Sequence Dancing: a different type of ballroom dancing where couples dance to a named and well-practised sequence of steps to sixteen bars of music. Repeating that sequence five or six times. Moving around the dance floor in the same direction and at the same tempo. Together. But really, she adds, you need

to see it, to properly understand. THE SEQUENCE DANCE is another riveting short story collection from Nova Scotia author, S.B. Borgersen.

The Texts of Taoism Routledge

"This is the first full-length comparative study of the music of the Christian and Jewish liturgies. It is designed to show the liturgical and musical interdependence of Church and Synagogue during the first millennium of the Christian era and to highlight the series of cultural exchanges between East and West that occurred during those centuries. With a wealth of

scholarly evidence, the author tells the story of the development of the Christian forms of worship, both Eastern and Roman. At the same time he explains the modifications made in Jewish ceremonies and rituals, in areas where Jews and Christians lived side by side, with resulting exchange in both directions, from Church to Synagogue as well as from Synagogue to Church. Professor Werner first examines Jewish practices of worship at the time of the beginnings of Christianity and then traces the spread and modifications of these ancient Jewish, and even pre-Jewish,

conceptions of sacred music and ritual as they were adapted by various Christian groups. Historical, philological, and musicological scholarship is used to discover the complex interrelationship between Christian and Hebraic elements in prayer books, poetry and psalmody, hymns, devotional music, and all the other aspects of sacred liturgy. Professor Werner has used many sources previously neglected and has reexamined those already available. Scholars of theology, liturgy, and music, and historians as well, will find much that will stimulate further research, and all interested in the formation of the religions of the West will stand to profit from this scholarly work on the interplay of two great religious movements." --Jacket.

This new kind of dictionary reflects the use of "rhythm rhymes" by rappers, poets, and songwriters of today. Users can look up words to find collections of words that have the same rhythm as the original and are useable in ways that are familiar to us in everything from vers libre poetry to the lyrics and music of Bob Dylan and hip hop

groups.

Mirour de L'Omme Modern Library
Nobel Laureate Desmond Tutu has long been admired throughout the world for the heroism and grace he exhibited while encouraging countless South Africans in their struggle for human rights. In *God Has a Dream*, his most soul-searching book, he shares the spiritual message that guided him through those troubled times. Drawing on personal and historical examples, Archbishop Tutu reaches out to readers of all religious backgrounds, showing how individual and global suffering can be transformed into joy and redemption. With his characteristic humor, Tutu offers an extremely personal and liberating message. He helps us to "see with the eyes of the heart" and to cultivate the qualities of love, forgiveness, humility, generosity, and courage that we need to change ourselves and our world. Echoing the words of Martin Luther King, Jr., he writes, "God says to you, 'I have a dream. Please help me to realize it. It is a dream of a world whose ugliness and squalor and poverty, its war and hostility, its greed and harsh competitiveness, its alienation and disharmony are changed into their glorious

counterparts. When there will be more laughter, joy, and peace, where there will be justice and goodness and compassion and love and caring and sharing. I have a dream that my children will know that they are members of one family, the human family, God's family, my family.'" Addressing the timeless and universal concerns all people share, *God Has a Dream* envisions a world transformed through hope and compassion, humility and kindness, understanding and forgiveness.

The Complete Works of John Gower: Latin works Michigan State University Press

THE STORY: In a barrio living room in North Philly, an activist-turned-music-professor moonlights as the local soup kitchen queen, cooking free rice and beans for any hungry neighbor. Halfway around the world, her cousin relives his military trauma on the set of a docudrama that's filming in Jordan. With the Egyptian revolution booming in the distance, these two young adults try to sing a defiant song of legacy and love in the face of local and global unrest.

Finalist, 2015 Lambda Literary Award for LGBT Drama Discharged from the Marines under suspicious circumstances, Isaac comes home from the wars, only to find the life he remembers upended. Isaac's father, who once ruled the family with an iron fist, has had a debilitating stroke; his younger sister, Maxine, is now his brother, Max; and their mother, Paige, is committed to revolution at any cost. Determined to be free of any responsibility toward her formerly abusive husband—or the home he created—Paige fervently believes she can lead the way to a "new world order." Hir, Taylor Mac's subversive comedy, leaves many of our so-called normative and progressive ideas about gender, families, the middle class—and cleaning—in hilarious and ultimately tragic disarray.

The story of the Waldenses is one of the greatest spiritual sagas the world has ever known, yet few people have heard of them. Their story deserves to be told because, in spite of terrible persecution, their heritage is still alive and well today. They were devout Christians who tried to

follow the original teachings of Jesus to the best of their abilities. The Church had different views and opposed them, including the Waldenses' efforts to translate the Bible out of Latin so that common people could read it. This book tells of their struggle to survive against a much larger and more powerful foe. It is told from the Waldenses' point of view, despite the previous belief that all we had known about them was written by their enemies.

Middle Egyptian introduces the reader to the writing system of ancient Egypt and the language of hieroglyphic texts. It contains twenty-six lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of twenty-six essays on the most important aspects of ancient Egyptian history, society, religion, literature, and

language. Grammar lessons and cultural essays allows users not only to read hieroglyphic texts but also to understand them, providing the foundation for understanding texts on monuments and reading great works of ancient Egyptian literature. This third edition is revised and reorganized, particularly in its approach to the verbal system, based on recent advances in understanding the language. Illustrations enhance the discussions, and an index of references has been added. These changes and additions provide a complete and up-to-date grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields.

Benjamin Jowett's translations of Plato have long been classics in their own right. In this volume, Professor Hayden Pelliccia has revised Jowett's renderings of five key dialogues, giving us a modern Plato faithful to both Jowett's best features and Plato's own masterly style. Gathered here are many of Plato's liveliest and richest texts. Ion takes up the question of poetry and introduces the Socratic method. Protagoras discusses poetic interpretation and shows why cross-examination is the best way to get at the truth. Phaedrus takes on the nature of rhetoric, psychology, and love, as does the famous Symposium. Finally, Apology gives us Socrates' art of persuasion put to the ultimate test--defending his own life. Pelliccia's new Introduction to this volume clarifies its contents and addresses the challenges of translating Plato freshly and accurately. In its combination of accessibility and depth, *Selected Dialogues of Plato* is the ideal introduction

to one of the key thinkers of all time. *A History of Sequence Dancing and Script List* Oxford Handbooks

Feeling Exclusion: Religious Conflict, Exile and Emotions in Early Modern Europe investigates the emotional experience of exclusion at the heart of the religious life of persecuted and exiled individuals and communities in early modern Europe. Between the late fifteenth and early eighteenth centuries an unprecedented number of people in Europe were forced to flee their native lands and live in a state of physical or internal exile as a result of religious conflict and upheaval. Drawing on new insights from history of emotions methodologies, *Feeling Exclusion* explores the complex relationships between communities in exile, the homelands from which they fled or were exiled, and those from whom they sought physical or psychological assistance. It examines the various coping strategies religious refugees developed to deal with their marginalization and exclusion, and investigates the strategies deployed in various media to generate feelings of exclusion through models of social difference, that questioned the loyalty,

values, and trust of "others". Accessibly written, divided into three thematic parts, and enhanced by a variety of illustrations, *Feeling Exclusion* is perfect for students and researchers of early modern emotions and religion.

Plato is the best known, and continues to be the most widely studied, of all the ancient Greek philosophers. The updated and original essays in the second edition of the Oxford Handbook of Plato provide in-depth discussions of a variety of topics and dialogues, all serving several functions at once: they survey the current

academic landscape; express and develop the authors' own views; and situate those views within a range of alternatives. The result is a useful state-of-the-art reference to the man many consider the most important philosophical thinker in history. This second edition of the Oxford Handbook of Plato differs in two main ways from the first edition. First, six leading scholars of ancient philosophy have contributed entirely new chapters: Hugh Benson on the Apology, Crito, and Euthyphro; James Warren on the Protagoras and Gorgias; Lindsay Judson on the Meno; Luca Castagnoli on the Phaedo; Susan Sauvé Meyer on the Laws; and David Sedley on Plato's theology. This new edition therefore covers both dialogues and topics in more depth than the first edition did. Secondly, most of the original chapters have been revised and updated, some in small, others in large, ways.

From St. Augustine and early Ethiopian philosophers to the anti-colonialist movements of Pan-Africanism and Negritude, this encyclopedia offers a

comprehensive view of African thought, covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe. The term "African thought" has been interpreted in the broadest sense to embrace all those forms of discourse - philosophy, political thought, religion, literature, important social movements - that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience. The Encyclopedia is a large-scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements, producing a collection that is an essential resource for teaching, an invaluable companion to independent research, and a solid guide for further study.
