 The Italian-American mafia has its roots in a mysterious and powerful criminal network in Sicily. While the mythology of the mafia has been widely celebrated in American culture, the true origins of its rituals, laws, and methods have never actually been revealed. John Dickie uses startling new research to expose the

secrets of the Sicilian mafia, providing a fascinating account that is more violent, frightening, and darkly comic than anything conceived in popular movies and novels. How did the Sicilian mafia begin? How did it achieve its powerful grip in Italy and America? How does it operate today? From the mafia's origins in the 1860s to its current tense relationship with the Berlusconi government, Cosa Nostra takes us to the inner sanctum where few have dared to go before. This is an important work of history and a revelation for anyone who ever wondered what it means to be "made" in the mob.

Noted British academic and journalist Alison Wolf offers a surprising and thoughtful study of the professional elite, and examines the causes—and limits—of women's rise and the consequences of their difficult choices. The gender gap is closing. Today, for the first time in history, tens of millions of women are spending more time at the boardroom table than the kitchen table. These professional women are highly ambitious and highly educated, enjoying the same lifestyle prerogatives as their male counterparts. They are working longer and marrying later—if they marry at all. They are heading Fortune 500 companies and appearing on the covers of Forbes and Businessweek. They represent a special type of working woman—the kind who doesn't just punch a clock for a paycheck, but derives self-worth and pleasure from wielding professional power. At the same time that the gender gap is narrowing, the gulf is widening among women themselves. While blockbuster books such as *Lean In* focus only on women in high pressure jobs, in reality there are four women in traditionally female roles for every Sheryl Sandberg. In this revealing and deeply intelligent book, Alison Wolf examines why more educated women work longer hours, why having children early is a good idea, and how feminism

created a less equal world. Her ideas are sure to provoke and surprise, as she challenges much of what the liberal and conservative media consider to be women's best interests.

#1 New York Times and internationally bestselling author Naomi Klein makes the case for a Green New Deal in this "keenly argued, well-researched, and impassioned" manifesto (The Washington Post). An instant bestseller, *On Fire* shows Klein at her most prophetic and philosophical, investigating the climate crisis not only as a profound political challenge but also as a spiritual and imaginative one. Delving into topics ranging from the clash between ecological time and our culture of "perpetual now," to the soaring history of humans changing and evolving rapidly in the face of grave threats, to rising white supremacy and fortified borders as a form of "climate barbarism," this is a rousing call to action for a planet on the brink. An expansive, far-ranging exploration that sees the battle for a greener world as indistinguishable from the fight for our lives, *On Fire* captures the burning urgency of the climate crisis, as well as the fiery energy of a rising political movement demanding a catalytic Green New Deal. "Naomi Klein's work has always moved and guided me. She is the great chronicler of our age of climate emergency, an inspirer of generations." —Greta Thunberg, climate activist "If I were a rich man, I'd buy 245 million copies of Naomi Klein's 'On Fire' and hand-deliver them to every eligible voter in America...Klein is a skilled writer." —Jeff Goodell, The New York Times

A NEW YORK TIMES BESTSELLER WINNER OF THE 2019 NATIONAL BOOK AWARD FOR NONFICTION A brilliant, haunting and unforgettable memoir from a stunning new talent about the inexorable pull of home and family, set in a shotgun house in New Orleans East. In 1961, Sarah M. Broom's mother Ivory Mae bought a shotgun house in the then-promising neighborhood of New Orleans East and built her world inside of it. It was the height of the Space Race and the neighborhood was home to a major NASA plant—the postwar optimism seemed assured. Widowed, Ivory Mae remarried Sarah's father Simon Broom; their combined family would eventually number twelve children. But after Simon died, six months after Sarah's birth, the Yellow House would become Ivory Mae's thirteenth and most unruly child. A book of great ambition, Sarah M. Broom's *The Yellow House* tells a hundred years of her family and their relationship to home in a neglected area of one of America's most mythologized cities. This is the story of a mother's struggle against a house's entropy, and that of a prodigal daughter who left home only to reckon with the pull that home exerts, even after the Yellow House was wiped off the map after Hurricane Katrina. The Yellow House expands the map of New Orleans to include the stories of its lesser known natives, guided deftly by one of its native daughters, to demonstrate how enduring drives of clan, pride, and familial love resist and defy erasure. Located in the gap between the "Big Easy" of tourist guides and the New Orleans in which Broom was raised, *The Yellow House* is a brilliant memoir of place, class, race, the seeping rot of inequality, and the internalized shame that often follows. It is a transformative, deeply moving story from an unparalleled new voice of startling clarity, authority, and power.
