In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret

Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is

no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

"It's rare that a medically
trained scientist dares to
venture into the mystical
world of our cells and
biology, but Dr. Barrett
has both the courage and
insights to do just that. By
combining her
scientifically trained mind
with the wisdom of her
heart, she takes us on an

adventure of perceiving the inner workings of our bodies in a new way. This book will serve anyone curious about how our physical lives are related to this vast universe that we occupy."—Leigh Fortson, author of *Embrace, Release, Heal: An Empowering Guide to Talking About, Thinking About, and Treating Cancer* "In *Secrets of Your Cells*, biochemist Sondra Barrett puts us in touch with the incredible beauty and organization of the cells of the human body as she translates the

small-scale life of cells into large-scale lessons for living. This is the work of someone with a genuine reverence for the sacredness of life."
—Larry Dossey, MD, author of *Healing Words, Reinventing Medicine, and The Power of Premonitions* "Sondra has the gift of a scientist's mind wedded to an artist's heart."—Eli Jaxon-Bear, author of *From Fixation to Freedom: The Enneagram of Liberation*. A guiding principle of the spiritual journey is to look within. Biochemist Sondra

Barrett has done just that—and discovered that our cells offer us invaluable wisdom for transformation, relationships, and healing. With *Secrets of Your Cells*, this scientist and mind-body teacher takes you on a provocative journey into our inner universe. Exploring the cell's astonishing architecture, intelligence, and ability to function harmoniously, this book offers practical exercises for applying the lessons of our cells to live well and thrive. Join Dr. Barrett to learn: Practical

guidance for engaging cellular intelligence in everyday life through our thoughts, choices, and actions Inner wisdom embedded in our cells about sanctuary, letting go, and being in the present moment What our cells can teach us about communication, cooperation, and purpose How the anatomy of our cells responds to energy, movement, and internal tension Cells and molecules as sacred art, as revealed by Dr. Barrett's fascinating color photographs of the inner

and outer world "Our cells are more than just fortuitous arrangements of chemicals," explains Dr. Barrett. "They are a community of trillions of sentient entities cooperating to create a sanctuary for the human soul." Drawing on the insights from shamanic practices, energy medicine, and the wisdom of our body's fundamental building blocks, *Secrets of Your Cells* is a thoroughly researched and accessible resource for putting cutting-edge biology into action.
