## KAYLYN BRYCEN

### The Journal of the Engineering Institute of Canada

Troubador Publishing Ltd  
 Spanning four generations and an infinite range of human emotions, *When We Were Young* is the story of the Mitchell family, beginning in England at the outbreak of World War II and chronicling the triumphs and tragedies of those tumultuous times. Most of all, it is the story of Jim Mitchell, a young, ambitious English boy, hardened by his wartime experience. Eager to grasp life's opportunities, he embarks on an adventure peopled by a rich cast of characters he meets along the way. The raven-haired, charismatic, Maggie Bernadette O'Toole, rebellious daughter of his father's sister, and her Irish immigrant husband; James Thompson, marine engineer extraordinaire, friend, world traveler, and mentor. Nikolai Concalves Cavalantis, an older Brazilian playboy, who was heir to one of the world's leading hotel corporations and his young olive-skinned wife, the beautiful Maria; Lydia Louise Henning, a brilliant academic who served in the SAS during World War II and was captured by the German Gestapo and brutally tortured, leaving her with a fear of men; Jim Mitchell, his grandfather, a farmer, lay preacher, and mentor in his formative years

 "[W]onderful tidbits of Chaucerian scholarship enliven the novel. And whatever you think of Peter Diamond, he proves himself a 'verray, parfit, gentil knyght.'" —The New York Times Book Review  
 At a Bath auction house, a large slab of carved stone is up for sale. At the height of very competitive bidding, there is a holdup attempt by three masked robbers. They shoot and kill the highest bidder, a professor who has recognized the female figure carved in the stone as Chaucer's Wife of Bath. The masked would-be thieves flee, leaving the stone behind. Peter Diamond and his

team are assigned to investigate, and the stone is moved into Diamond's office so he can research its origins. The carving causes such difficulties that he starts to think it has jinxed him. Meanwhile, as Diamond's leads take him to Chaucer's house in Somerset, his intrepid colleague Ingeborg goes undercover to try to track down the source of the handgun used in the murder.

*Red Ice* By: Joe A. Swisher  
*Red Ice* is a captivating tale of excitement, war, and suspense. After biological weapons are discovered from a past war, it is the beginning of a secret mission that must be completed. Taking on the points of view from different characters throughout the story keeps an interesting focus for any fan of war novels. The intriguing missions presented in the story will have the audience feel as if they are part of the top-secret adventure.

Vol. 7, no.7, July 1924, contains papers prepared by Canadian engineers for the first World power conference, July, 1924.

*Caddell Dry Dock* Dorrance Publishing

"Hydraulic Structures are subject to varying loads of cyclic character. These loads are primarily generated by differential water heads but also by waves, drive system forces and other actions. These loads may cause fatigue damage to the steel components. As a result, the designers must take account of an additional failure mode of these structures - the failure caused by fatigue. Prior to the 1970s, fatigue was of minor or no concern for designers, constructors and managers of hydraulic structures. Several serious fatigue damages, particularly to lock gates emphasised the need for guidelines in this field. Such guidelines already exist for other steel structures, such as bridges, cranes or pressure vessels, offshore structures and airplanes. These guidelines do not, however, address all specific operation conditions and demands that apply to hydraulic structures. This report aims to offer comprehensive guidelines in the field of fatigue to all professionals involved in design, construction and management of hydraulic steel structures."--Introduction

*The Dry Dock of a Thousand Wrecks* Hardpress Publishing

This book covers every aspect of the dry docking of sea going vessels. It provides a guide to industry for the different dock types and docking procedures inclusive of material management, steelwork operations and dry dock legislation. Many thousands of people worldwide are engaged within the perimeter of the docking and shipboard maintenance industries to ensure that our ships remain in Class and are kept seaworthy. Docking a vessel successfully involves many skills and trades, requiring a teamwork operation between ships crews and the shoreside

docking personnel. This book describes dock types alongside the various methods of docking, stability concerns, repair activities, steelwork management, legislation and survey detail, as well as shipyard safety requirements. Includes a new chapter on steelwork and material management of the shipyard complex. Contains over a hundred photographs and illustrations, including a full colour plate section. Full coverage of dry dock operations, handling facilities, main ship building slips and shipyard repair activities.

*Dry Dock* is the second novel by Marina da Nadous. It's the sequel to the glorious, exciting and heart-wrenching tale, *The Celestial Sea*. Take a middle-class English mother, her husband and family from the contentment of a teaching life in the south of England, to the wild, green hills of a New Zealand coastal town - then introduce her to a creative New Zealand-born teacher, who enters both her family life and the hidden depths of her heart. The result is a deeply evocative romance and adventure that shakes the foundations of her marriage, exposes well-buried inner-secrets, confronts deeply-held religious beliefs and leads them to a new understanding. Unfolding amongst the beautiful scenery of New Zealand, the spiritual passion that grows between them is aided by their private text messaging; their love growing through the rocks and whirlpools of everyday family and school life. Richly sensual and deeply poetic, *Dry Dock* shows readers the humorous, playful, despairing and troubled twists and turns of their powerful relationship. Find out how their story ends in Marina's forthcoming books entitled *Setting Sail*, *Calm Waters*, *No Horizon*, *Kookaburra on the Deck*, *Time is the Brake*.

**Damaged and Threatened National Natural Landmarks** GALAHAD

With the outbreak of the First World War, it was not surprising that a number of individuals who were of German decent, and who lived in Hartlepool and its surrounding areas, were rounded up and detained by the British military authorities, in the interests of both national security and for their own personal safety. They were held at the towns Stranton Ice Rink. Their numbers included the ex-German Consul for the Hartlepool's district as well as others who had been local residents of many years standing. The first soldier with connections to Hartlepool to be killed on foreign soil during the war, was Corporal 57561 John Robert Richardson, who was serving with the 54th Battery, Royal Field Artillery, when he was killed in action on 4 October 1914. He is buried at the Bergen Communal Cemetery at Mons. The war came to Hartlepool on the morning of Wednesday, 16 December 1914 in the shape of three vessels of the Imperial German Navy. By the time their attack was over, more than 1,100 artillery shells had landed on the town, killing 9 soldiers, 86 civilians and wounding a further 438. Amongst the dead was 29 year old Private 18/295

Theophilus Jones of the 18th Battalion, Durham Light Infantry, making him the first British serviceman to be killed on British soil as a result of enemy action during the course of the First World War. Before the war was over, his brother Alfred, would also be killed, during fighting at the Battle of Arras, on 3 May 1917. By the time the war had ended, some 1700 men and women from Hartlepool and its surrounding areas had paid the ultimate price of having served their King and country.

Congressional Record Author House

ANGEL&STORM is a fantasy novel about the virtual reality game GALAHAD. You are reading this in A.D. 2045; it is an actual situation where everything is well controlled again by the emergence of New World Order (NWO). 29 years ago, anything related to Japanese yen had defaulted due to economic and environmental collapse of Japan, the country which used to be one of the main powers in East Asia. As a result, powerless countries were knocked down one after another by financial paralysis like falling dominoes. Moreover, the massive outbreak of the fatal yet unknown virus killed billions of people in some countries like China and Africa, and some mutant humans were born after the virus (e.g. Modified Ebola) outbreak. Each country strengthened its governmental authority and imposed martial law, justifying that it is to find terrorists and to protect citizens. Not so long after, a religious conflict caused a nuclear war in Israel. In 2017, nuclear wars had begun in many countries simultaneously, and the Illuminati intensified the war between South and North Korea, the powder keg of East Asia, to gain enormous profits and supremacy. The United States, once called the mediator, tried to confront the full scale invasion of China and Russia, but soon it collapsed feebly and lost the title of "the most powerful country in the world." Meanwhile, the mercenaries in the broad battlefield selectively killed the disarmed people. The citizens from all over the world were left in chaos as they could not tell who their enemies and allies were. They could not take any more inflation, conflicts between countries and regions, and a food crisis, so the citizens started the first worldwide riot. The massive natural disasters from abrupt climate changes and tectonic movements made the citizens go through the worst era.

Then NWO appeared in front of them. It led the survived population of five hundred million people using powerful control and justified that its control over people was to restore Earth. By the time 20 years of Earth restoration project was ended, almost all tasks in society were handled by Zion's selected executors and robots, and the citizen from all over the world had received the new class called "commoner" and the identification system from NWO. World's commoners were losing jobs as they were restricted from accessing high quality upper class information for security and safety purposes, and they ended up taking over the simple manufacturing and the mining jobs. World's commoners who had lost their life goals began to have complaints against NWO, and the world was on the verge of facing the second worldwide riot. However, instead of forcibly cracking down on the riot, NWO was generous enough to create a virtual reality world, justifying that the virtual reality world was to ensure every commoner's happy life. As commoners regained the stabilities of their lives, there were no more riots or complaints; however, they were repeating the same history in the virtual reality given by NWO. The revolutionary armies and the scholars around the world could not neglect what commoners were doing in GALAHAD anymore. To change commoner's consciousness to civic consciousness, they began to infiltrate themselves into GALAHAD... What would you do if you can change the tragic history? What if justice you believe in is false? In this virtual reality world with a medieval era setting, the mute girl Aru who wanted to become the pirate queen started the adventure with her mercenaries, traveling vast oceans and perilous lands. However, Illuminati and Freemason, the secretive organizations that established New World Order, tried to interrupt them... What would be the truth of human history that they tried to hide from commoners? ANGEL&STORM is the fantasy novel with new perspectives on angels and demons, deceptions of creationism, reinterpretations of religion and history, alternating points of view, and the expansive storyline with numerous characters. This novel consists of six seasons, and each season is split into 15 to 20 series. One season will be released over a year.

*Hartlepool in the Great War* PIANC

On September 6, 1966, Dimitri Tsafendas entered South Africa's parliament, gripping a wickedly long knife, and stabbed Prime Minister Hendrik Verwoerd four times in the chest. This chilling study of the life of Tsafendas—the homeless, stateless, and loveless illegitimate son of a Greek father and a black African mother—gives us a crystalline vision of the tragic consequences of apartheid.
