On Purpose, Selling Your Company With

Intention And Purpose! was written as a guide for the small business owner to understand the steps involved in the process of selling a company for maximum value. Most business owners will only sell a company once or twice in a lifetime making them inexperienced at best. Hiring a business broker is one of the last steps you'll take in selling your company. I wrote this book so you can better understand the steps you need to take to begin the process of selling a company and maximize the value for all parties. I pull back the curtain and shed light on important aspects of selling that most buyers don't understand until it's too late. I arm you with the insight and experience needed to prepare yourself and your company for sale and successfully work through the sales

process. After reading this book, you will be able to plan confidently and follow through with a successful sale of your company.

Removal is indeed an Art. There are however many myths and legends which over simplify the process making it look like a hoax. Some of these Myths include taking a Hail damaged vehicle to Florida and leaving it set in the sun which will magically remove the Hail damage. There are numerous myths surrounding dry ice or liquid nitrogen magically removing dents from vehicles. Some of these processes are possible to remove some very unusual dents that could easily be removed by your bathroom plunger or a five dollar suction cup from your local auto parts store. This is however not Paintless Dent Removal from a professional standpoint"--From publisher web site.

one--Barry has some wacky words of wisdom for you." --USA Today
