"Books geographically focused on the midwestern and eastern states dominate the study of Mennonites in America. The intriguing history of Mennonites in the American West remains untold. In *From Digging Gold to Saving Souls*, Brian Froese introduces readers for the first time to the California Mennonite experience. Although a few Mennonites did dig for gold in the 1850s, the real story of Mennonites in California begins in the 1890s with westward migrations for fertile soil and healthy sunshine. By the mid-twentieth century, the Mennonite story in California had developed into an interesting tale of religious conservatives--traditional agrarians--finding their way in an increasingly urban and religiously pluralistic California. Some California Mennonites negotiated new identities by endorsing conservative evangelicalism; some found them in reclamations of sixteenth-century Anabaptists. Still other Mennonites found meaningful religious experience by engaging in social action and justice even when these actions appeared in "secular" forms. These emerging identities--Evangelical, Anabaptist, and secular--covered a broad spectrum, yet represented a selective retaining and discarding of Mennonite religious practices and expressions. *From Digging Gold to Saving Souls* touches on such topics as migration, pluralism, race, gender, pacifism, institutional construction, education, and labor conflict, all of which defined the experience of Mennonites of California. Brian Froese shows how this experience was a rich, complex, and deliberate move into modern society. In *From Digging Gold to Saving Souls*, he introduces readers to a dynamic people who did not simply become modern, but who chose to modernize on their own terms"--

A twenty-one-day challenge is all it takes to get on the path of reversing diabetes Sounds unbelievable? It's true. Based on her revolutionary diabetes reversal programme, Dr Nandita Shah, renowned homeopath and founder-director of SHARAN, elaborately breaks down the real cause of diabetes using scientific evidence and intelligently outlines a routine that will not just prevent the disease but also reverse it. By addressing the cause of insulin resistance and lack of insulin, *Reversing Diabetes in 21 Days* provides a fresh and practical perspective on how to cure diabetes. This book carefully takes into account the Indian context, customs, tastes and thought processes to tailor the best possible step-by-step guide that an average Indian can follow. Interspersed with testimonials, stories and real-life experiences of past participants, this book will show you that type 2 diabetes and many cases of type 1 diabetes are indeed reversible!

From backpack to bicycle and now on a motorcycle, but still on a budget, the author, a compulsive traveller, embarks on a journey East from England with Mongolian intentions. In possession of a good sense of direction, a vague sense of balance and no sense of proportion; this particular trip is

financed by modest winnings from an uncharacteristic appearance on a TV game show. Riding a bargain eBay purchase Kawasaki KLR 650 and travelling solo into places beyond the guide book. A daily diary of achievements and mistakes incurred in a transient lifestyle, with mixed emotions from overawed to just plain bored, and making the best of decisions made while trying not to reflect on the alternatives. This is a refreshingly honest, thought provoking, humorous and informative account based on a lifetime of first hand encounters, anecdotes, wisdom and occasional alcohol induced inspiration. Offering an unavoidable wealth of experience which takes the reader with him, as the journey twists and turns on the road which the author hopes will lead him to greener grass.

More than a memoir of a custom cafe racer build this book is a tribute to a teacher who inspired young people to be creative with their minds and capable with their hands. Growing up in Fargo, North Dakota in the 1970s and 80s, The Urban Monk had the opportunity to develop a love for machines, metal working and motorcycles. This book provides a glimpse into what life was like for the author and his young friends in Fargo during that time. It is also a poignant defense of industrial arts education in public schools. After an over three year effort building a custom cafe racer in his spare time and documenting the entire process in videos shared with the world on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read.

Enter the “fascinating” and frightening world of modern forensic psychology as experienced by one of the most respected practitioners in the field today (Robert K. Tanenbaum, New York Times–bestselling author). At the heart of countless crimes lie the mysteries of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology, and revisits the most notorious and puzzling cases she has handled in her multifaceted career. Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice—in which the accused may truly believe their own bizarre lies, creating a world that pushes them into committing horrific, violent crimes. Join Dr. Paradis in a stark concrete cell with the indicted as she takes on the daunting task of mapping the suspect’s madness or exposing it as fakery. Take a front-row seat in a tense, packed courtroom, where her testimony can determine an individual’s fate—or if justice will be truly served. The criminal thought process has never been so intimately revealed—or so darkly compelling—as in this “excellent and entertaining” journey into the darkest corners of the human mind (Booklist).

Readers can relive the true golden age of high-performance classic speedboats in this book that covers these mighty wooden-hulled craft from around World War I until just before the second World War. This was an era when speed was still a new plaything, and speedboats and aircraft were raced as passionately as were automobiles; when massive mahogany speedboats powered by engines from suppliers such as Rolls-Royce competed fiercely against rivals from around the world. Classic speedboat enthusiasts will relish the cutaway drawings of these craft, as well as the choice archival photography and the modern color photography of these now-impeccably restored beauties.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America’s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede’s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid’s, handle like a pro’s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension’s condition. He outlines testing procedures that will help you gauge how well you’re improving your suspension, along with your riding. And, if you’re inclined to perfect your bike’s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Although there are a number of publications covering records management generically, very few are focused on the specific challenges of particular sectors, and fewer still on current regulatory, legal and governance issues associated with managing records in global banking and finance businesses. This timely book fills this gap by exploring these complex issues fully, and offers strategies and examples of best practice to meet the recordkeeping challenges to which they give rise in corporate and commercial banking enterprises operating in global capital markets. The examples and cases studies encompass recordkeeping in investment banking, asset management, brokerage and other financial services which serve global markets, and the book will be of particular significance to the

financial sector. However, covering as it does the issues that arise from operating across borders and jurisdictions, it will also be of relevance to multi-national businesses in other sectors. The key chapters cover: setting the scene: background and concepts regulatory and legal compliance common trends in financial services: balancing risk and return litigation-related issues recordkeeping approaches. Whilst the expert team of authors are careful to ensure that the book reflects recognized records management principles, the accessible language used will assure its value to information professionals and others without a formal records management background. Readership: This much-needed textbook will be essential reading for records managers, archivists and information professionals who manage records in the financial sector. It will also be invaluable for individuals engaged in a wide range of disciplines who rely on records to meet the increasing number of legal and regulatory obligations to which institutions engaged in global banking and finance are now subject. These include: compliance professionals, data protection officers, governance professionals, regulators and risk managers, senior managers and directors, chief

operating officers and IT specialists.

The Little Town Where Time Stood Still contains two linked narratives by the incomparable Bohumil Hrabal, whom Milan Kundera has described as “Czechoslovakia’s greatest writer.” “Cutting It Short” is set before World War II in a small country town, and it relates the scandalizing escapades of Maryška, the flamboyant wife of Francin, who manages the local brewery. Maryška drinks. She rides a bicycle, letting her long hair fly. She butchers pigs, frolics in blood, and leads on the local butcher. She’s a Madame Bovary without apologies driven to keep up with the new fast-paced mechanized modern world that is obliterating whatever sleepy pieties are left over from the defunct Austro-Hungarian Empire. “The Little Town Where Time Stood Still” is told by Maryška and Francin’s son and concerns the exploits of his Uncle Pepin, who holds his own against the occupying Nazis but succumbs to silence as the new post-World War II Communist order cements its colorless control over daily life. Together, Hrabal’s rousing and outrageous yarns stand as a hilarious and heartbreaking tribute to the always imperiled sweetness of lust, love, and life.
