Fans of *Lady Bird* will love this novel about a good girl who dreams herself into a bad boy's room in this lyrically romantic novel that Maggie Stiefvater, author of *The Raven King*, says she read and "woke up satisfied." Waverly Camdenmar spends her nights running until she can't even think. Then the sun comes up, life goes on, and Waverly goes back to her perfectly hateful best friend, her perfectly dull classes, and the tiny, nagging suspicion that there's more to life than student council and GPAs. Marshall Holt is a loser. He drinks on school nights and gets stoned in the park. He is at risk of not graduating, he does not care, he is no one. He is not even close to being in Waverly's world. But then one night Waverly falls asleep and dreams herself into Marshall's bedroom—and when the sun comes up, nothing in her life can ever be the same. In Waverly's dreams, the rules have changed. But in her days, she'll have to decide if it's worth losing everything for a boy who barely exists. "Waverly and Marshall burn brightly . . . both refreshingly flawed as they come into their own. Readers will forgo sleep themselves to witness their vibrant, achingly real story unfold. A brilliant romance." —Kirkus Reviews, Starred "A tightly woven, luminously written novel that captures the uncertain nature of high school and the difficult path of self-discovery." —Booklist, Starred "Yovanoff offers a multilayered exploration of human connections, particularly those that manifest in unpredictable ways." —Publishers Weekly, Starred

Over the past decade there have been significant shifts both in feminist approaches to the field of eating disorders and in the ways in which gender, bodies, body weight, body management and food are understood, represented and regulated within the dominant cultural milieu of the early twenty-first century. *Critical Feminist Approaches to Eating Dis/Orders* addresses these developments, exploring how eating disordered subjectivities, experiences and body management practices are theorised and researched within postmodern and post-structuralist feminist frameworks. Bringing together an international range of cutting-edge, contemporary feminist research and theory on eating disorders, this book explores how anorexia nervosa, bulimia nervosa and obesity cannot be adequately understood in terms of individual mental illness and deviation from the norm but are instead continuous with the dominant cultural ideas and values of contemporary cultures. This book will be essential reading for academic, graduate and post-graduate researchers with an interest in eating disorders and critical feminist scholarship, across a range of disciplines including psychology, sociology, cultural studies and gender studies as well as clinicians interested in exploring innovative theory and practice in this field.

A brilliant picture book biography about Thurgood Marshall, who fought for equality during the Civil Rights Movement and served as the first Black justice on the Supreme Court, from Coretta Scott King Honor winners Kekla Magoon and Laura Freeman. Growing up in Baltimore, Thurgood Marshall could see that things weren't fair. The laws said that Black and white people couldn't use the same schools, parks, or water fountains. When Thurgood had to read the Constitution as punishment for a prank at school, his eyes were opened. It was clear to him that Jim Crow laws were wrong, and he was willing to do whatever it took to change them. His determination to make sure all Americans were treated equally led him to law school and then the NAACP, where he argued cases like *Brown v. Board of Education* in front of the Supreme Court. But to become a Justice on the highest court in the land, Thurgood had to make space for himself every step of the way. Readers will be inspired by Kekla Magoon's concise text and Laura Freeman's luminous illustrations, which bring Thurgood Marshall's incredible legacy and achievements to life.
