Standard Lines Book III in the Constructing Walking Jazz Bass Lines series for the Electric Bassist is a comprehensive guide demonstrating the devices used to construct walking jazz bass lines in the jazz standard tradition. Book III covers 24 standard jazz chord progressions with 110 choruses of professional jazz bass lines as an example. Part I outlines the Modes and the chord scale relationships and the fundamental knowledge required to be able to build the diatonic triads and 7th chords in any key. Examples are given in the " 2 " feel and " 4 " feel walking bass

style enabling the bassist to develop a strong rhythmic and harmonic foundation. More advanced bass line construction examples including voice leading and mode substitutions and mode applications related to specific jazz chord progressions are also outlined. Part II outlines the Symmetric Scales as well as the Modes of the Melodic Minor Scale related to the Minor II V I progression. Provided are written examples of the Symmetric Scales and the chord scale relationships and how to apply the use of the Symmetric Scales over popular jazz chord progressions. The Minor II V I is outlined and compared to the Major II V I outlining the differences with the suggested scale uses applied to common jazz chord progressions. Part III outlines the use of the BeBop Scales and their use in the jazz walking bass tradition, providing suggested uses of the Be Bop scales related to popular jazz chord progressions. Part IV outlines the previous lesson devices and concepts with examples of professional level bass

lines over standard jazz chord progressions. All information builds in a stepwise progression enabling the bassist to apply the techniques in all 12 keys.

This is the centerpiece of the Ron Carter Library. (He refers to it as "THE book" when talking to his students) While other bass lesson books teach you arco techniques and how to audition for a classical orchestra, this book is completely different. It shows you how the bass functions, and the hand positions and locations on the instrument so you can find those beautiful notes too. And it has QR codes that link to video demos so you can watch the Maestro play the exercises himself. With this book you can do what Carter does every night. Play rhythm changes all the time, make wonderful blues choruses, or in the Maestro's case, play Little Waltz for 25 years. And have it be new and fresh every time.

The Jazz Rhythm Section introduces the basics of this very important part of the jazz ensemble. They are the foundation of any jazz group, so improving the rhythm section will result in a stronger sounding band. This book is intended to be a practical guide with chapters on each of the primary instruments in the rhythm section: bass, drums, piano and guitar. Key topics include: Equipment and setup issues: from drum heads to bass amps to guitar pickups to mic'ing a piano on stage, each instrument presents unique equipment issues that the director must face. Performance practice: including tips on constructing walking bass lines, learning voicings and comping rhythms and creating drummer's setup fills. Additionally, there is a chapter on the rhythm section itself that details all of the inter-relationships, suggestions for count-offs and metronome exercises that will help improve your band. The Jazz Rhythm Section is intended for novice directors, but directors of all levels will benefit as well.
