An empowering journey through the mechanisms of the mind from one of the world's leading mental health experts. For those in pursuit of a better life, psychiatrist Marian Rojas Estapé presents the essential guide to neuroscience-driven mindfulness. Understanding your brain, managing your emotions, and being aware of your responses to stressors can give you greater self-control. Rather than a gimmicky guidebook, this is a thorough look at how our brains react to stress, threats, hyperstimulation, and the vices of our digital age. With proven techniques backed by solid, up-to-date psychiatric research, Estapé teaches us how to make the best of our lives. Combining science, psychology, and philosophy, Estapé delivers practical advice about how we can cultivate a happy existence. This includes understanding the parts of the brain, setting healthy goals and objectives, strengthening willpower, cultivating emotional intelligence, developing assertiveness, avoiding excessive self-criticism and self-demand, and mastering the proven art of optimism.

AVAILABLE FOR THE FIRST TIME IN eBook! A man returns to the town where a baffling murder took place 27 years earlier, determined to get to the bottom of the story. Just hours after marrying the beautiful Angela Vicario, everyone agrees, Bayardo San Roman returned his bride in disgrace to her parents. Her distraught family forced her to name her first lover; and her twin brothers announced their intention to murder Santiago Nasar for dishonoring their sister. Yet if everyone knew the murder was going to happen, why did no one intervene to stop it? The more that is learned, the less is understood, and as the story races to its inexplicable conclusion, an entire society--not just a pair of murderers—is put on trial. Gabriel García Márquez was born in Colombia in 1927. He was awarded the Nobel Prize in Literature in 1982. He is the author of many works of fiction and nonfiction,

The Strange Case of Dr. Jekyll and Mr. Hyde Penguin Literary Nonfiction. CALIBAN AND THE WITCH is a history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages to the witch-hunts and the rise of mechanical philosophy, Federici investigates the capitalist rationalization of social reproduction. She shows how the battle against the rebel body and the conflict between body and mind are essential conditions for the development of labor power and self-ownership, two central principles of modern social organization. "It is both a passionate work of memory recovered and a hammer of humanity's agenda." Peter Linebaugh, author of *The London Hanged*"

In this remarkably nuanced novel, both a gripping detective story and a passionate, devastating tale of eros and insanity in Colombia, internationally acclaimed author Laura Restrepo delves into the minds of four characters. There's Agustina, a beautiful woman from an upper-class family who is caught in the throes of madness; her husband Aguilar, a man passionately in love with his wife and determined to rescue her from insanity; Agustina's former lover Midas, a drug-trafficker and money-launderer; and Nicolás, Agustina's grandfather. Through the blend of these distinct voices, Restrepo creates a searing portrait of a society battered by war and corruption, as well as an intimate look at the daily lives of people struggling to stay sane in an unstable reality.

Cecilia Valdés is arguably the most important novel of 19th century Cuba. Originally published in New York City in 1882, Cirilo Villaverde's novel has fascinated readers inside and outside Cuba since the late 19th century. In this new English translation, a vast landscape emerges of the moral, political, and sexual depravity caused by slavery and colonialism. Set in the Havana of the 1830s, the novel introduces us to Cecilia, a beautiful light-skinned mulatta, who is being pursued by the son of a Spanish slave trader, named Leonardo. Unbeknownst to the two, they are the children of the same father. Eventually Cecilia gives in to Leonardo's advances; she becomes pregnant and gives birth to a baby girl. When Leonardo, who gets bored with Cecilia after a while, agrees to marry a white upper class woman, Cecilia vows revenge. A mulatto friend and suitor of hers kills Leonardo, and Cecilia is thrown into prison as an accessory to the crime. For the contemporary reader Helen Lane's masterful translation of *Cecilia Valdés* opens a new window into the intricate problems of race relations in Cuba and the Caribbean. There are the elite social circles of European and New World Whites, the rich culture of the free people of color, the class to which Cecilia herself belonged, and then the slaves, divided among themselves between those who were born in Africa and those who were born in the New World, and those who worked on the sugar plantation and those who worked in the households of the rich people in Havana. *Cecilia Valdés* thus presents a vast portrait of sexual, social, and

racial oppression, and the lived experience of Spanish colonialism in Cuba.

Franz Kafka, the author has very nicely narrated the story of Gregou Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including 'The Judgement', and much of his novels 'Amerika', 'The Castle', 'The Hunger Artist'. Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The Metamorphosis is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

Translated by Gregory Rabassa, winner of the National Book Award for Translation, 1967 Horacio Oliveira is an Argentinian writer who lives in Paris with his mistress, La Maga, surrounded by a loose-knit circle of bohemian friends who call themselves "the Club." Hopscotch is the dazzling, freewheeling account of Oliveira's astonishing adventures.

The 21 Indispensable Qualities of a Leader Harper Collins

As one of the many installments in Jules Verne's Voyage Extraordinaire series, Journey to the Center of the Earth promises high stakes and thrilling adventure. When Professor Otto Lidenbrock bought an ancient runic manuscript, which chronicles the lives of Norwegian Kings, he did not expect to learn of anything but the history of Icelandic leaders. However, upon further inspection, Lidenbrock and his nephew, Axel, find that the manuscript includes a coded message written by a 16th century

alchemist. After rigorous translating and decoding, Axel and Lidenbrock discover the content of the note, in which the author reveals that it is possible to travel to the center of the Earth through volcanic passages. When Lidenbrock heard the news, he immediately started preparations to start the journey, though Axel was skeptical. When Lidenbrock's will proves to be more powerful than his nephew's doubt, the two decide to make the journey, recruiting an Icelandic tour guide named Hans on the way. As the three men make their way to inactive volcanic tubes, they embark on a high-stake adventure, facing dangers of cave-ins, subpolar tornados, an underground ocean and prehistoric creatures. The three men stay strong in their adventure, knowing the risky journey promises superior knowledge and acclaim, granted that they make it out alive. With the combination of science fiction and the adventure genre, Jules Verne created a novel that captures the attention of his audience. Originally published in 1864, Journey to the Center of the Earth still provides modern readers with entertainment and insight with its detailed and imaginative prose. Journey to the Center of the Earth can be read independently or as a companion to the other titles of Jules Verne's critically acclaimed series, Voyage Extraordinaire. This edition of Journey to the Center of the Earth by Jules Verne now features an eye-catching cover design and is printed in a stylish and readable font, crafting an assessable and pleasant reading experience for modern audiences.

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the

politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

"Since they shot her at point-blank range while she was being kissed, she confused the pain of love with that of death." Rosario Tijeras is the violent, violated character at the center of Jorge Franco's study of contrasts, set in self-destructing 1980s Medellín. Her very name-evoking the rosary, and scissors-bespeaks her conflict as a woman who becomes a contract killer to insulate herself from the random violence of the streets. Then she is shot, gravely wounded, and the circle of contradiction is closed. From the corridors of the hospital where Rosario is fighting for her life, Antonio, the narrator, waits to learn if she will recover. Through him, we reconstruct the friendship between the two, her love story with Emilio, and her life as a hitwoman. Rosario Tijeras has

been recognized as an admirable continuation of a literary subject that was first treated by Gabriel García Márquez and then by Fernando Vallejo. A work in the Latin American social realist tradition, Rosario Tijeras is told in fast and vibrant prose and with poetic flourish.
