order to turn complex ideas into an innovative teaching aid. Its companion open access website (www.hyperpolitics.net) has already been

widely acknowledged in the fields of education and political science and will continue to serve as a formidable hub for the book's audience. Much more than a dictionary and enhanced by dynamic graphics, Hyperpolitics introduces an ingenious means of understanding complicated concepts that will be an invaluable tool for scholars and students alike.

When you want to know what's happening in the White House or on Capitol Hill, turn to this objective, comprehensive resource for concise answers to your questions. *Dictionary of Political Analysis* Sarup & Sons
For over two centuries, political parties have competed in encouraging, organizing, and directing political

activity in the United States. This volume compiles the key concepts, terms, labels, and individuals central to identifying and comprehending these key roles political parties have played in American political life. The dictionary contains brief biographies of party leaders: major party presidential tickets; noteworthy minor party presidential nominees; congressional party leaders, including

Speakers of the House of Representatives presidents pro tempore of the Senate, and floor leaders for both the majority and minority parties in each chamber; and chairs of the national party committees of the Democratic and Republican Parties. In addition to party leaders it also address the institutional offices they occupy and represent. This third edition of Historical

Dictionary of United States Political Parties contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on concepts, terms, labels, and individuals central to identifying and comprehending the key roles political parties have played in American political life.

This book is an excellent resource for students, researchers, and anyone wanting to know more about United States Political Parties.

Hyperpolitics Hinsdale, Ill : Dryden Press
A clear and lively introduction to the terminology of political science for students. Comprises rigorous definitions and explanations of around 1000 key terms presented in an engaging style, cross-

referenced, and easily accessible to readers new to the subject. Includes short biographies of the most eminent writers in the discipline -- both classical (e.g. Mill) and modern (e.g. Hayek).
Historical Dictionary of United States Political Parties Gyan Publishing House
This authoritative Dictionary provides comprehensive definitions of key terms in public policy. Unpacking the increasingly

complex and diffusive world of public policy, it offers an exhaustive definitional guide to the terminology utilised by contemporary policy scholars.

Dictionary of Political Science

University of Chicago Press
This best-selling dictionary contains over 1,700 entries on all aspects of politics. Written by a leading team of political scientists, it embraces the whole multi-disciplinary spectrum of

political theory including political thinkers, history, institutions, and concepts, as well as notable current affairs that have shaped attitudes to politics.
