Morris Commercial 30-cwt. and 2 Ton Six Wheeler Trucks Alan Sutton Publishing  
Published in 1997, each volume in this new series is a collection of seminal articles on a theme of central importance in the study of transport history, selected from the leading journal in the field. Each contains between ten and a dozen articles selected by a

distinguished scholar, as well as an authoritative new introduction by the volume editor. Individually they will form an essential foundation to the study of the history of a mode of transport; together they will make an incomparable library of the best modern research in the field.

Motor Transport Veloce Publishing Ltd  
Ray Newell is a recognised authority on the Morris Minor, having written extensively on the subject over a number of years, and is a true enthusiast with a wealth of experience in owning, driving and restoring this popular car. He is also the National Secretary of the UK-based Morris Minor Owners' Club, a position he has held since 1983. For this book Ray has drawn on his expansive personal collection – as well as those of fellow enthusiasts – to bring the Morris Minor story up to date, looking at why the Morris Minor is one of the most popular classic cars, and an enduring favourite with owners throughout the world. Ray's other books include the Morris Minor Essential Buyer's Guide in the popular Veloce series.
